

Fragomen and Nomadic: An Integrated European Solution for Businesses

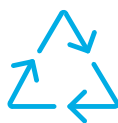

Fragomen, the world's leading immigration firm, in conjunction with Nomadic, a ground-breaking short-term travel technology company, are uniquely placed to offer integrated European mobility solutions for businesses.

Our strategic services incorporate immigration, posted worker regulations and social security compliance. This holistic approach helps companies to maximise time and cost efficiencies, while ensuring full compliance for your employees in Europe from day one of an assignment.

HOW OUR EUROPEAN SOLUTION CAN HELP YOU

We offer a comprehensive solution for European Work-Readiness Compliance, including Posted Worker Directive, EU ICT Permits, Social Security, Equal Pay, programme management and other related services.

This flexible solution combines advanced technology to automate the process in several jurisdictions, with a manual process in other locations to ensure Europe-wide coverage.

Fragomen's knowledge powers the comprehensive assessment, while the automated execution is supported by Nomadic, a technology solution that sits within our technology innovation subsidiary, Fragomen Technologies Inc.

WORK-READINESS SERVICES

► Immigration Compliance
