

ENHANCED SAFETY PROTOCOLS FOR LIVE EVENTS

The highest standards of safety and hygiene will be applied to Northstar Meetings Group events, both in the planning of the event, and its production and management onsite.

Physical Contact:

Handshakes and embraces will be discouraged, as will the exchange of printed materials, business cards and sales brochures. Digital alternatives will be recommended.

Enhanced Cleaning:

All venues and sites where participants will gather will undergo enhanced, deep cleaning before, during and after our events.

Food & Beverage:

Northstar will work closely with venue partners to employ the highest standard of food safety.

Personal Hygiene:

Hand washing facilities and hand sanitizing stations will be provided at all hotels and venues.

PreCheck:

Northstar discourages attendance from participants who become symptomatic (fever, loss of sense of taste or smell, nausea, etc.) at any time prior to traveling to Northstar events.

Environmental Considerations:

With venue partners, Northstar will review the air filtration provided by the meeting venues' heating, ventilation and air conditioning systems.

Screening:

Northstar requires that all attendees receive a negative PCR or Rapid Antigen test to be taken within 72 hours prior to their flight or proof of vaccination in order to attend. Once the attendee has received such documentation, please share it with the designated Northstar representative for the event.

Registration:

Northstar will employ a system that facilitates non-contact badge distribution for all participants.

Masks:

Participants will be asked to wear a face mask en route, on entry to the hotel or venue, and during all event functions.

Physical Distancing:

All event participants must follow physical distancing guidelines.

Medical Support:

Northstar will implement onsite medical support in coordination with local authorities and local medical personnel.
