Success Story: Women's Own Adventure

Women's Own Adventure (WOA) is an Australia-based tour operator specialising in small group travel for women.

Founder and Director Marika Martinez recognised the wide-ranging use of mobile devices amongst travellers and wanted to find a solution that would add value to WOA's customers whilst they were on tour. It was essential that the app was agile and easy to use, and that WOA clients could make use of full digital accommodation details and itineraries, as well as a chat function to keep in touch with their tour group and guide.

“I decided upon **Tineri as it offered everything that I was looking for at a very affordable price**. I was particularly impressed with the amount of detail the clients could access as their own devices.”

Marika Martinez, Director, WOA
