In this document you will find

1. INTRODUCTION

Meet Travel Compositor

TravelCompositor is a software company dedicated to the development and improvement of world patented solutions for travel sales.
TravelC is a SaaS platform adapted to every travel business model with ability to search, quote and book any combination of services (flight, train, bus, ferry, bus, hotels, houses, activities, transfers, car rental, insurances, circuits…) to be sold stand-alone or combined in dynamic, semi-dynamic or fixed packages thanks to its wide range of booking engines offer.

The solution is delivered in a microsite format already ready to be pure B2B, pure B2C or even both at the same time allowing the B2B2C.

Added Values

We won't charge you for…

- Consolidation of suppliers
- Operational support
- Trainings
- General improvement suggestions and their developments
- Analysis of custom developments
- We don't have prepaid packages of hours or of any other kind
- Management of custom projects
- Account management
- Quality & Success services for the platform and its customers

Our values make a difference:

"Clients are our heart, that we care surrounding them with a world of services"

"Innovation is our Soul, reflected in a new improved version uploaded every day"

"Our brain, a platform that is always working"

"We are a team on each member has something to bring to you"

"We act as shareholders, being honest, positive, humble and proactive for you"

2. AVAILABLE MODELS

All TravelC technology included in the new TC MASTER models. Enjoy all our patents, functionalities and modules! Forget about add-ons and future purchases because the new TravelC models are here including everything you need to 100% digitalise your quotations and boost your online sales.

2 models to choose from:

TC MASTER

The most advanced technology for selling trips with a personalized front and back-end. It includes hundreds of functionalities, 4 booking engines to choose from, all the options for loading your product and up to 10 XML direct connections with providers and 25 more in consolidation. Ideal for small operators, receptors and start-ups.

TCMASTER All-IN

Add to the TCMASTER model all these solutions: 4 more engines to choose from (8 in total), all existing Premium functionalities, unlimited connection of XML providers (+ 100) and guarantee that all future innovations will be automatically included in this model. The best option for Tour Operators, OTAS and agency networks.
