

## How is your travel programme currently using AI? (select all that apply)

063

As the travel manager, I use it personally to help with day-to-day tasks

We are innovating with AI internally with projects like chatbots, data mining

Our partners are applying their AI advances to the services and products already at work in our programmes

We are collaborating with partners and/or looking specifically to bring on AI-powered products to drive the travel programme

## How comfortable are you with your suppliers applying AI solutions to serve your programme?

050

1=keep that stuff away from me
