We also offer a wading pool ideal for children with a depth of 0.45 metres and complimentary kids’ amenities.

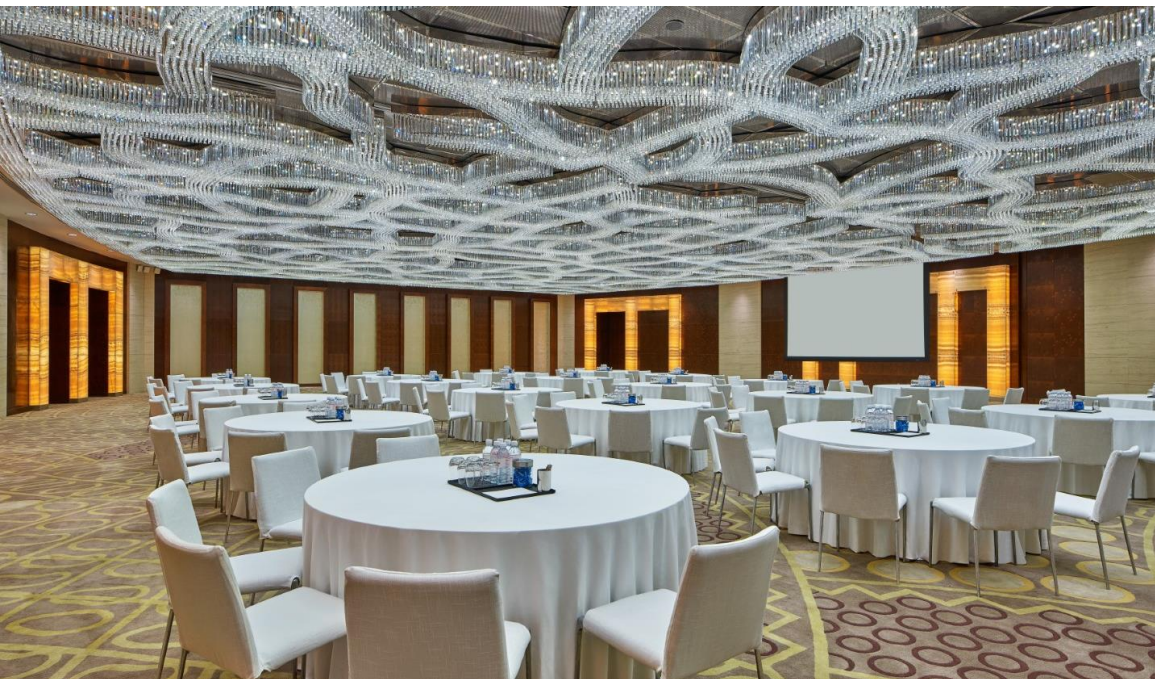

## GRAND BALLROOM

The 11,248 sq ft Grand Ballroom features a pillar-free, oval design with soft, curved architecture, creating an elegant atmosphere. Its Calacatta Oro marble floors, crystal chandeliers, and latticework panels reflecting local Malay customs add sophistication to any event.

## GRAND SALON

The Grand Salon, at 6,956 sq ft, is a pillarless, oval-shaped venue with a 4.2-meter ceiling. Featuring Calacatta Oro marble, crystal chandeliers, and Malay-inspired latticework, it's ideal for events like car launches, meetings, and conferences.

# GRAND RESIDENCE

The Grand Residence spans 5,759 sq ft, offering a unique, residential-style setting for exclusive meetings. Featuring walnut burl paneling, it provides a warm, flexible space ideal for meetings or cocktail receptions.

## [ POOLSIDE RESIDENCE ]

Poolside Residence spans 8,243 sq ft, featuring five private event rooms and a Gallery with gold and brass lighting. The space blends modern design with traditional Malaysian elements, including hibiscus-patterned carpets. Meals are freshly prepared at the Loft Kitchen, with views of the Petronas Twin Towers.

**LEADER OF  
ESG INITIATIVES**

# CAGE-FREE EGGS

At Hyatt, we believe in giving hens the freedom to move, socialize, and express their natural behaviors. That's why we've partnered with LK Fresh, a trusted supplier committed to animal welfare. LK Fresh provides cage-free eggs, sourced from hens that live in spacious, humane environments—far from the cramped conditions of traditional cages. These hens enjoy clean nests, perches, and constant access to fresh water and feed.

It's a practice that puts animal welfare first and ensures our guests receive the highest-quality eggs, all while supporting responsible farming.

# CULTIVEA

At Grand Hyatt Kuala Lumpur, we're reimagining dining with a revolutionary farm-to-table experience, in partnership with Cultiveat, a tech-driven urban farm. This collaboration brings the freshest, pesticide-free, non-GMO lettuce directly to our guests' plates, grown right inside the hotel. Cultiveat's indoor vertical farm uses cutting-edge technology to create the perfect environment for year-round harvests—optimized light, nutrients, and temperature. It's a sustainable approach that uses 98% less water than traditional farming, making the most of our planet's natural resources.

As the first hotel in Malaysia to embrace indoor vertical farming, we're not just serving food; we're shaping the future of sustainable dining, offering our guests a taste of tomorrow, today.

# ECOTAPS™ WATER

At Grand Hyatt Kuala Lumpur, we've embraced an innovative system that redefines sustainability. Our bottles are meticulously cleaned and reused in a closed-loop cycle, eliminating the need for disposable bottles and reducing waste. Thanks to Ecotaps™' advanced water filtration system, we purify water on-site, cutting out the need for transportation and logistics.

This eco-conscious approach not only ensures premium water for our guests but also drastically reduces emissions and plastic waste, underscoring our commitment to the environment and sustainable practices.

# FOOD WASTE MANAGEMENT

In April 2022, Grand Hyatt Kuala Lumpur took a major step toward sustainability by introducing Lumitics, a cutting-edge Food Waste Prevention System. This smart technology automatically identifies, measures, tracks, and records food waste, providing our kitchens with valuable insights to reduce waste each day.

By leveraging this data, we're not only cutting costs but also shrinking our environmental footprint, making a meaningful impact on both our operations and the planet.

## RAINWATER HARVESTING & CONDENSATE WATER RECYCLING

At Grand Hyatt Kuala Lumpur, we capture and store rainwater from the building's roofs and other accessible surfaces. This water is filtered and used for daily operations, including in public areas and for gardening.

Since the hotel's opening, we've been harvesting rainwater to support our landscape irrigation system, promoting biodiversity around the hotel, and helping power the cooling tower. It's just one of the ways we're reducing our environmental impact and embracing sustainable practices.

## GREEN BUILDING INDEX (GBI)

The Green Building Index (GBI) is Malaysia's first comprehensive environmental rating system for buildings, developed by the Malaysian Institute of Architects (PAM) and the Association of Consulting Engineers Malaysia (ACEM).

Since 2012, Grand Hyatt Kuala Lumpur has proudly earned and maintained GBI certification, undergoing a renewal audit every three years to ensure we continue meeting the highest sustainability standards.
