Incentives & Events.

Green Inspirations DMC is the only company in Tanzania with one CITE (Certified Incentive Travel Executive) and two CIS (Certified Incentive Specialists) in its Management Experts and we are proud of it.

We are trained to understand your needs and objectives better than anyone else in our region with a full knowledge of the destination resources, creative thinking, impeccable planning, and faultless delivery.

Because we all know that Incentive programs cannot be repeated, repaired, or refunded, they only happen once and require a “one-time unique performance”.

3 MAGNIFICENT DESTINATIONS

KENYA

Kenya is one of Africa's most distinct and stunning locations. Sustainable tourism and a globally recognized model of wildlife management means that you see pristine wilderness and internationally significant habitats where wildlife roam freely.

The intrigue and adventure of Kenya reaches back into the birth of mankind, stretches along miles of white sand beaches, and journeys into dense forests. Iconic landmarks such as Mount Kenya stand above the savannah plains and tropical woodlands while its intricate waterfalls lie nestled within the montane foothills. Cool breezes drift across the Indian Ocean to refresh your soul in the country's many coastal towns and islands. From her highest peaks to her deepest ocean depths, Kenya gives you the African dream trip of a lifetime!

TANZANIA

Home to Kilimanjaro and the Serengeti, Tanzania is the largest country in East Africa, and includes the islands of Zanzibar, Pemba, and Mafia. Tanzania has some of the best National Parks of Africa. With 56 million inhabitants from over 120 different tribes, Tanzania attracts visitors from all over the world for its incredible contrasting landscapes.

Tanzania is also one of the most important paleoanthropological sites in the world and has proven invaluable in furthering understanding of early human evolution.

The best wildlife viewing months are during the dry season from June to October. The best chance of seeing the wildebeest migration in the Serengeti is during June and July.

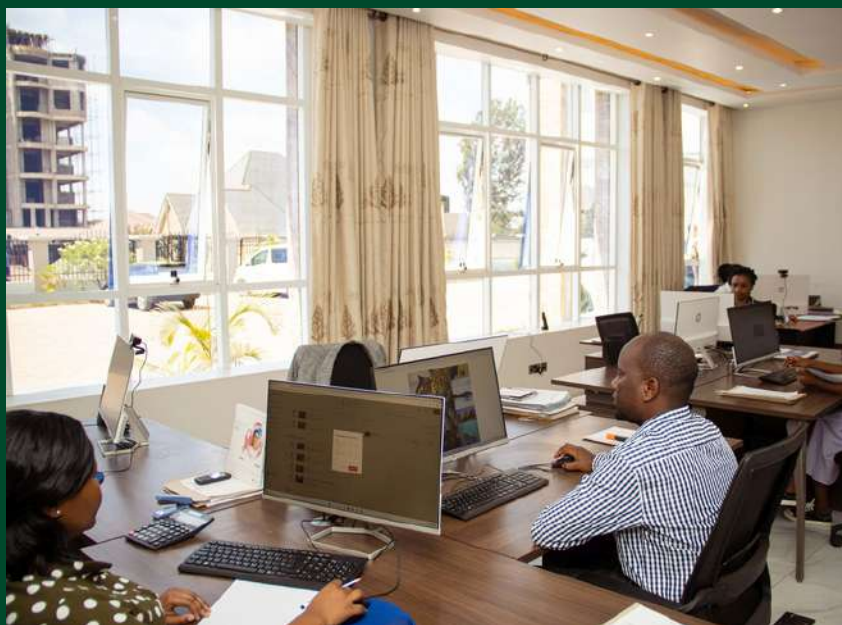

ZANZIBAR

Discover a destination steeped in legend and mystery. An evocation of the exotic. Zanzibar better known amongst the local as Unguja is a semi-autonomous region, some 26 kilometers off the coast of mainland Tanzania.

Laze around in the sun, stroll the tumbling street of Stone Town or be lulled by the Arab tones of Swahili. Inhale the lingering fragrance of the spice plantations, get mystified by its history and culture or just take off for an adventure, whether inland or otherwise. Every day in Zanzibar is an opportunity to discover, immerse and enjoy all it has to offer.
