The satisfaction of making **dreams come true**

Meliá Hotels International aims to deliver the most perfect events and make everything you imagined come true. This is the basis of the Meetings & Events concepts we bring to you in our **Meliá PRO Meetings & Events** portal.

To achieve our aims, we provide a large team of expert professionals who bring all their experience to supporting and advising you as you make your decisions about any of our more than 100 Meetings & Events hotels around the world.

Our key features

GROUP BOOKING TOOL

Totally free of charge, you can create a personalised website for your event in any of our hotels. The website allows attendees to make online bookings individually, whenever they wish, and at the special rate agreed for the event.

SUSTAINABILITY

In Meliá, we are redefining our value proposition for the MICE segment with a priority objective in mind: to be a strategic partner and facilitator of more sustainable events, a fundamental feature that will be at the forefront of the future development of the industry.

INNOVATIVE CUISINE FOR EVENTS

Meliá Hotels International recognises the significant importance of dining experiences, providing experts who can help you choose your menus as well as stunning decoration and meticulous attention to even the tiniest details. Our goal is to stimulate creativity while remaining true to the basic essence of traditional cuisine.

FLEXIBILITY

Our flexibility is a guarantee. We offer different flexible possibilities to make your event become a reality.

Find everything you are looking for to celebrate an event with the maximum guarantee and flexibility.

ROAD TO net zero EVENTS

In a world that yearns for a cleaner and more sustainable future, Meliá Hotels International, a prominent leader in sustainability in the hotel global industry, presents “Road to Net Zero Events”, in which every step we take today can lead us towards a brighter and greener tomorrow.

By choosing us, you will be partnering with a sustainability leader committed to responsible management, with an extensive programme of initiatives to reduce our carbon footprint, including the use of green energy in all our hotels in Europe, and more key destinations to come in the near future.

Also, all measurements done with this project are helping us to help improving our process and reducing our carbon emissions.

In collaboration with Creast, we have developed a state-of-the-art technology, to calculate the carbon footprint of every event we host from the energy consumption to the menu ingredients, helping our clients make more responsible decisions.

Our customers will be able to find out this information at two crucial moments: at proposal and at its closure.

Our goal is to create events that not only inspire and connect, but also contribute to a greener planet. Therefore, if your event is confirmed, we will work collectively to make it carbon neutral, either through your company's offset program, or through Meliá Hotels International's “The Planet We Love” project with credits certified by the United Nations.
