## Eco-Aware & Energy Efficient

### LEED-Gold Certified

OCEC makes use of environmentally sustainable design practices that meet international LEED Gold certification - accredited by U.S. Green Building Council.

### Natural Lighting

Floor-to-ceiling windows overlook landscaped gardens & allow natural light flow in to the building interior.

### Nature Reserve & Gardens

The Centre overlooks a wadi & wetland nature reserve -home to a variety of oman's exotic birdlife & flora rose gardens, water features & multiple floral species throughout the OCEC precinct.

### OCEC Energy Centre

OCEC's energy centre serves as a district cooling plant for the entire Madinat Al Irfan east precinct.

### Sustainability

Reduced annual carbon footprint by the use of solar power for water heating systems. Architecturally advanced "green building" with open spaces & expansive concourse areas.
