RevRank AI

PEOPLE TO PEOPLE

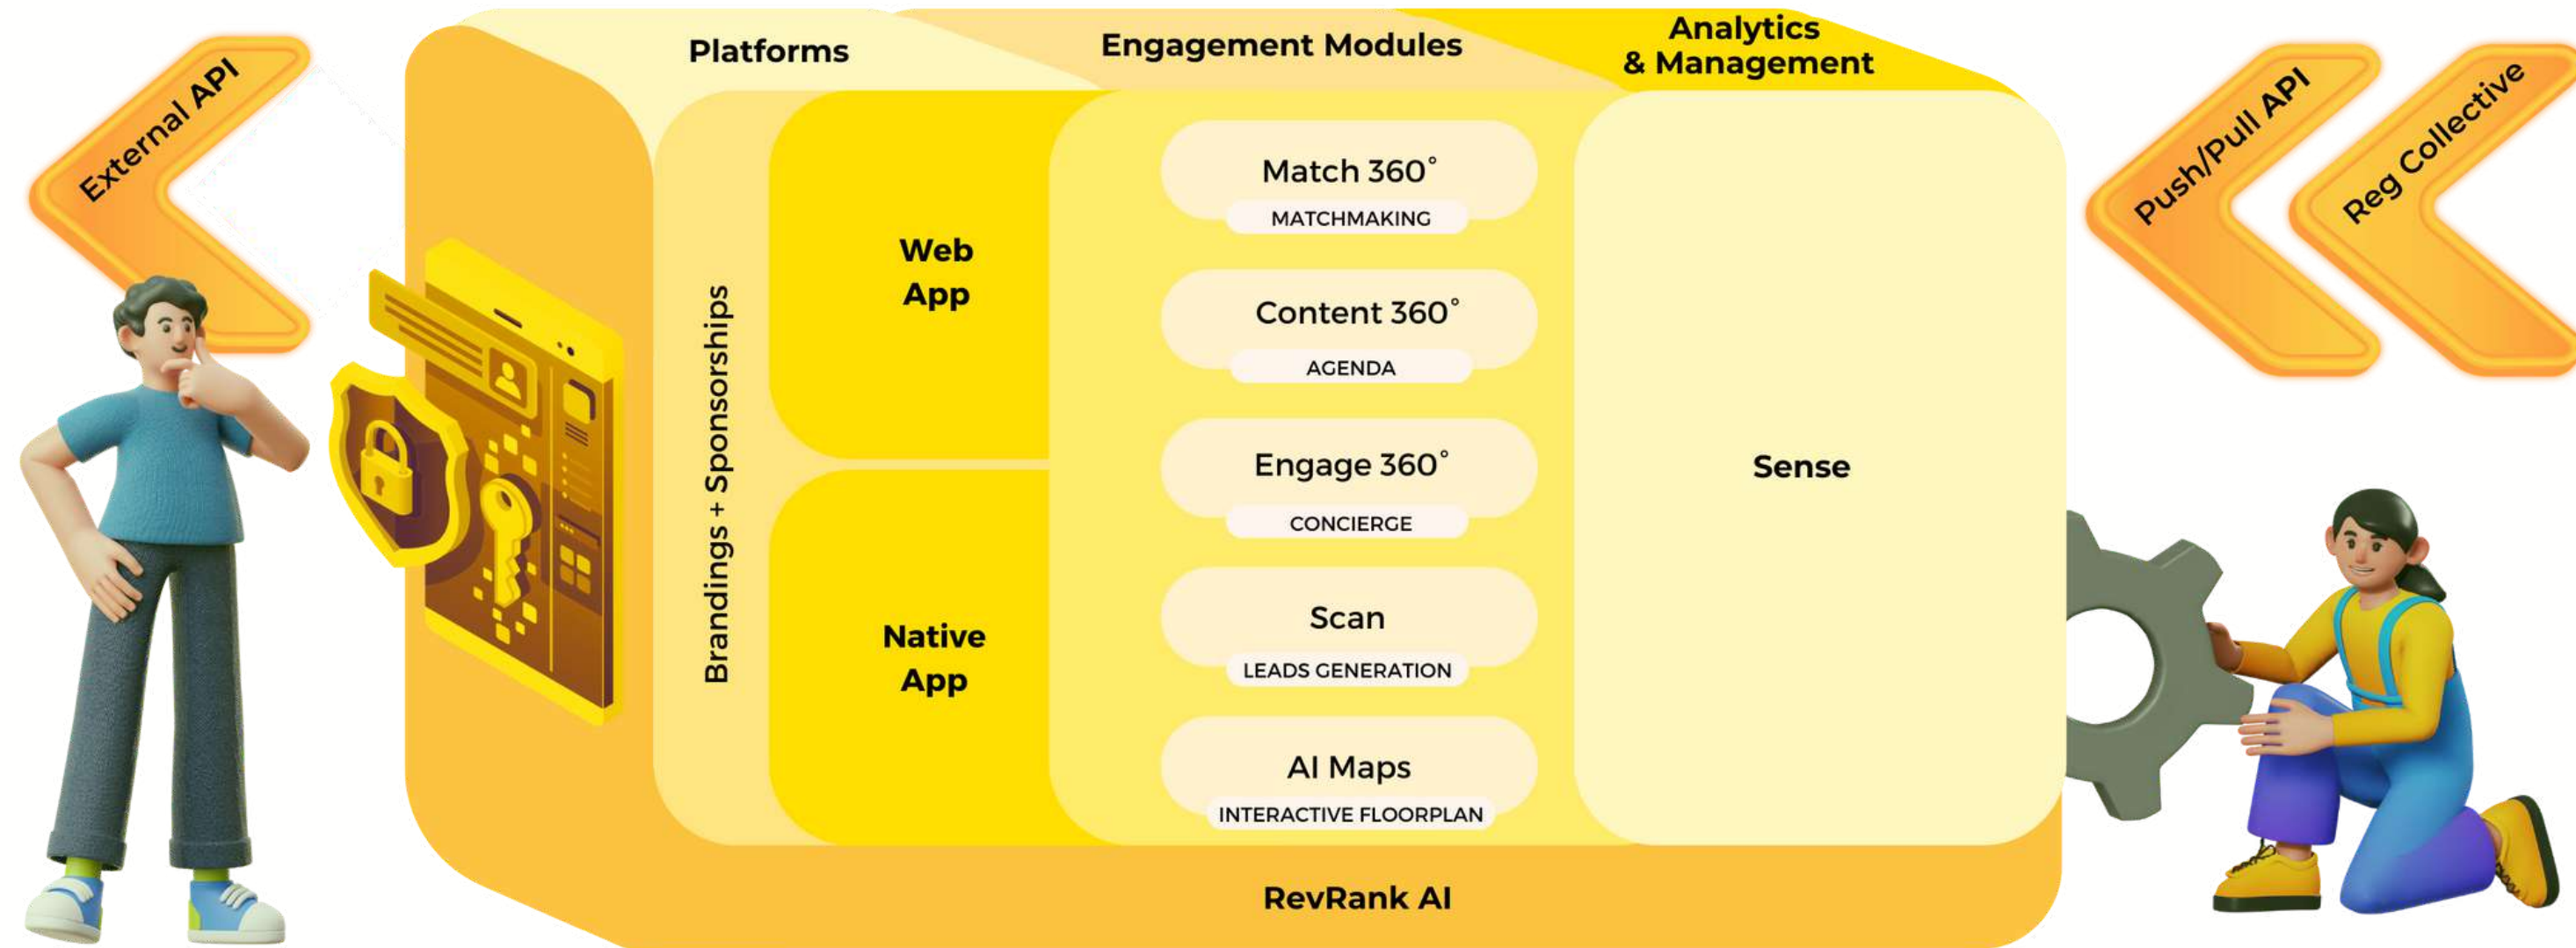

The quality of conversations and relationships hinges on relevant face to face connections. Jublia RevRank AI works alongside organisers to progressively understand and matchmake rapport through fruitful recommendations.

CONTENT TO PEOPLE

You can have the best event content but if no one knows about it, then you have wasted your time producing it. Jublia RevRank AI drives focused content discovery by better connecting relevant event programmes to the right audience.

Award Winning Engagement Journey

Sense

REAL-TIME ANALYTICS

We are trained in the art of data story-telling from interactions, to opportunities, to realisation.

REAL-TIME MANAGEMENT

An event setting is dynamic, that is why we have invested in creating powerful management functions.

ROI REPORTING

We produce a dedicated ROI report for every person, each company, products and sessions.

NET PROMOTER SCORING (NPS)

Part of our end-to-end experience includes an automated NPS and Customer Satisfaction scorer.

Match 360°

IN-PERSON MEETINGS

Pre-scheduled meetings are directed to specific pre-set locations i.e. Meeting Tables or Booths.

VIRTUAL MEETINGS

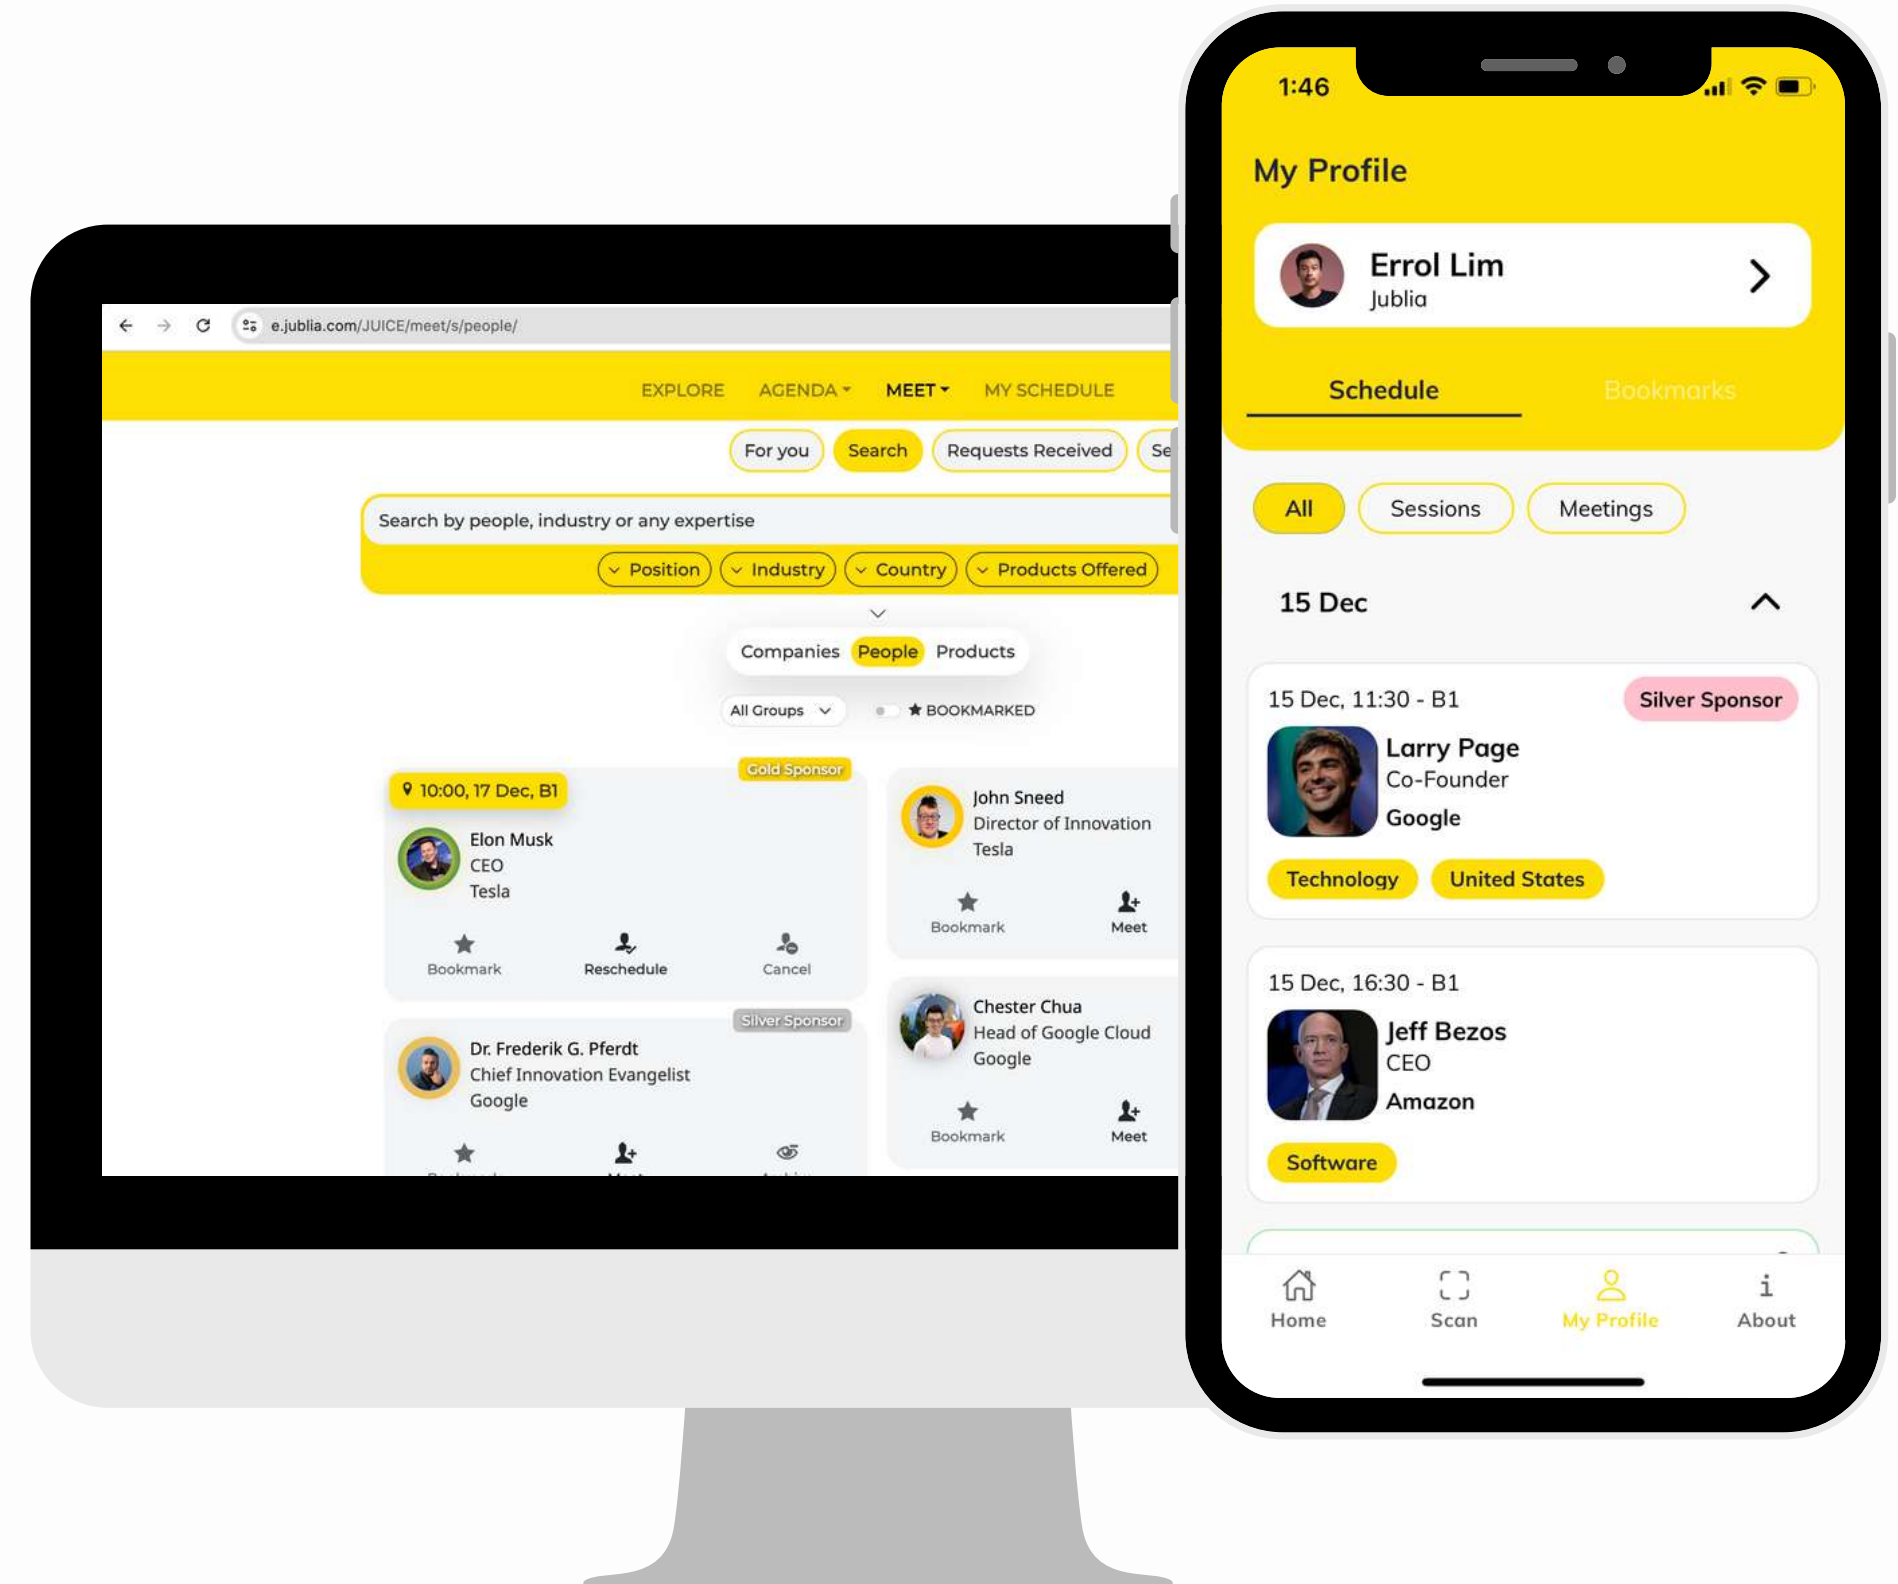

We support our own proprietary multi-user video call system that tracks attendance automatically.

MUTUAL AVAILABILITY

We support double opt-in or single opt-in meeting formats that effectively de-conflict time slots.

MEETINGS MANAGER

Manage the meetings of your VIPs or Hosted Buyers in real-time with real-time management tools.

Content 360°

UNLIMITED AGENDA TRACKS

Not only do we support unlimited concurrent tracks, you can also limit access entitlement by ticket type.

RTMP SUPPORT

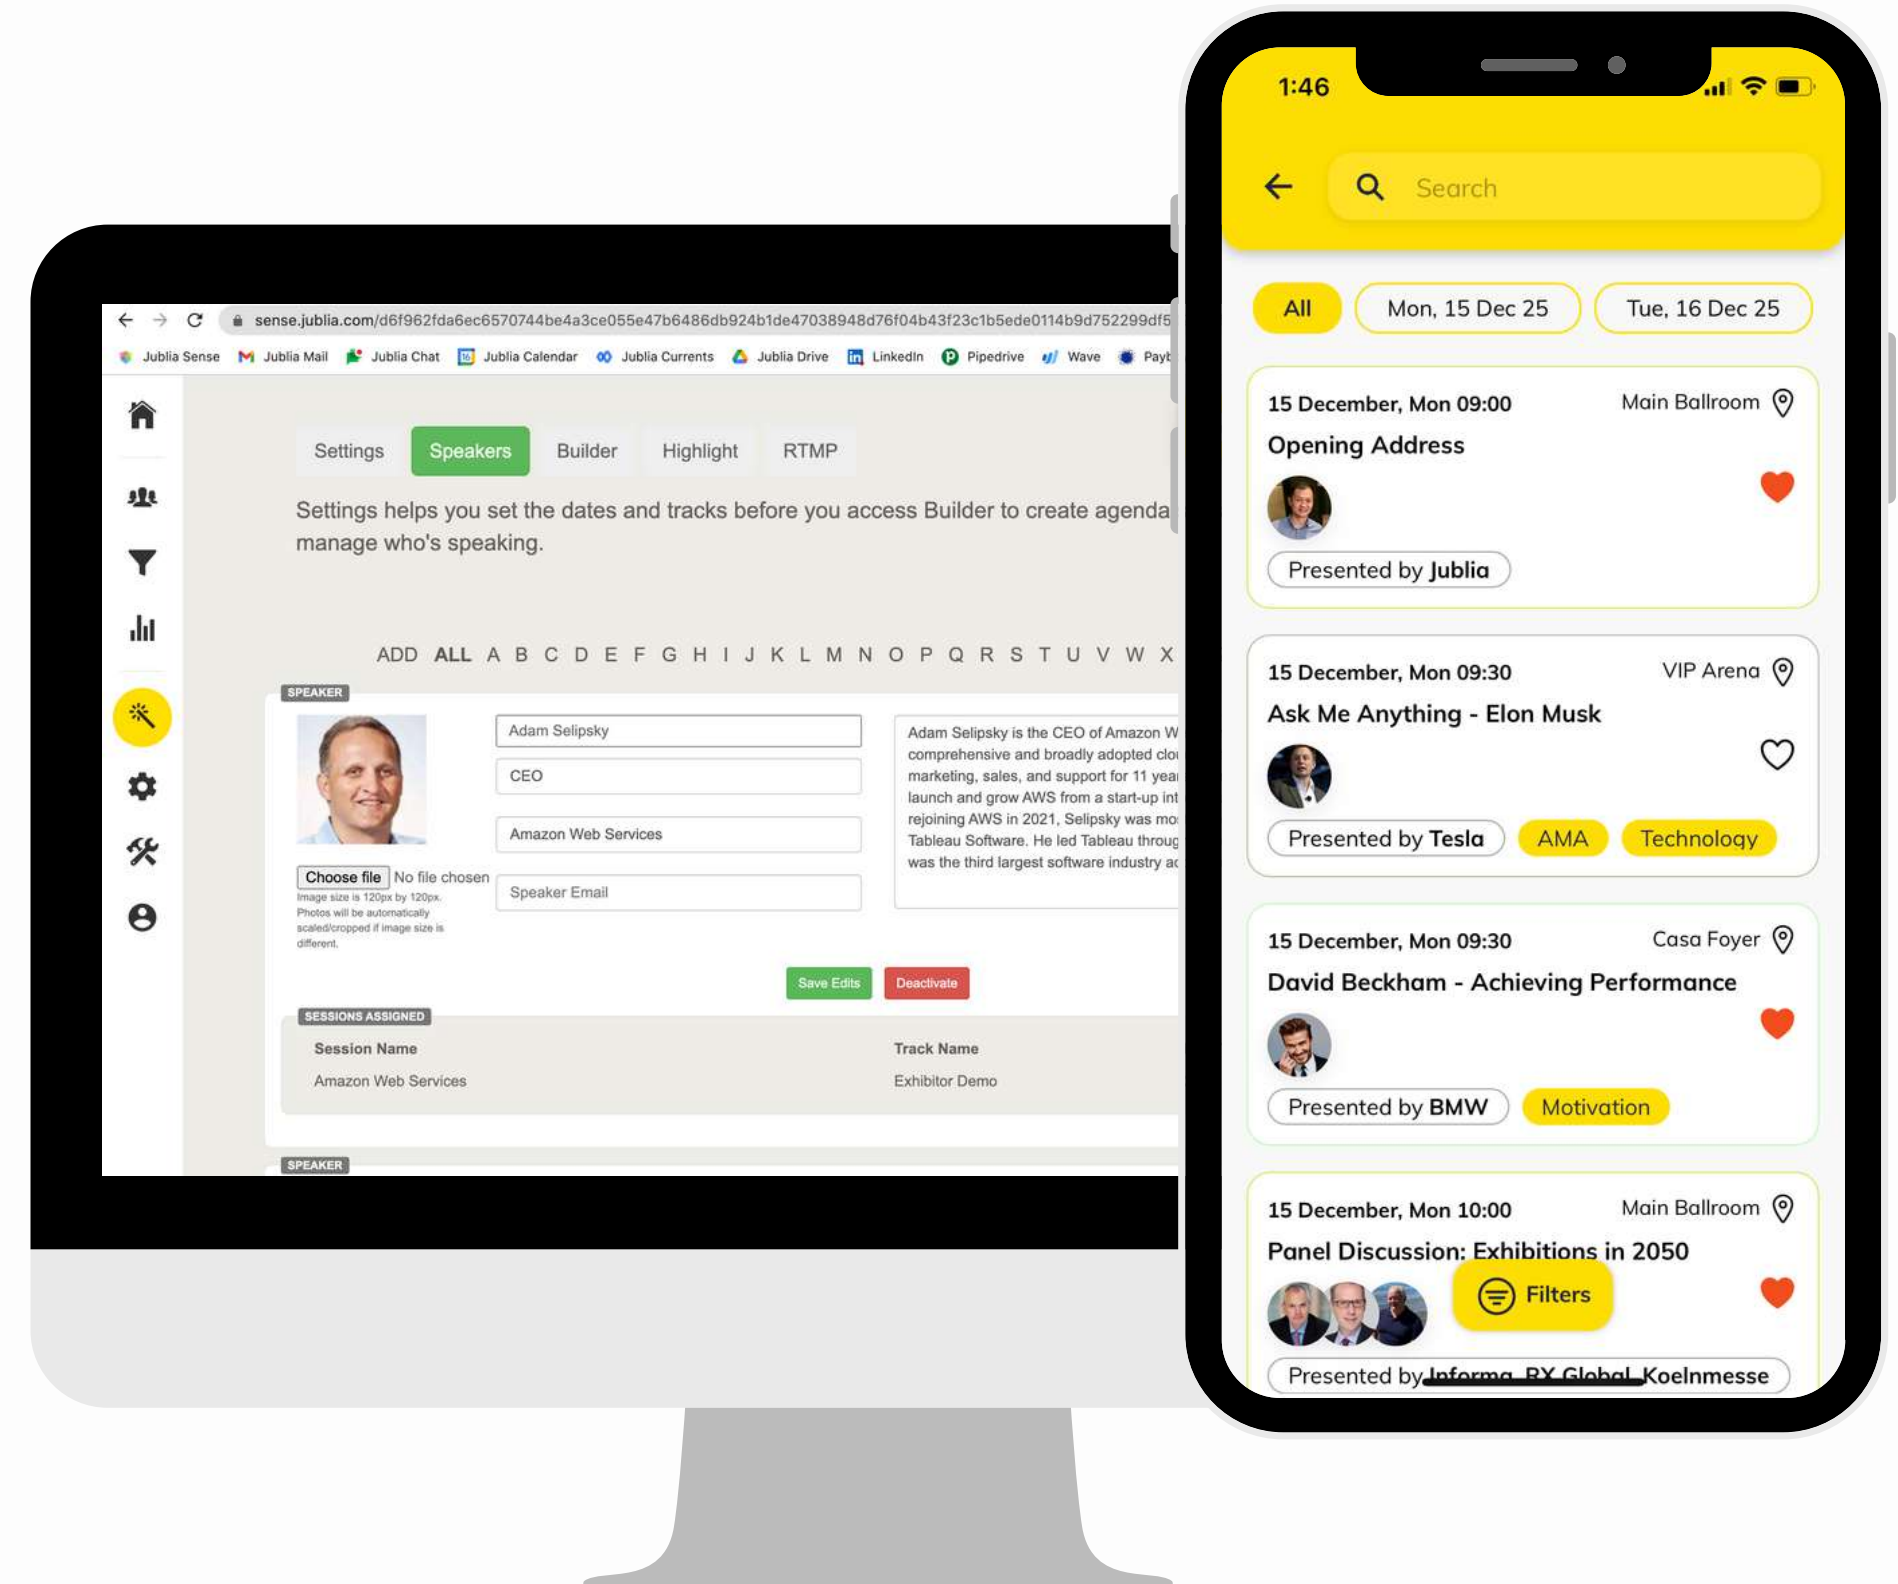

Organising a live stream session? We support RTMP tools that feed streams directly into our video player.

INTEGRATE INTERACTIVE TOOLS

We integrate with the best-in-class interactive tools for QnA, Polling, Live Chat and Surveys.

REAL-TIME BUILDER

Craft your content experience in real-time with easy to use management and builder tools.

Engage 360°

HUMAN CONCIERGE

Every project is equipped with an engagement expert who implements an engagement campaign.

ENGAGE BY BEHAVIOUR

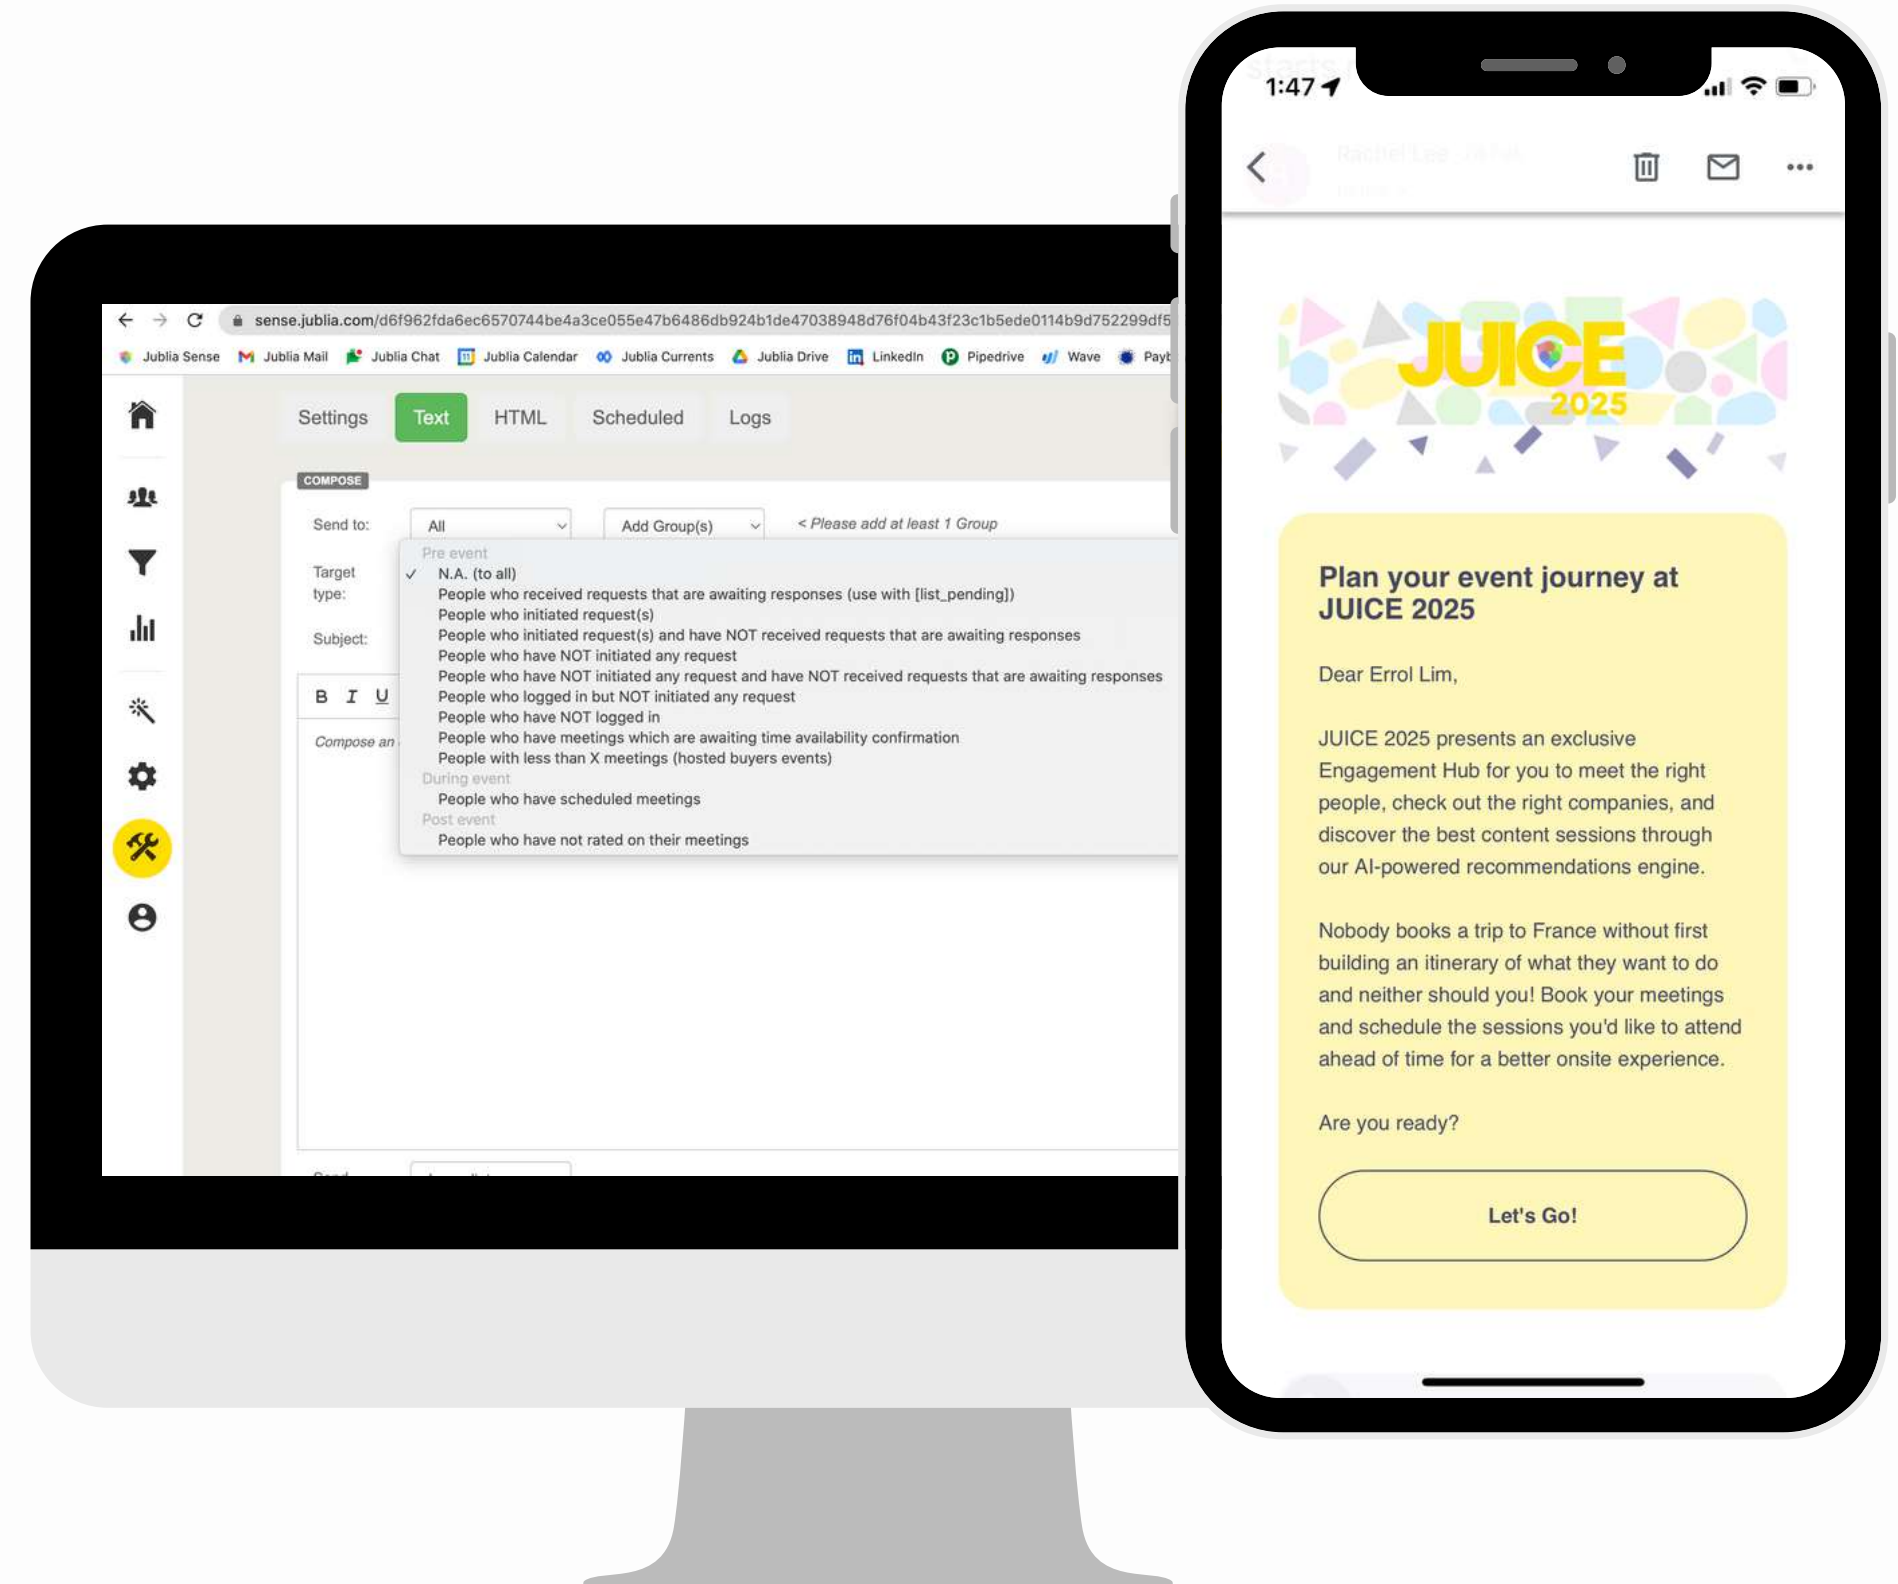

All communications that we sent to users are tailored based on activity and behaviour.

AUTOMATIC REMINDERS

We automate the simple but important parts of the engagement cycle, such as meeting reschedules.

SCHEDULE COMMUNICATIONS

Pre-plan your engagement campaign by scheduling when to send and what to communicate.

Scan

AVAILABLE ON NATIVE

We combined the native application experience to house Scan - the entire experience is under one roof.

RATE THE QUALITY OF LEADS

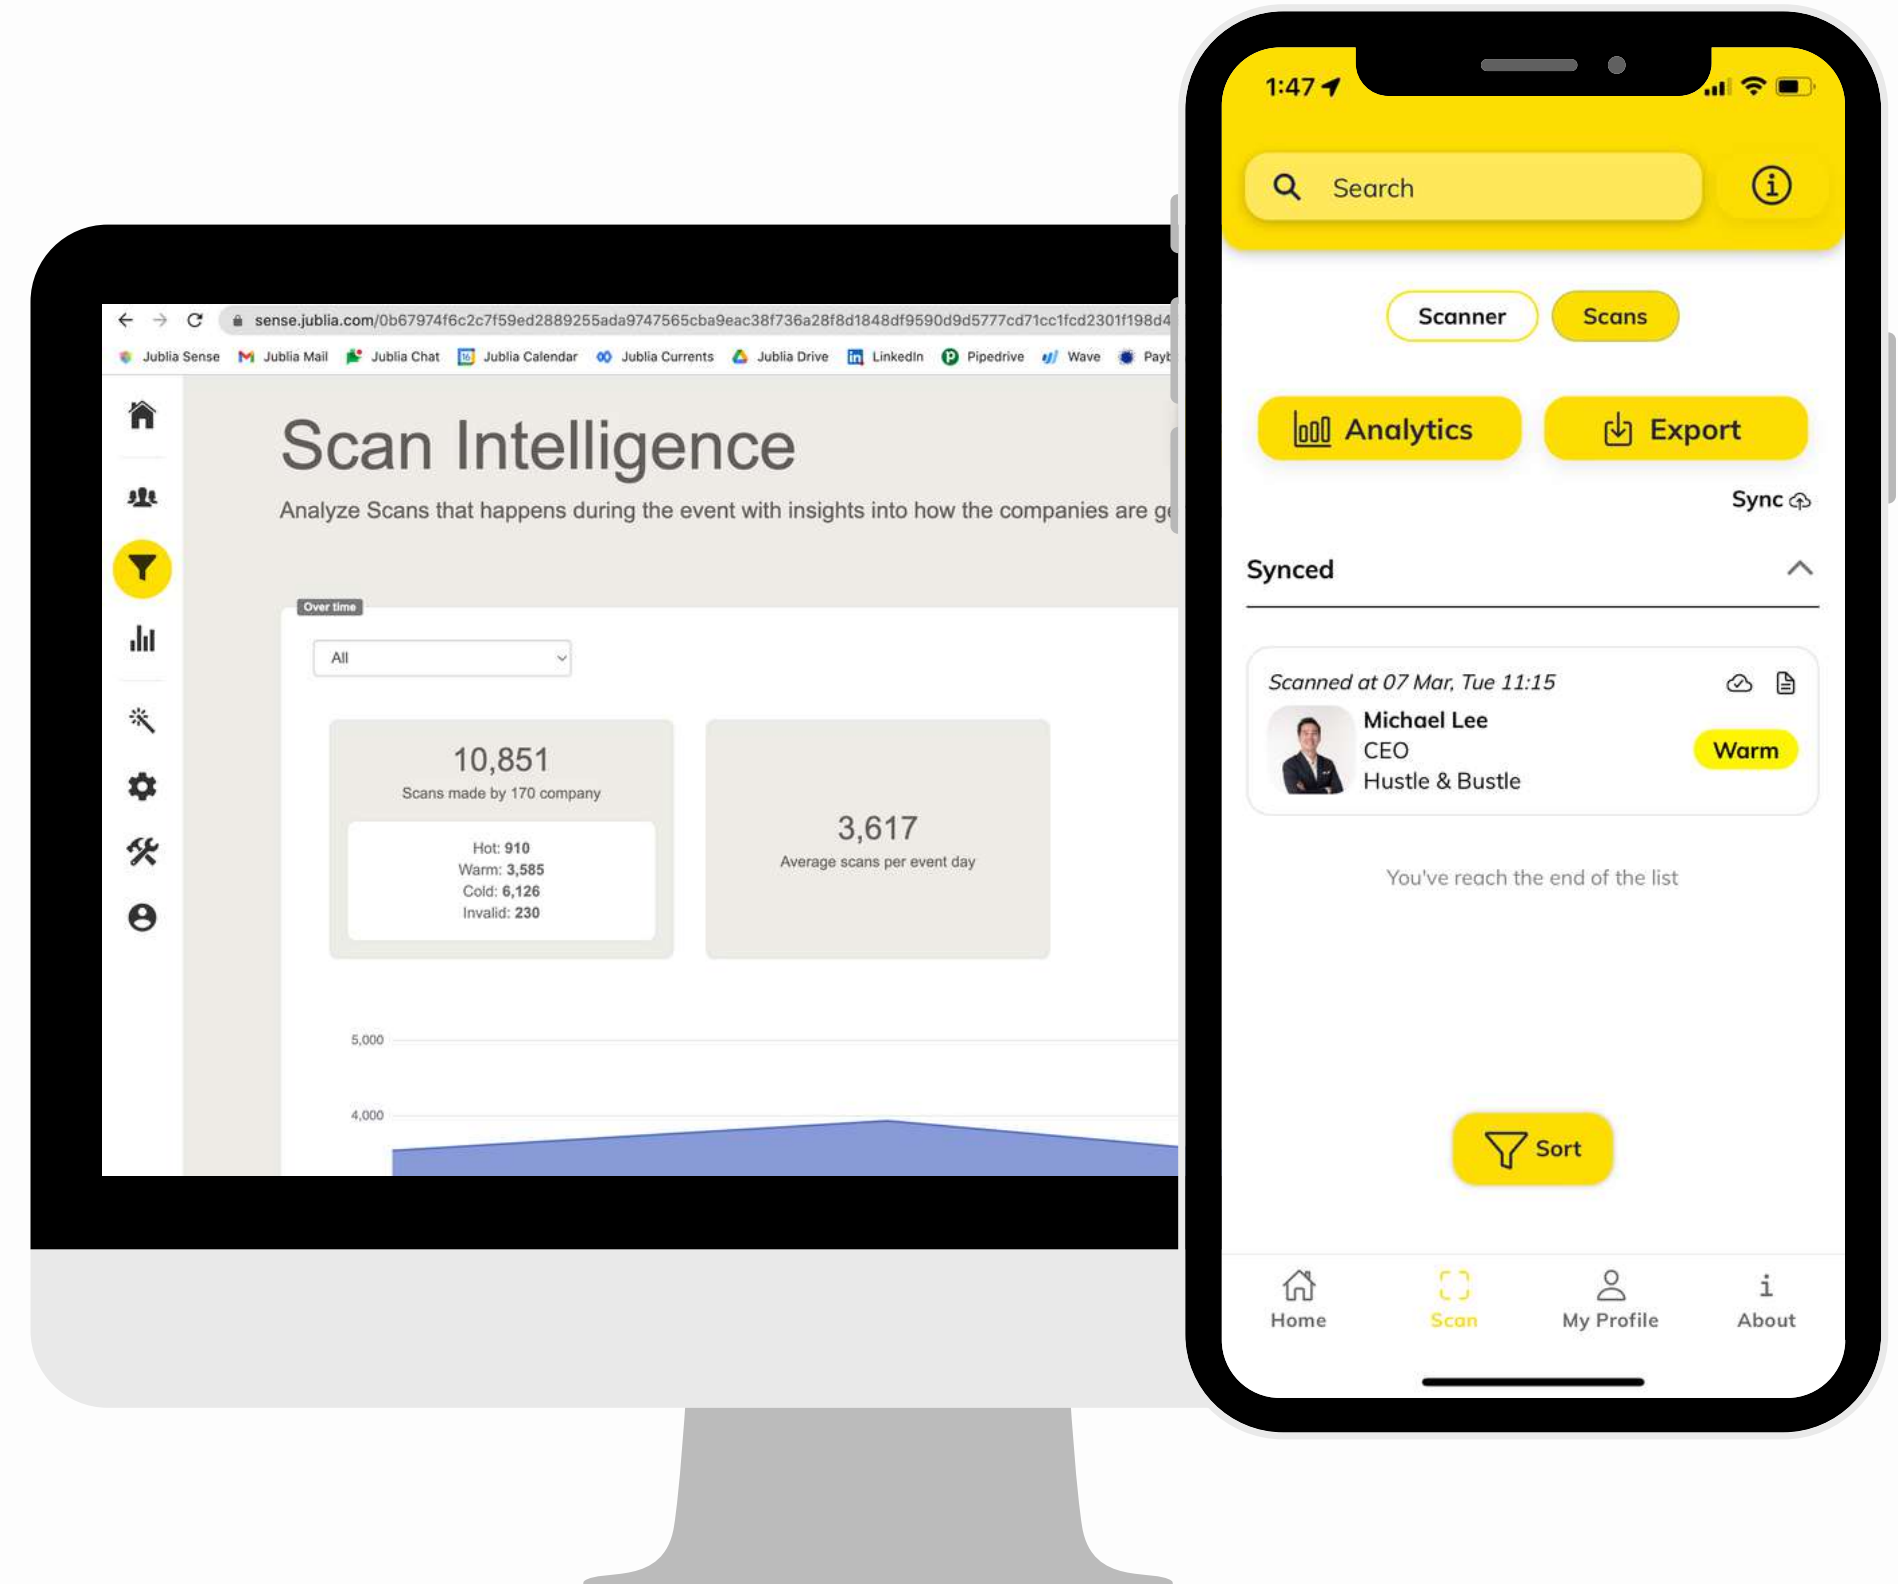

Leads can be rated as Cold, Warm or Hot - including the ability to indicate interest fields and write notes.

ACCESS LEADS ANALYTICS

Users can access a dashboard of their company Scan activities. for accountability, from the app.

EFFORTLESS EXPORT

Export all your leads that you have scanned and collected with just one click from the app.

AI-Powered Maps

AVAILABLE ON WEB & NATIVE

Grant your attendees a head start with planning by hosting interactive maps on the event app & website.

WAYFINDING CAPABILITIES

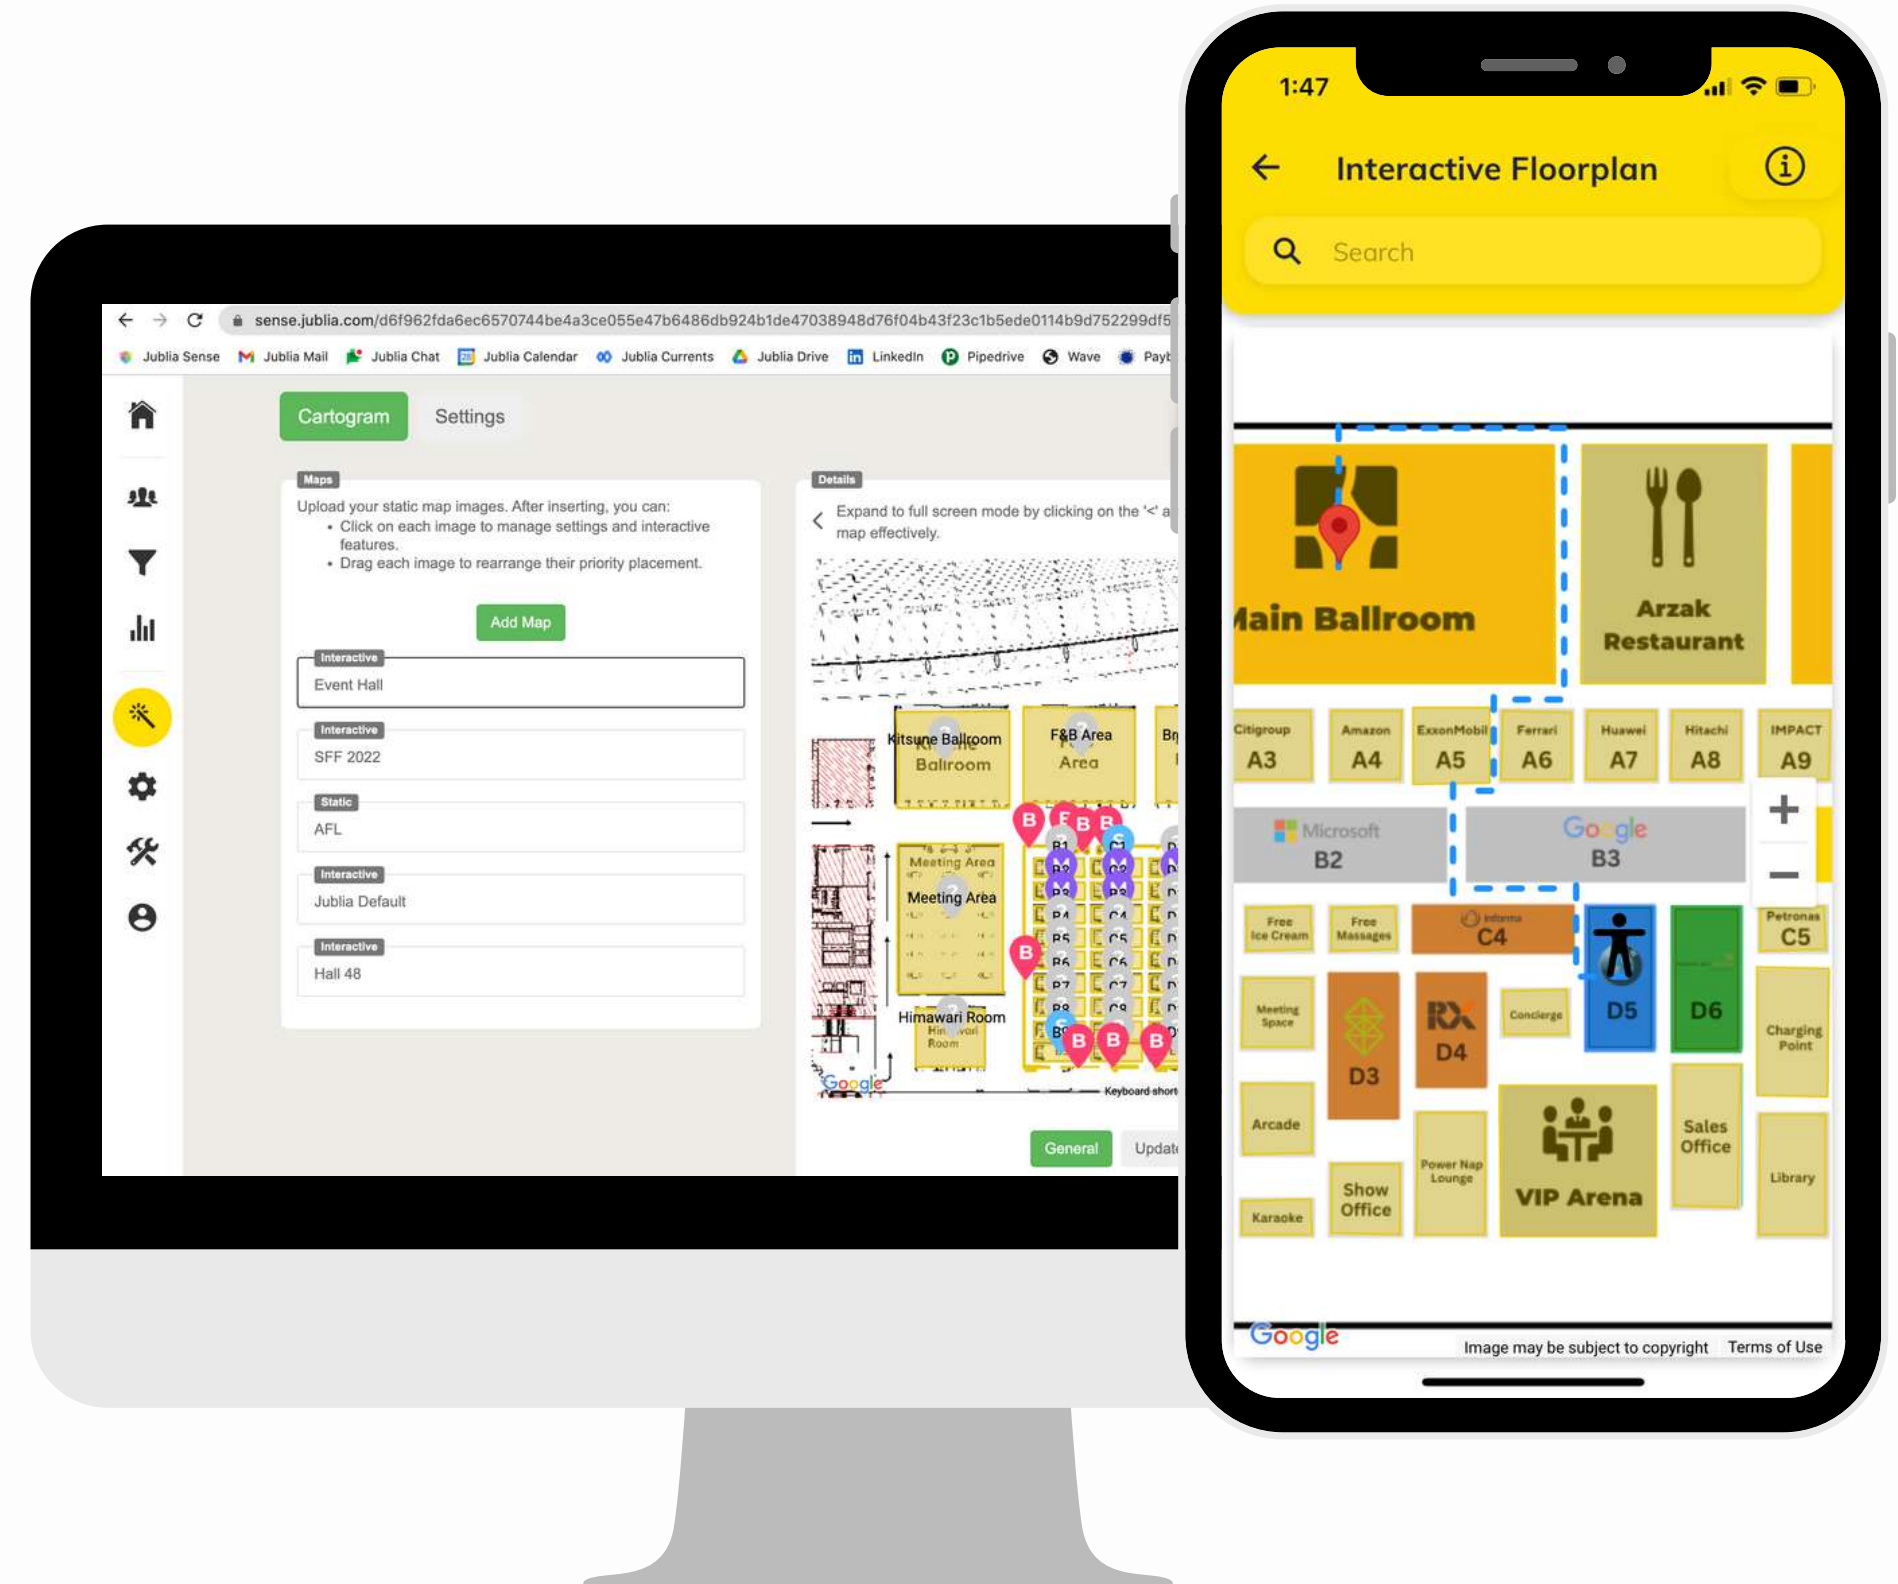

We support point-to-point and in-hall routing to ensure that your participants know where to go.

COMPANY & SESSION LINKING

Clicking on a booth or a stage on the interactive map would open a world of information for the user.

LIST ENTIRE MUTLI-HALL VENUE

We are the first to incorporate a Map of Maps technology for interactive wayfinding experiences.

Web App

IN-PERSON MEETINGS

Pre-scheduled meetings are booked at specific locations onsite i.e. Meeting Lounges or Booths.

RECOMMENDATIONS FOCUS

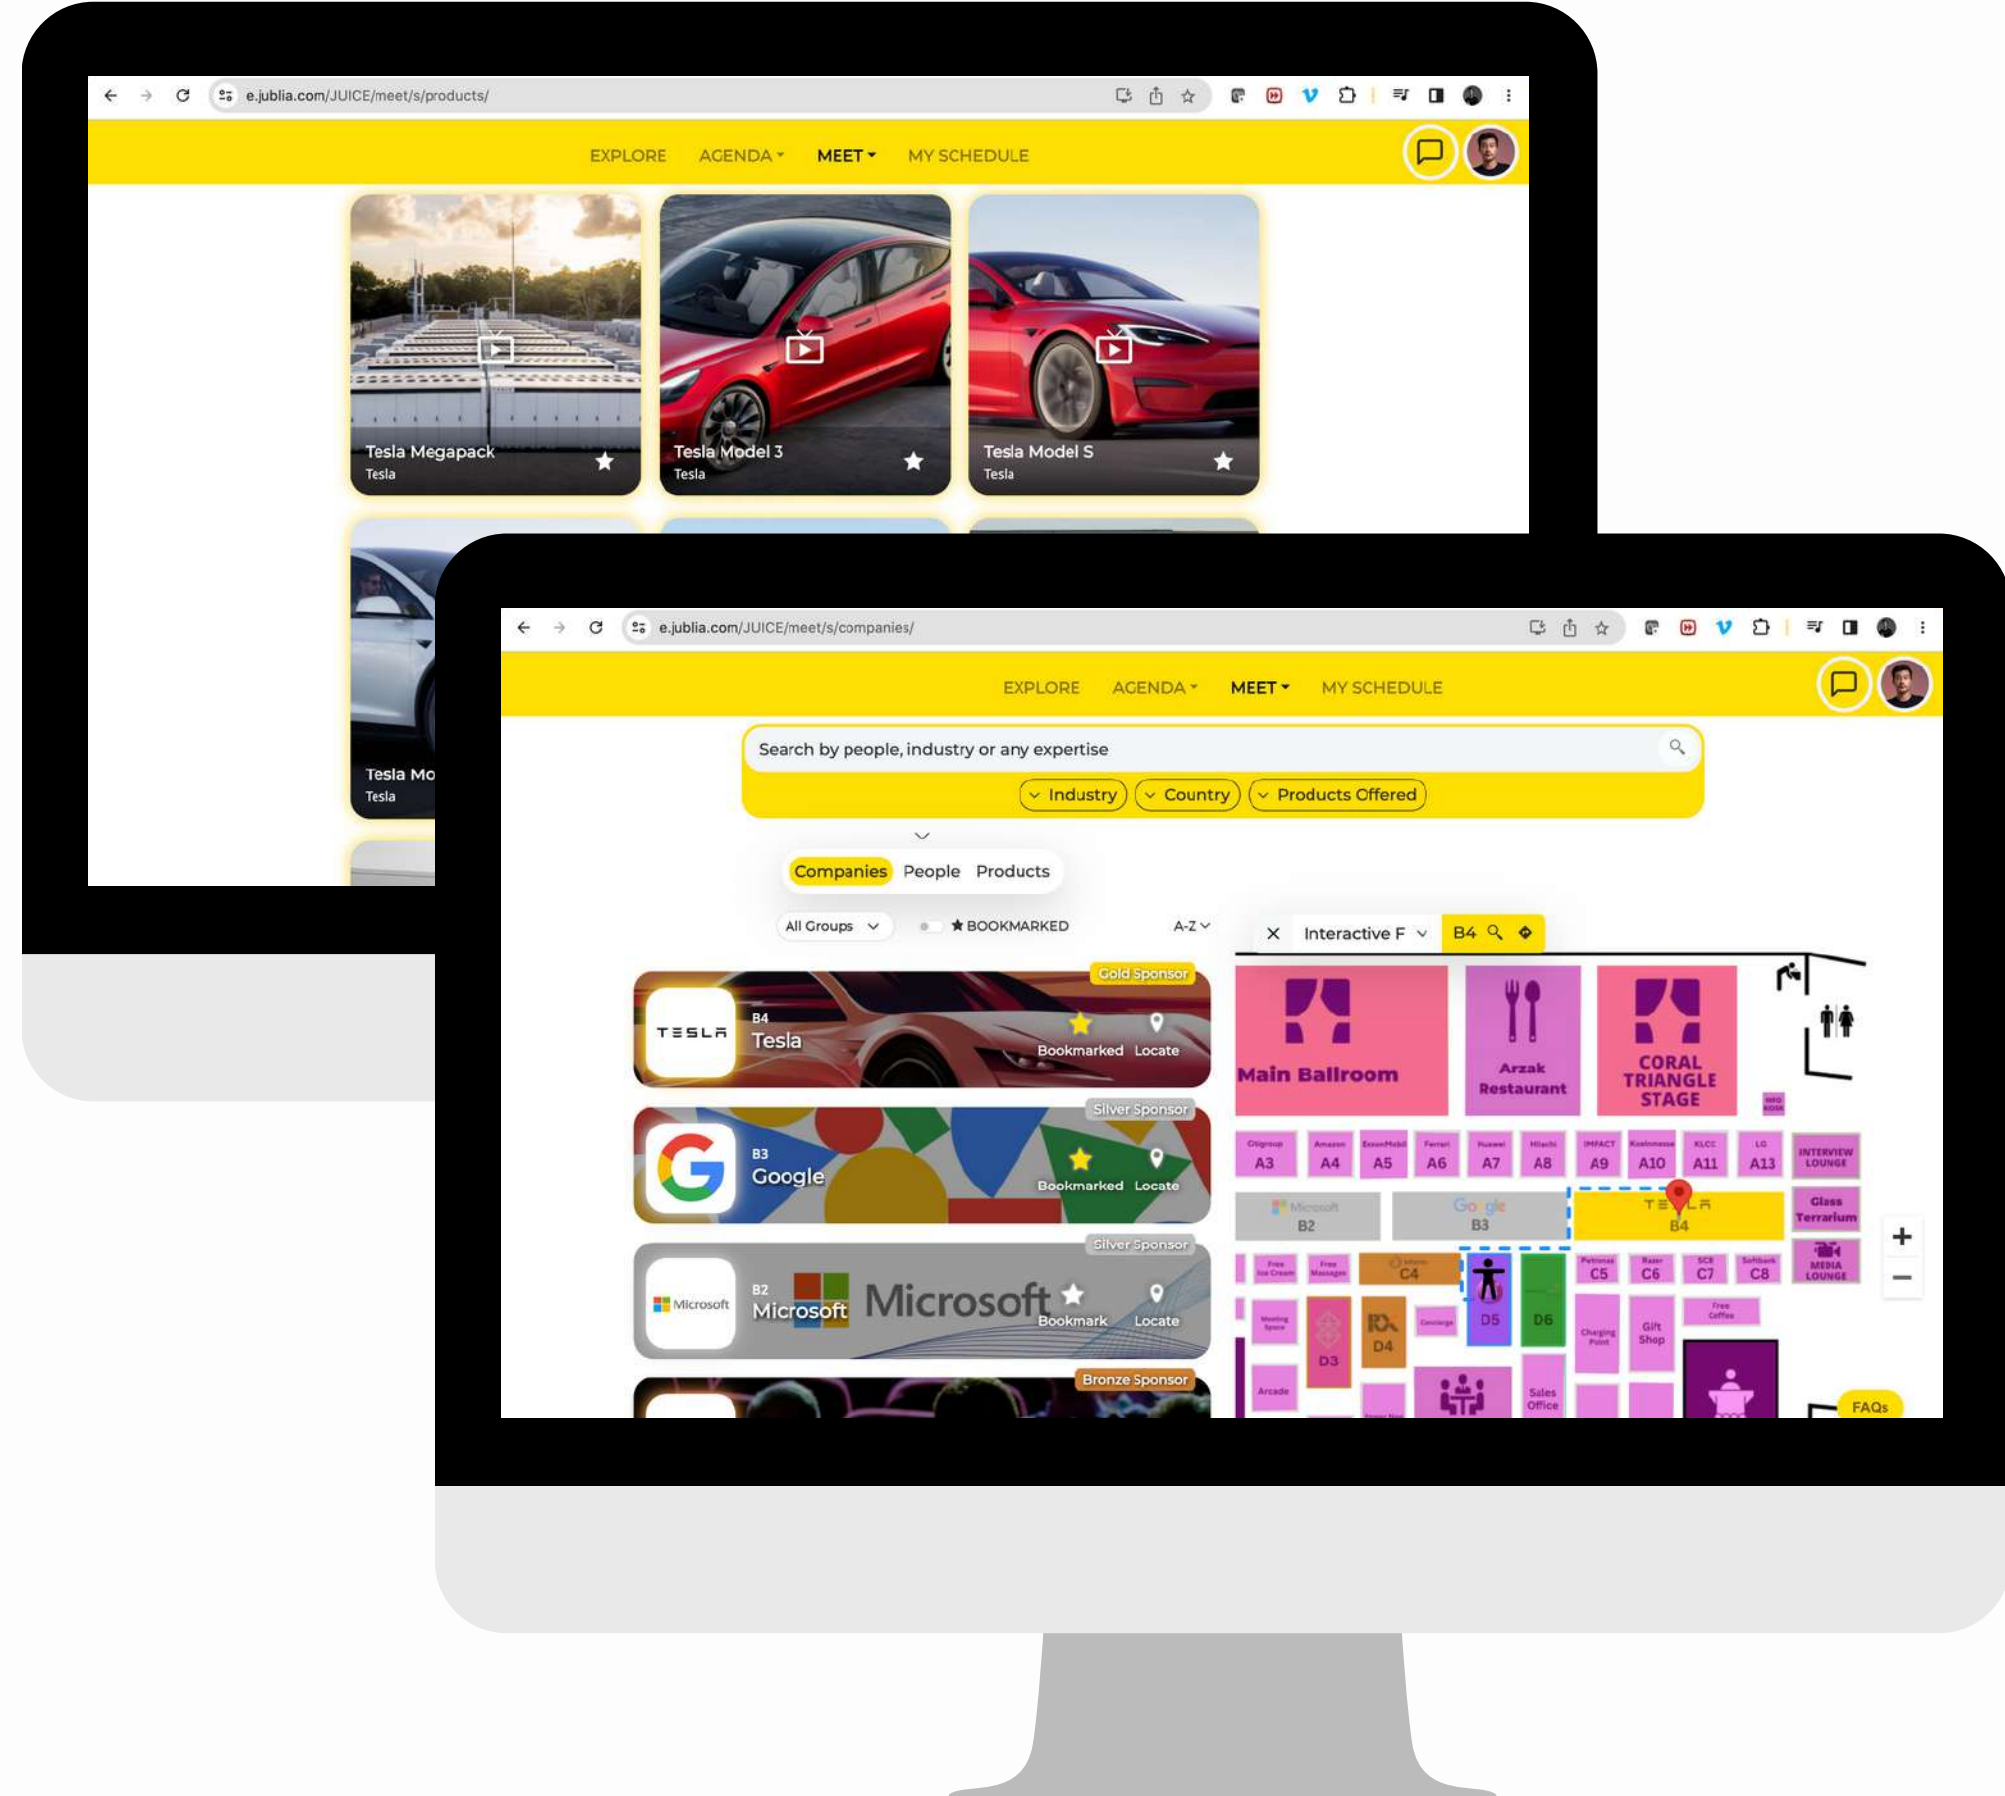

RevRank AI ensures the best and most meaningful suggestions are served up to your participants.

EASE OF USE

We support the simplest-to-use and easiest-to-understand platform application in the industry.

ACCESSIBLE BY PUBLIC

A public version of the platform can reside on the event website as a prelude to the actual event.

Native App

WEB APPLICATION SYNCING

All historical activities, favourites, actions and pre-scheduled meetings will be seamlessly integrated.

PUSH NOTIFICATIONS

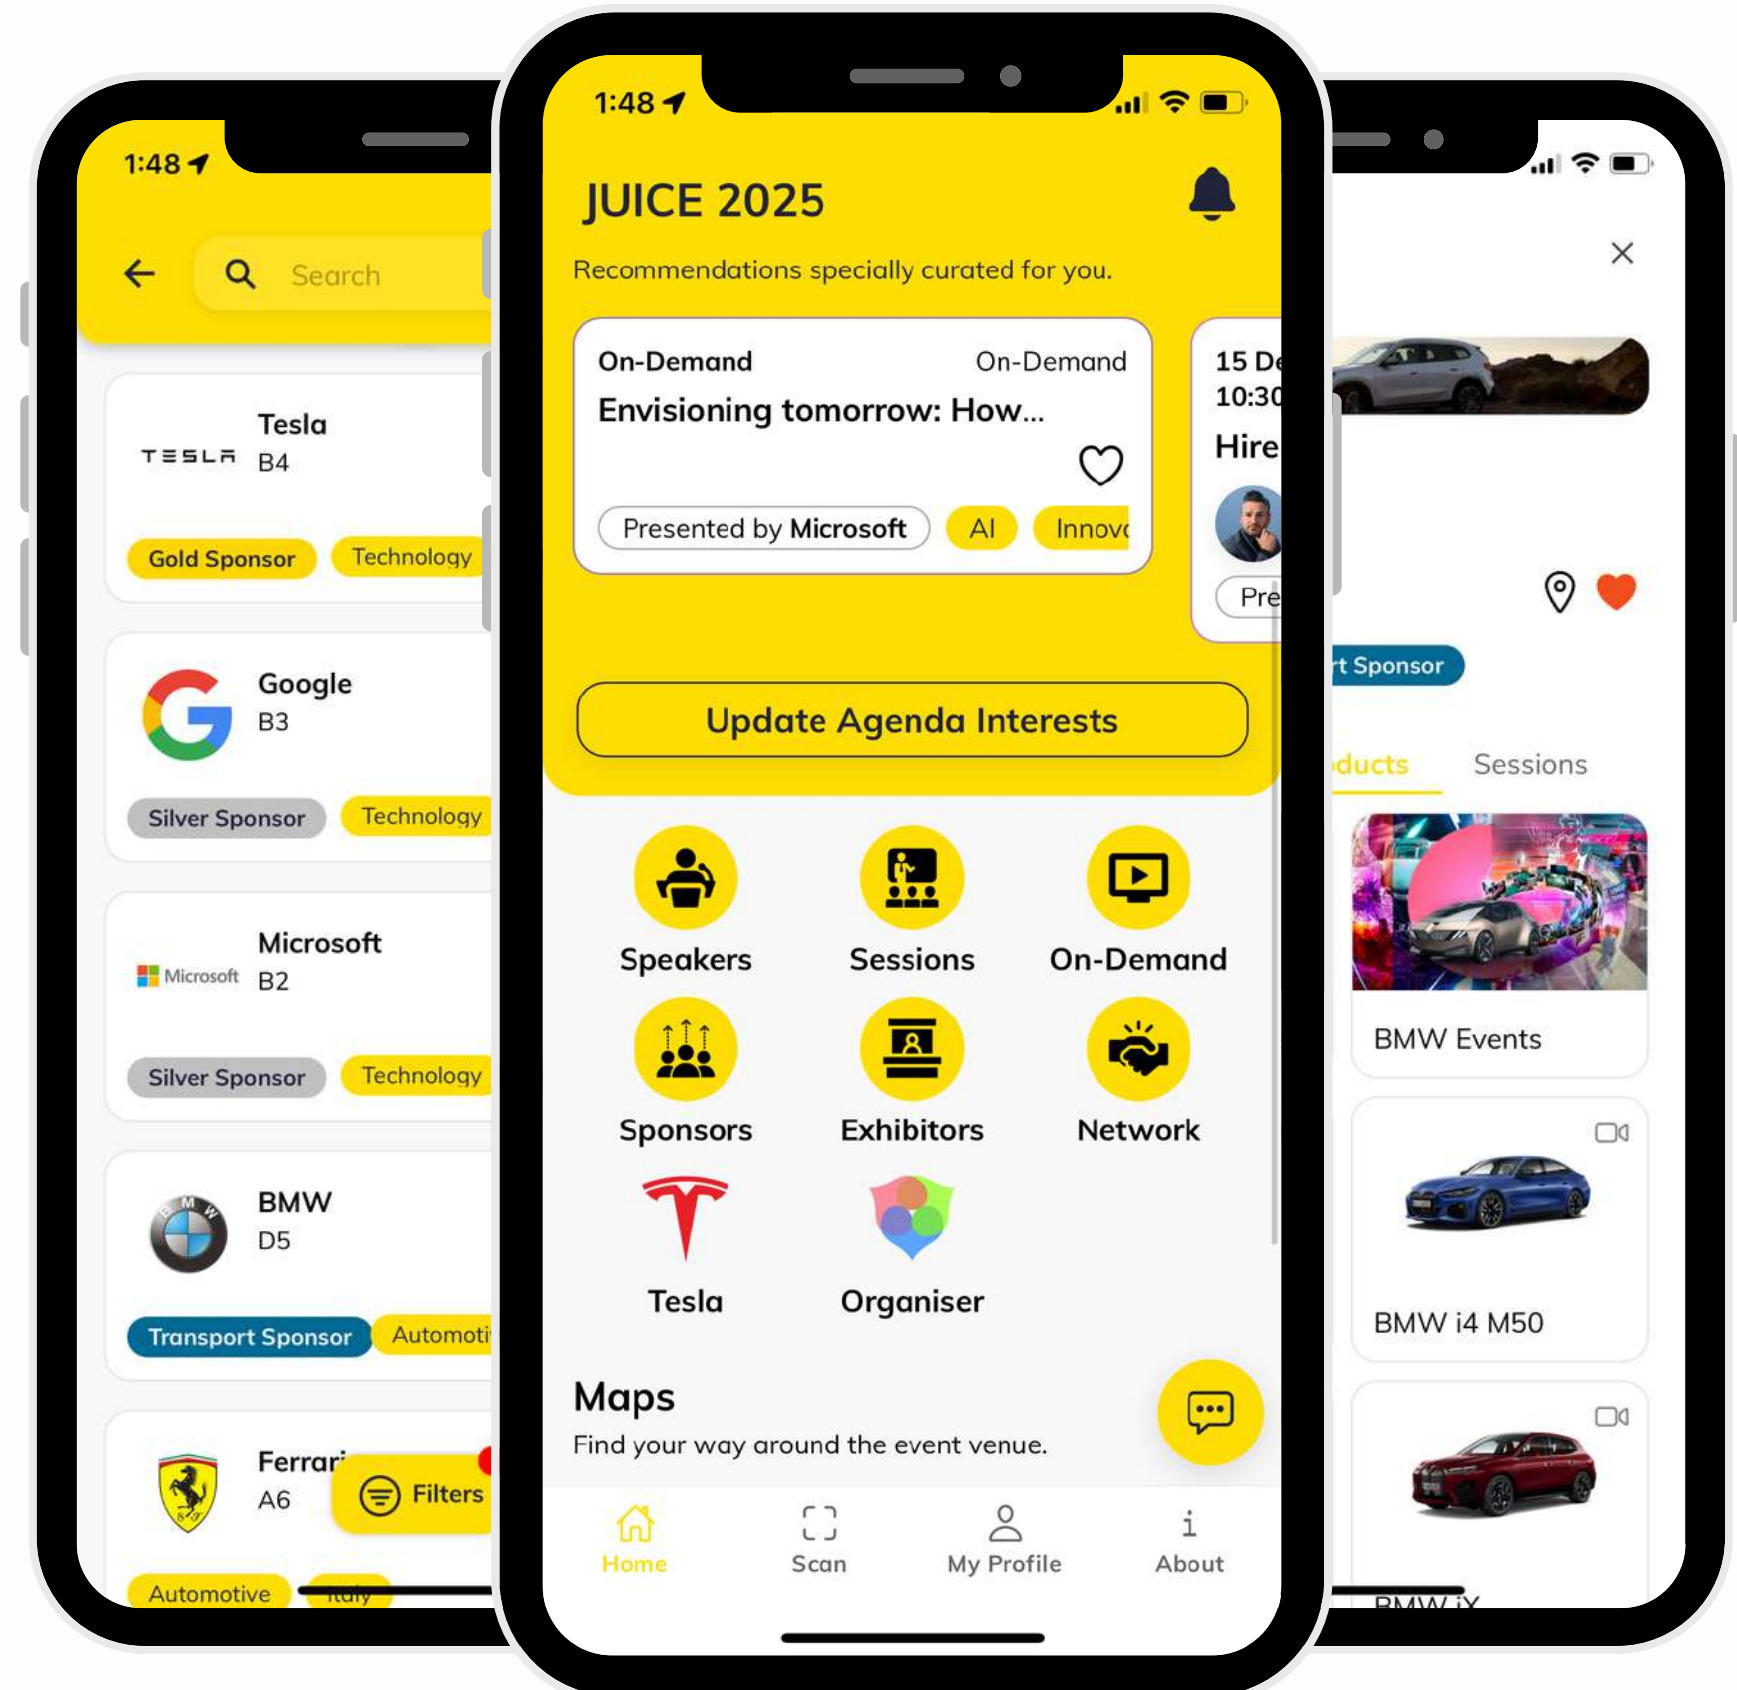

We help drive in-person fulfilment through simple to schedule in-app notifications with real-time tools.

ECO FRIENDLY & SUSTAINABLE

Go green by converted printed materials into digital assets. Better still, you'll be able to track!

OFFLINE ACCESSABILITY

Internet access is a luxury at some venues, and your attendees should never be penalised for it.

API Integrations

PUSH API

Our technology platforms supports receiving data that is pushed to us from any registration system.

PULL API

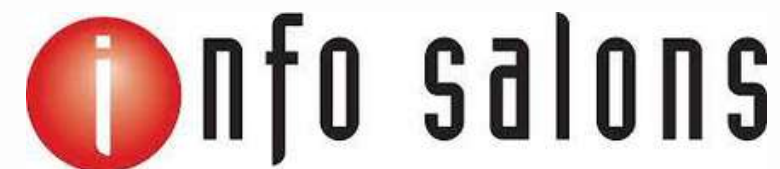

We also support custom developments where our platform request data from any registration system.

SINGLE SIGN-ON (SSO) API

Using our unique identifier, we streamline your user's experience across multiple technology platforms.

EXTERNAL API

We have the ability to share the engagement data insights, intent and analytics that we have gleaned.
