DIVERSITY IN CONSTRUCTION

AMBASSADOR PACK

GET BEHIND US TO DRIVE DIVERSITY IN THE BUILT ENVIRONMENT

ORGANIZED BY

CHICAGO BUILD 2022
MARCH 31 - APRIL 1
McCORMICK PLACE
At Chicago Build we actively seek out professional and talented individuals within the construction industry to represent the extraordinary skill sets and expertise the industry has to offer.

It’s important for us to tell the many amazing career stories within the industry and hear from inspiring individuals on what they have achieved and how they can motivate others to follow a similar path to success.

We're calling for all individuals, from students and graduates to diversity managers and CEOs!

Our mission is to ensure that businesses within the construction industry, and the people leading them, have every opportunity to thrive.
Chicago Build is currently working with a large team of industry leaders seeking to drive change and champion diversity, making the built environment a more inclusive industry.

The Diversity in Construction panel and networking session is free-to-attend for all and offers the chance for professional individuals operating in this market to network and feel inspired. A panel of diversity champions will discuss the key issues and major developments within Chicago's built environment.
