# BIM / CAD MANAGEMENT CONSULTING

ATG can assist AEC firms of all sizes in implementing BIM and CAD workflows. Our responsive, from-industry teams are ready to help with your Architecture, Civil, and MEP needs.

Before you spend time searching for an experienced BIM or CAD Manager on the open market or pulling one of your top technicians off billable work, give ATG a call. We have flexible BIM and CAD Management solutions that fit your needs.

## What we offer

- Custom template creation and modification
- Revit & AutoCAD content creation
- Workflow specific training
- Implementation services
- Detail conversions
- One-on-one or one-to-many training

## Benefits

- Flexible scheduling from 4 to 40 hours per week
- No long-term commitment - only pay for hours used
- Remote access to technical staff
- Office visits are available, if needed
- Hours used are billed monthly

If this sounds like a good fit for your firm, reach out to your ATG account executive to discuss in more detail and experience what it's like to have a complete AEC Technology Partner in your corner.
