your support in building
the digital experience

How can we help in general?

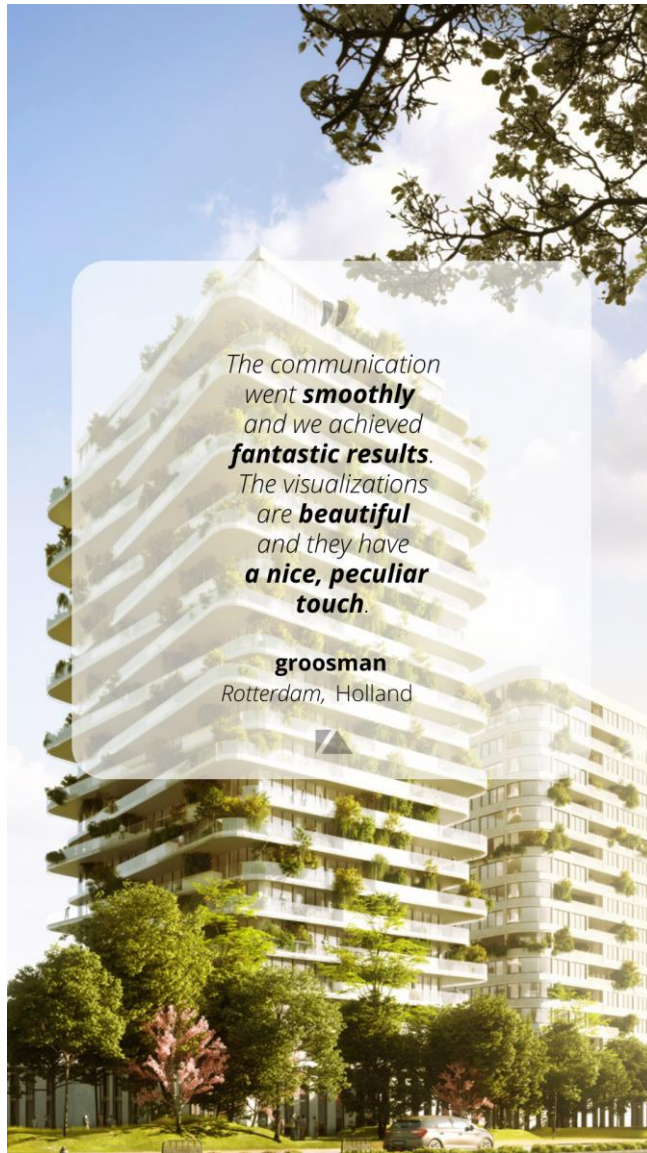

Who trusted us?

“
*The cooperation
process was
smooth and the
result impeccable.
The images have
turned up
beautifully. I certainly
will count on you in
the future.*

Foster + Partners
London, United Kingdom

“
*The communication
went smoothly
and we achieved
fantastic results.
The visualizations
are beautiful
and they have
a nice, peculiar
touch.*

groosman
Rotterdam, Holland

“
*From the first discussion with
Render Art, we felt our project was
well understood with a common
passion to deliver sense and
beauty (...) We deeply feel that our
collaboration has been fruitful both
at the personal level and for moving
our design ideas into
very visionary renderings.*

Berlin, Germany

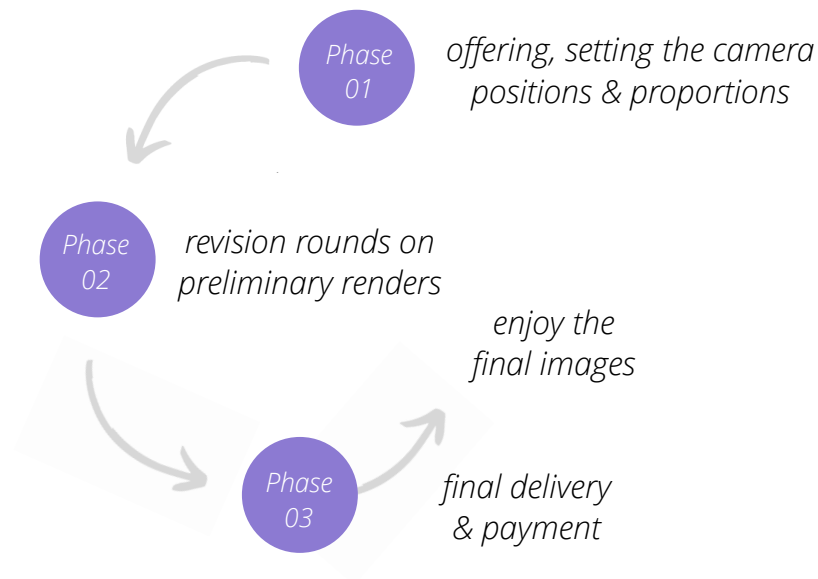

our support
in ***improving*** project presentations

Working process

Keeping **simple** structure with **flexibility and adjustment** possibilities toward each project

Standard process

Customized process

We want to suit your needs and we can prepare the unique pipeline.

Let us know about it and we will prepare customized process for you in advance.

Working process

Step 01: Starters

Your project needs

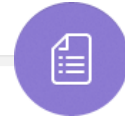

Project brief, amount and sizes of visualizations, deadlines

Sending the offer

Vide: *what is needed for preparing the offer?*

Step 02: Development

Sending the project's initial info + setting the timeline

After getting the final planning record, we launch the project!

Step 03: Delivery

Final delivery + payment

Final resolution portraits of your project are ready!

After 14/30 days it is great to officially finish the project by payment on time

Feedback

Getting coherent feedback sent in one email as one document

Sending drafts

Advanced preliminary renders with all light, materials, people etc.

Setting camera positions & images proportions

Quick printscreens from the model for reviewing and choosing views

showing unbuilt technical drawings
in *understandable* way for each party

balancing between giving
realistic statements
and *storytelling* that sells

extracting *project's essence*
through *visual* language

An architectural rendering of a modern residential development. The scene is dominated by a central courtyard with a mix of greenery, including tall trees, flowering bushes, and large, light-colored logs. People are shown in various leisure activities: a woman sits on a log with a child, others walk, and a person carries a surfboard. The buildings are multi-story, featuring a mix of wood paneling, large windows, and balconies with dark railings. Some balconies have vertical greenery. The sky is bright blue with scattered white clouds. The overall atmosphere is one of a vibrant, community-oriented living space.

visualizing unbuilt projects
to **reveal** their
full potential

Why us?

Storytelling attitude

- / Each render is capturing the uniqueness of the project
- / Not showing only plans and projects but an attitude toward them
- / Capturing the essence of a project on one time shot perspective

Time of delivery

- / 5-15 images in 2 weeks time, 15 in 3 weeks time, 20-25 in 4 weeks time
- / Speed of delivery thanks to the best market available computers we use and trained teams

Experienced team

- / Tested teams of artists with set processes, experience and abilities in different project scales.
- / Artists are after full architectural studies in order to understand the project meaning and reveal its qualities on visuals
- / Only passion - driven artists are on board!
- / Thanks to these we can support your internal work capacity and you can work on your designs

Clear process

- / Clear and easy work process with set steps and actions
- / Flexibility and ability to get more within the same project
- / Everything to make the work easy: efficient and most of all transparent with this you are more confident in the outcome of the work
- / You save time and can focus on your tasks, not on unexpected extra meetings and corrections for the render company
- / One contact person and manager for each project (clear communication and responsibility person)

Wise and innovative style of working

- / Working wisely by choosing the best path or tool for each project
- / Keep learning and exploring the recent courses in CGI world
- / Speed and quality of delivery thanks to the best market available equipments we use
