# Complete Visibility.
Immediate Impact.

From Attendance and Access Control, to Daily Reporting and Proximity Tracking, the Eyrus Workforce Visibility Platform makes your entire management process more accurate and impactful.
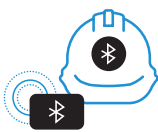

Eyrus empowers all project stakeholders to make a greater impact with real-time visibility into your workforce data. Our flexible platform allows you to build as you grow, capture as you go.

How to Capture Data

From just a check-in & check-out at the gate to as many zones as you can make! Capture attendance with just an app, or using any combination of Eyrus readers and wearables that fit your needs.

What Data to Capture

Need to know who's certified? Or maybe who's a new hire, or apprentice? Add and track attributes that are required for you, the owner, the project, or the insurance program in one easy-to-use database.

Where to Capture Data

From small to expansive sites, capture data from the points that matter. You choose the location and how to capture data with Eyrus on any size site, from just the entrance to as many zones as required.

Which Data to Visualize

Slice & dice in the Eyrus Platform, or send your data through our API. Present the data in the ways that make sense for your workflows whether that's in Eyrus, or in another platform.

25%
**Time savings** on Subcontractor and Workforce Management

20%
Expected Productivity increase on Superintendent's time

85%
Reduction in safety/security downtime

Critical, real-time workforce data captured on autopilot.

Eyrus delivers real-time data straight from the field for you to access anywhere, anytime. Build the solution that meets your workforce data goals and leverage the Eyrus platform for productivity, safety, security, and schedule success.

With a robust selection of capabilities, Eyrus lets you: create site zones, send mass text messages to the field, upload your schedule, auto-email reports, retrieve historical time sheets, invite teams for daily reporting, set up alerts for safety, security, and schedule deviations, integrate your tech stack, and much more.

Empower all stakeholders to make a greater impact with real-time visibility into your workforce data.

From the field:
- On-site and Zone Attendance
- Security & Access Control
- Daily Reporting
- Safety & Attribute Tracking

From the Office:
- Schedule Deviation
- Payment Validation
- Compliance Reporting
- Risk Management
- Project Controls

STEP 1
Data Capture Flexibility
