Aerocade® Low-Profile Airport Barricade

The Aerocade® Airport Barricade is a low-profile, water-filled, highly-visible, collapsible channelization device used to delineate work zones for construction and maintenance on airport runways and taxiways.

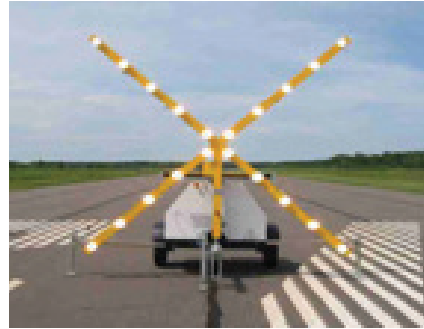

The Aerocade can be easily interconnected end-to-end and used as a channelizer or demarcation device. Additional accessories include warning flags and warning lights.

Complies with FAA Advisory Circular 150/5370-2G requirements.

- Barricade available in orange or white.
- Reflective sheeting for improved visibility.
- Stackable for efficient transportation and storage.
- Light-weight system eliminates the need for large equipment.
- Jet blast resistant when properly filled with water.
- FOD free

Runway Closure Marker Trailer

- ETL certified to FAA AC 150/5345-55, AC 150/5370-2G and NTSB Safety Recommendation A-03-05
- Effectively and efficiently warns pilots of closed runways and taxiways
- Illuminated "X" visible from as far as 25 miles
- 3-year, 3,000-hour diesel engine warranty
- Selectable brightness levels to suit environmental conditions
- Operates 140 hours between fuel fills
- Highway tow-able, with a standard 2" hitch coupler
- 2,200-pound, DOT-compliant trailer

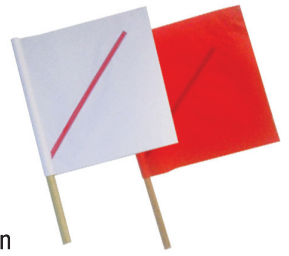

Runway & Taxi Closure Marker Signs

- 7-8 mil yellow laminated polyethylene
- Tear and acid resistant
- Waterproof & mildew proof
- Hems reinforced with poly twine
- Grommets approximately every 3 feet for stakes or attachment to sandbags
- Available in two sizes:
10' x 60' (runways) or 5' x 30' (taxiways)

Complies with FAA Advisory Circular 150/5370-2G requirements.

Safety Flags for Barricades and Equipment

Safety Flags for Barricades

- 20" x 20" vinyl coated nylon
- Plastic diagonal stiffeners helps to keep the flag rigid
- 3/4" diameter x 30" long wooden dowel staff
- Fluorescent material for high visibility

Vehicle and Equipment Safety Flag

- Orange and white checkers
- 36" x 36" heavy duty nylon
- Available on a 60" or 72" long dowel

Complies with FAA Advisory Circular 150/5370-2G requirements.

Solar Powered Dual function warning lights.

360° SCREW BASE

Total Height: 7"
Base Height: 2"

360° BOX BASE

Total Height: 8"
Base Height: 3"

Common Features and Specifications of all Lights:

- **Effective Intensity:** 6 Candela
- **Panel Cover Material:** Polycarbonate
- **6 Hour Sun Charge:** 120 hrs. dusk to dawn (Flash Mode)
- **6 Hour Sun Charge:** 72 hrs. dusk to dawn (Steady Mode)
- **Three-way circuit provides:** On/Off, Flashing and Steady-Burn Options
- **Automatic On dusk, Off dawn**

Complies with FAA Advisory Circular 150/5370-2G requirements.
