# ADVANCE2000

WHY ADVANCE2000?
TOGETHER WE CAN GROW YOUR BUSINESS IN 2021

For over three decades, Advance2000 has focused on helping businesses thrive with our innovative IT solutions. By providing our clients with the best fit solutions for their business, from phones & computers, to email & anti-virus protection and backups, we are here to help with any and all of your IT needs!

CLOUD COMPUTING

The need for a trusted cloud provider has skyrocketed this past year. When COVID hit, our clients were able to seamlessly transition their teams to a remote workforce overnight. Our proprietary private cloud computing platform provides the scalability, collaboration, security AND MOBILITY you need to keep your remote teams productive.

HOSTED PHONES

Our Cloud in-Touch VoIP phone solution provides every type of team collaboration you need to navigate this remote working world we are living. From mobile phones and softphones to video conferencing, our all-inclusive platform provides your team with unlimited, unified communications.

IT STRATEGY & RISK ASSESSMENT

Not sure where to get started? Not to worry! Our IT Strategy and Risk Assessment provides you a complete inventory of your current infrastructure and offers a detailed road map to better align your IT goals with industry best practices.

IT SUPPORT

Helping clients is our driving purpose. Partnering with Advance2000 ensures immediate and live support is always available when you need it. Our live 24/7 Help Desk becomes an extension of your business. Additionally, we offer flexible support plans to fit a wide variety of individual client needs.
