

ADVANCE2000

VDI COMPUTING SOLUTIONS

INDUSTRY LEADING CLOUD DESKTOPS

The need for a trusted cloud provider has skyrocketed this past year. When COVID hit, our clients were able to seamlessly transition their teams to a remote workforce overnight. Our proprietary private cloud computing platform provides the scalability, collaboration, security AND MOBILITY you need to keep your remote teams productive.

**RUN ANY APPLICATION,
ON ANY DEVICE, ANYTIME.**

WHY VDI?

End-user technology is rapidly evolving. With a VDI solution from Advance2000, together we can support your business' IT strategy. Our private cloud environments run any Windows applications, no matter how graphically intense! Our 24 hour Help Desk keeps you up and running with personalized support.

From increased team collaboration to reduced IT costs, the benefits that our VDI solutions can bring to your business are endless. Your teams can securely access their desktop from any location, with any device, providing instant access to your files, communication tools and your applications in an optimized environment. With Advance2000, your team's productivity will soar!
