

Our ERC Specialists can help your business recover from the pandemic.

Now you can take advantage of Employee Retention Credits of up to \$26,000 per W-2 employee.

About the ERC

The Employee Retention Credit (ERC) program was created under the Coronavirus Aid, Relief and Economic Security Act (CARES Act) as part of the federal government's relief program to encourage and reward business owners that retained employees during the COVID-19 pandemic.

Recently the policy was amended to enable business owners to qualify for ERC tax credits even if they received PPP loans. The program doesn't require a reduction in revenue, only an impact on your business from COVID-19. If you faced supply chain issues, reduced hours, equipment shortages or increased cleaning requirements, you can qualify. Over 80% of businesses with W-2 employees qualify for the ERC program, even if you received PPP and/or EIDL.
