

IMAGINiT Jumpstart for Leica BLK2GO

Ensure the Success of Your BLK2GO Implementation

The Leica BLK2GO is a handheld imaging laser scanner that creates a 3D digital twin while you walk through a space, providing the fastest and easiest way to scan a large building, structure or space. Whether your team is just getting the BLK2GO scanner now or has had it for a while, it's important to make sure the team has the knowledge necessary to realize its full potential.

The Leica BLK2GO Jumpstart service provides that knowledge.

Turn to our dedicated industry-experienced professionals to get up-to-speed quickly on the functionality of the BLK2GO scanner as well as best practices and tips. Training will include:

- Unboxing and field setup of the Leica
- BLK2GO Live App setup
- Field collection
- Register360
- Point cloud clean-up
- Data evaluation
- Data management tips and tricks
- Use of point cloud data in design environments pertinent to student requirements (AutoCAD, Civil 3D, Plant 3D, Revit, Navisworks, etc.)

Make sure you're getting the most out of your BLK2GO scanner. [Contact us](#) to learn more about IMAGINiT's Jumpstart service for Leica BLK2GO.
