Join us at the leading event for the concrete industry

The UK Concrete Show returns for its 12th edition this March and is the only stand-alone exhibition dedicated to the concrete industry.

Building from these strong foundations, the exhibition enters an exciting new era under the ownership of The QMJ Group. Organisers of the world famous Hillhead event, we have over 40 years of experience of bringing the construction sector together, and will be able to market the UK Concrete Show through our extensive b2b publishing portfolio that includes Agg-Net.com and Concrete Connect. Visitor promotion will also draw on the invaluable market intelligence our consultancy business BDS has provided to the European concrete sector over the last 30 years .

Located in the centre of the country at the NEC in Birmingham, The UK Concrete Show is within three hours drive of 75% of the UK population. It provides an unrivalled platform for exhibitors to meet key decision makers from across the concrete supply chain. Our event is THE annual meeting place for the trade to see new products in-person, network and keep up-to-date with all the latest developments in the sector.

An extensive seminar programme covering the main themes driving the sector will be available in the **Concrete Connect Theatre** based in the centre of the exhibition, whilst a curated **Innovation Hub** will showcase the latest product advancements set to make the biggest impact on the concrete industry. Not to mention lots of **large kit** and our new **Show Awards!**

As the most used construction material both domestically and globally, concrete can be seen throughout the UK build landscape, from the newly opened Elizabeth Line, to HS2. The British concrete industry directly employs over 70,000 people, producing upwards of 90 million tonnes of concrete every year in various forms. One of the best ways you can target and influence this important but hard-to-reach sector, is by exhibiting with us!
