

# Hillhead 2024

Quarrying,  
Construction  
& Recycling

25-27 June  
Hillhead Quarry | Buxton  
Derbyshire | UK

Exhibitor  
Information

[hillhead.com](http://hillhead.com)

**Celebrating its 40<sup>th</sup> anniversary, Hillhead 2022 was the show's largest and most successful edition to date.**

**2024 promises to be even better as we welcome you back to this unique and iconic quarry setting.**

With over 600 exhibiting companies and just under 18,500 visitors, Hillhead 2022 brought the quarrying, construction and recycling industries back together again, face-to-face for the first time in four years. The result was three days of live demonstrations, static displays and an opportunity to see the very latest products and services on the market while networking with peers and industry colleagues.

Our 2024 show will build on this momentum and the newly renamed Showground Pavilion will be extended to accommodate even more indoor exhibits. Meanwhile, the four live demonstration areas will continue to allow manufacturers and suppliers to showcase the very latest equipment in a real-life quarry environment.

Hillhead provides an unrivalled platform to launch and promote products and services to a dedicated audience of industry professionals and buyers. From excavators and crushers down to lubricants and wear parts, you will find it all here in one place.

We look forward to welcoming you to Hillhead 2024.

The QMJ Group is a member of the Association of Event Organisers and, as such, is required to ensure that attendance figures for its shows are audited by the Audit Bureau of Circulations (ABC). This confirms that the attendance figures have been verified to industry standards by an independent third party.

Hillhead 2022 was a fantastic show and a huge success for Takeuchi, it was great to see our industry in person once again, we can't wait for Hillhead 2024!

# Product Categories

Hillhead attracts hundreds of companies promoting a broad range of products and services, and it is not just about the 'big kit'.

Over 200 product categories will be on display including:

Abrasion-resistant materials	Engines & transmissions
Ancillary site equipment	Generators, compressors & pumps
Asphalt production & paving	Health & safety equipment
Automation & control	Maintenance products & services
Buckets, breakers & attachments	Mobile plant
Bulk materials handling & storage	Mobile plant equipment & accessories
Computer software & systems	Organisations
Concrete plant & equipment	Plant hirers & contractors
Consultancy services	Quality control equipment
Crushing & grinding	Recycling equipment
Demolition tools & services	Sand processing
Design, installation & fabrication services	Screening equipment
Dredging equipment	Transport & logistics
Drilling & blasting	Weighing systems & equipment
Dust, noise & environmental equipment & services	Wheels & tyres
Electrical equipment & services	

## Sustainable Hillhead

We take our environmental responsibilities very seriously, and a number of initiatives have been introduced at Hillhead in recent years to make the exhibiting and visiting experience more sustainable.

At the 2022 show, over 270 exhibitors in our large indoor pavilions were powered by Hydrotreated Vegetable Oil (HVO). Swapping from fossil fuel to HVO generators reduced CO<sub>2</sub> emissions by 90%.

We have also removed all single-use plastics from our official catering suppliers and increased recycling facilities around the showground. We now recycle paper and cardboard, tin and aluminium, glass and food waste.

Other initiatives include sustainable paper and vegetable-based inks in our Show Guide, the promotion of the lift share scheme, and solar-powered CCTV and lighting towers.

“It's been absolutely fantastic, with several hundreds of enquiries and strong sales leads to follow up after the show. In addition, we've struck several key deals for new machines on our stand. The show's been an incredible success for us all – and I'm already thinking about the next Hillhead in 2024.

**Steven Ford**  
Managing Director  
LiuGong Direct UK

# Welcome to Hillhead

## Registration Pavilion **1**

The Registration Pavilion is the only entrance and exit to the show and exhibitors here are guaranteed exposure to every single visitor. The Registration Pavilion houses over 90 exhibitors and stands can be either shell scheme or space only.

## Exhibitor Entrance **2**

New for 2024, exhibitors will have their own dedicated entrance to the show, ensuring fast track access at the beginning and end of the day.

### Upper Showground 3

This is the first outdoor area visitors see as they exit the Registration Pavilion and make their way into the showground. Plots here range from 72m<sup>2</sup> to over 700m<sup>2</sup> and a number of stands in this area back directly on to the Registration Demonstration Area making them ideal for showcasing live products and equipment.

### Registration Demonstration Area 4

Home to attachments, rock processing and recycling equipment, exhibitors surrounding this area have the opportunity to showcase their machinery working in a live quarry environment.

### The 'Ramp' 5

Plots here range from 15m<sup>2</sup> to over 280m<sup>2</sup> and create a lively thoroughfare as visitors travel down the ramp to the quarry floor. Exhibiting here means you won't miss a single visitor as they make their way in and out of the show.

### Showground Pavilion 6

Extended and renamed for 2024, the Showground Pavilion will now house in excess of 180 exhibitors. For three days it transforms into a hive of activity, providing a vibrant and diverse business-to-business environment. Stands here can be either shell scheme or space only.

### Recycling Demonstration Area 7

Crushing, screening, shredding and washing equipment dominate this area, and with multiple live demonstrations taking place throughout the open days it always draws big crowds.

### Rock Processing Demonstration Area 8

Fondly referred to as 'Crusher Alley', this area draws visitors across to the western end of the site to watch the material extracted from the quarry face being processed by a host of machinery and equipment.

### Quarry Face Demonstration Area 9

Taking centre stage is another of Hillhead's big attractions, the Quarry Face, which hosts multiple machines including excavators, shovels and dumptrucks. Operating across three 12m high benches, this area delivers three days of crowd-pleasing demonstrations.

### Quarry Floor 10

With plots ranging from 72m<sup>2</sup> to over 2,500m<sup>2</sup>, the exhibits on the main showground with their marquees, machines, flags and multi-tiered structures help create the distinctive Hillhead atmosphere.

### Hillhead Café 11

Relocated for 2024, and now housed within the Showground Pavilion, the Hillhead Café will be right at the heart of the show, offering a range of hot and cold drinks and snacks. With free Wi-Fi, and an outdoor seating terrace, it's the perfect place to stop and refuel while catching up on your e-mails.

# Join us at Hillhead 2024 Become an Exhibitor

Stands at Hillhead are either outdoor on the quarry floor or inside one of the Pavilions.

All exhibitors receive the following as standard:

- ▶ An entry in the official Hillhead Show Guide which is distributed free of charge to show visitors. Includes your company name, stand number, 150-word profile and contact details.
- ▶ Inclusion on the Hillhead website exhibitor list.
- ▶ Unlimited exhibitor passes.
- ▶ Pre-show support in completing Health & Safety documentation.
- ▶ Access to the online Exhibitor Manual.
- ▶ E-Marketing pack including customer invitations, web banners, Hillhead logos and email signatures.
- ▶ Unlimited visitor invitations.
- ▶ Exhibitor car parking.
- ▶ Opportunity to submit press releases for inclusion on the Hillhead website.

## Exhibitor Manual

Our comprehensive online exhibitor manual is designed to guide you through all aspects of planning your stand and includes:

- ▶ Full details of your booking.
- ▶ Risk assessment guidance and templates.
- ▶ A supplier directory of everything from crane hire to floral displays.
- ▶ Useful downloads such as invitations, site maps and marketing tools.
- ▶ Online ordering of staff badges.
- ▶ Order forms for any extras such as furniture, Wi-Fi, electrics & catering.

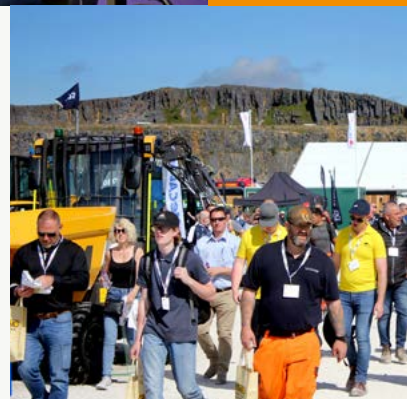

What a show! Hillhead 2022 was a first for SANY and a brilliant backdrop to unveil our latest machines.

We welcomed a huge number of visitors to the stand over the three days and the feedback we have received, and the level of interest generated from the machines on display has been exceptional, with a number of excavators sold at the event.

There is no doubt that the event has helped to strengthen SANY's growing reputation in the UK and Irish market, so we couldn't be happier.

**Leigh Harris**  
Business Development Director  
SANY UK and Ireland

## Indoor Stand Prices

Hillhead has two large pavilions. Exhibitors wanting the convenience of an indoor stand can choose to be in either the Registration or the Showground Pavilion.

Both Pavilions offer a space only or shell scheme option. Stands are 3m or 4m deep with various frontages available; the smallest stand available is 9m<sup>2</sup>. Weight limits apply within the Pavilions and exhibitors wishing to bring heavy exhibits should discuss their intentions with the Organisers.

A limited number of corner stands are available at a 5% premium.

The **Registration Pavilion** is the main visitor entrance and exit to the show. Exhibitors here are guaranteed exposure to every single visitor. The Registration Pavilion incorporates visitor registration and accommodates 90 exhibitors.

The **Showground Pavilion** is located on the quarry floor and has space for over 180 exhibitors. There are a limited number of 6m deep stands available in the Showground Pavilion and exhibitors should contact the Organisers for availability.

### Shell Scheme Package

**£415.00** per m<sup>2</sup>

Package includes:

- Shell scheme measuring 2.4m high
- White Foamex panelled walling and aluminium frame
- Fascia panel with company name and stand number
- 1 fluorescent strip light
- 1 electrical socket
- Carpet

### Space Only Package

**£385.00** per m<sup>2</sup>

Space only stands do not include any additional services and exhibitors are responsible for arranging their own floor covering, electrical power and furnishings. Our space only exhibitors tend to employ an external stand builder and the Organisers can provide details of various contractors and give practical assistance to those wishing to create a bespoke stand.

All space only exhibitors are required to submit a stand plan and risk assessment for approval by the Organisers.

## Outdoor Stand Prices

### Outdoor Plots

**£55.00** per m<sup>2</sup>

The majority of stand space at Hillhead is outside on the quarry floor. Standard plots are 12m deep with frontages starting from 6m. Smaller and larger plots may be available subject to availability. Companies wishing to take an outdoor stand should contact the Organisers to discuss their size requirements and to check availability.

Outdoor plots do not include any additional services and exhibitors are responsible for arranging their own shelter, Wi-Fi, electrical power and furnishings. Upon booking, exhibitors will receive access to the Exhibitor Manual which includes details of contractors providing these services.

All outdoor exhibitors are required to submit a stand plan and risk assessment for approval by the Organisers. The Organisers are happy to provide assistance and guidance when completing these documents.

It's been a terrific show for us. To have all your customers, competitors, suppliers, dealers, and partners in one place at one time is an incredibly efficient way of doing business, creating further opportunities, and reaching out to new markets.

**Cory Jenson**  
Executive Vice-President of Sales and Business Development  
McLanahan Corporation

# Demonstrate Your Products Live At Hillhead

There are four separate demonstration areas available and there is no cost to demonstrate for exhibiting companies unless special arrangements have to be made at the request of the exhibitor. All demonstrations will take place under the control and supervision of the Organisers and are operated in accordance with the Quarries Regulations.

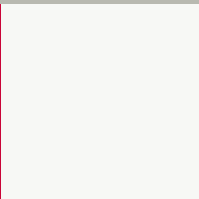

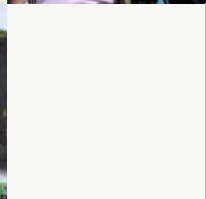

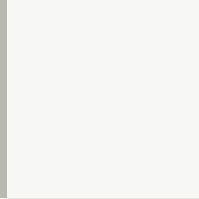

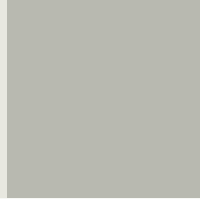

— The **Quarry Face**. With three benches spanning the length of the Quarry Face, this area can host over 35 machines, which in 2022 included excavators, wheel loaders, dumptrucks, dozers, cold planers, hydraulic breakers, screening buckets and mist cannons.

— **Rock processing** takes place in the ever-popular 'Crusher Alley', where a range of tracked and skid-mounted crushers, screens, scalping grids and stockpiling conveyors can be demonstrated by exhibitors.

— The **Recycling Area** at the south end of the site shows a range of specialist crushers, shredders, screens and washing equipment. Material imported on to the site for recycling demonstrations includes general construction and demolition waste, reject concrete blocks, waste asphalt and brick rubble.

— The **Registration Area** was further developed in 2022 to create an enclosed arena hosting rock processing and recycling demonstrations. This is the first area to greet our visitors as they enter the show.

Those interested in demonstrating should contact the Event Manager, **Harvey Sugden**.

It's been amazing to be back at one of the most important trade shows on the events calendar.

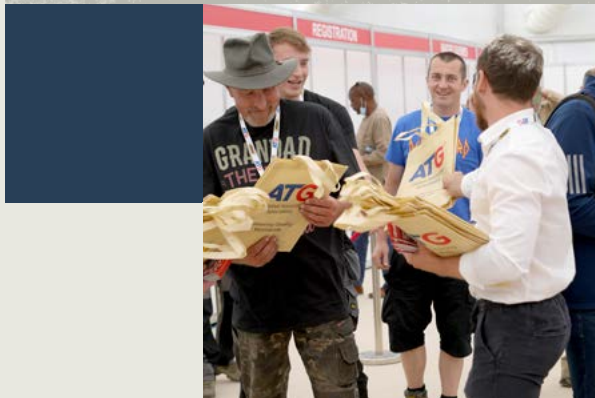

**Emma Thorley**  
Brand Manager  
Michelin

# Sponsorship Opportunities

Sponsorship boosts your presence and increases your visibility at the show. It is a great way to elevate yourself from the crowd, and we have a number of opportunities available.

Opportunities include:

- Branded floor tiles in the pavilions
  - Car parks
  - Phone charging stations
  - Hillhead Café
  - Lanyards
  - Visitor map
  - Registration
  - Restrooms
  - Shuttle buses
  - Viewing platforms
  - Visitor bags
  - Wi-Fi
  - ‘You are Here’ boards
- If you are interested in these or any other opportunities, then please contact **David Fisher** on +44 (0) 115 865 8283 for full details and costs.

The show has always been, and continues to be, the perfect venue for launching new products to customers... it's also a great public place to share important developments, market trends, and exchange information with people.

**Brian Pauley**  
Marketing Manager  
Finlay

## Advertise With Hillhead

Alongside our sponsorship opportunities, there are many other ways you can promote your brand and gain additional exposure at the show.

- Entrance roadside banners
- Enhanced website listing on hillhead.com
- Official Hillhead Showguide advertising
- Hillhead e-bulletin sponsorship
- Visitor bag inserts
- Digital advertising on Hillhead.com

The Hillhead brand is of world renown and our exhibitors benefit from the show's widespread publicity both in the UK and overseas.

We have long-standing relationships with key trade publications in the quarrying, construction and recycling sectors, providing support for the show's extensive print and digital media campaigns.

### Digital

- ▶ Email bulletins to previous show attendees, Agg-Net subscribers and external industry publication and digital newsletter subscribers.
- ▶ Media partnership with Agg-Net, the leading digital route to market for the aggregates and recycling industries.
- ▶ Display advertisements on key industry platforms.
- ▶ Social media presence on Facebook, Twitter, Instagram and LinkedIn, plus partnerships with key industry figures across the platforms.

### Print

- ▶ 200,000 visitor invitations, containing the full exhibitor list, distributed in the UK and overseas.
- ▶ 30,000 multi-language visitor brochures distributed globally.
- ▶ Advertisements and inserts in over 45 UK and overseas trade journals.
- ▶ Circulation of numerous press releases and editorial reviews to leading industry trade journals.
- ▶ Partnered with *Quarry Management* magazine, the official journal of the Institute of Quarrying.

### Press Attendance

Through the show's media partners Quarry Management and Agg-Net, national and international press representatives are invited to attend and report on the show.

By exhibiting at Hillhead, you'll have access to an international press audience and the opportunity to submit press releases and media packs.
