## WORSLEY PLANT

THE ATTACHMENT SPECIALIST

# WORSLEY PLANT. MAKING MACHINERY WORK FOR YOU.

Worsley Plant are the people who put the power of hydraulic machinery into practice – and make it work for you.

Whether you're in recycling, demolition, construction, landscaping or waste management, we have the hydraulic attachments for you.

Our range includes screening and crushing buckets, demolition attachments – grabs, shears and pulverisers, as well as hydraulic breakers, magnets and fully hydraulic quick couplers. All our products are available for sale or hire UK wide.

Our in-depth industry knowledge and expertise mean we are ideally placed to advise you on the most appropriate and cost-effective solution for your business.

With Worsley Plant, you can hire before you buy to make sure you are choosing the correct investment.

# MB CRUSHING AND SCREENING BUCKETS

Worsley Plant have been the UK's importer and distributor for MB Buckets for 20 years. We were instrumental in establishing them as the 'go to' crushing bucket in the UK.

MB Crushing Buckets are world leaders in the on-site crushing of any inert material, and used to demolish, crush, recycle and load material, working with excavators, skid loaders and backhoe loaders from 2.6 to 70 tonnes. MB Screening Buckets are perfect for selecting natural materials, in both pre and post crushing phase. Drum Cutters are efficient grinding and cutting tools to manage difficult, resistant, and varying degrees of hard materials and surfaces.

## AREAS OF APPLICATION:

**Demolition**

**Excavation**

**Road Works**

**Recycling**

**Quarries & Mining**

**Piping**

## OUTPUT:

**BASALT**

## ROTAR DEMOLITION ATTACHMENTS

Rotar have been around for 40 years. All Rotar's range of attachments are available in the UK from us, Worsley Plant - their exclusive supplier.

As the UK's only source for the Rotar range of sorting and demolition grabs, pulverisers and scrap shears, Worsley Plant is ideally placed to point you to the attachment best suited to your specific needs. The range has an excellent reputation for speed, power, durability and reliability across Europe.

### AREAS OF APPLICATION:

**Demolition**

**Waste**

**Groundworks**

**Rail**

**Recycling**

**STRONGER.  
TOUGHER.  
ROTAR.**

## REMU SCREENING BUCKETS

REMU are based in Finland, and have such a great reputation that in 2007 we extended our range with the REMU range of industry leading screening buckets to become REMU's exclusive supplier in the UK.

Are you looking for waste screening equipment that separates rather than crushes material, and runs smoothly in all weather conditions? REMU Screening Buckets are excavator and wheel loader friendly. Also, thanks to their industry leading design they are virtually impossible to block. They screen material that other products won't and are ideal for a wide range of applications.

### AREAS OF APPLICATION:

**Landscaping**

**Demolition**

**Excavation**

**Road Works**

**Recycling**

**Quarries & Mining**

**Piping**

# MONTABERT BREAKERS

MONTABERT have been delivering high quality machinery for over 100 years. Their premium products are known for their long life and low level of maintenance needed. MONTABERT Breakers provide power, versatility and optimum performance for your projects and are ideal for use in the Demolition, Construction and Quarrying industries.

The use of innovative high-performance technology in product design and manufacturing makes MONTABERT breakers the most efficient and reliable choice for customers around the globe. At Worsley Plant we offer a range of Breakers to meet your requirements from Compact, Medium and Heavy to XL - we have the breaker to suit your job.

## AREAS OF APPLICATION:

**Demolition**

**Quarrying and Mining**

**Groundworks**

**Road Works**

# LEHNHOFF QUICK COUPLER SYSTEM

The range is ideal for Worsley Plant's range of high-quality attachments such as crushing and screening buckets, grabs, shears and pulverisers, and can work with other similar products on the market. We carry both the Variolock and SQ range.

The Fully Automatic Quick Coupler System turns your hydraulic excavator into an all-round specialist allowing easy and frequent changes of tools. Each attachment is ready for safe use in a matter of seconds. Changing any attachment is effortless, safe and fast. The operator can change any tool at the touch of a button from the comfort of his cab.

## THE FULLY AUTOMATIC CHANGING OF ATTACHMENTS WITH GIVES THE USER A VARIETY OF BENEFITS:

- ▶ Change large hydraulic attachments without changing hoses.
- ▶ Save time changing between hydraulic attachments.
- ▶ No need to leave cab (more safety and comfort for the operator).
- ▶ No possibility of oil spills while changing hoses.
- ▶ Reduced possibility of dirt entering the hydraulic system.
- ▶ Easy cleaning. Easy service. Maximum oil flow.

## AREAS OF APPLICATION:

**Demolition**

**Waste**

**Construction**

**Forestry**

**Scrap Handling**

**OPTIMUM  
POWER  
BREAKER!**

# DYNASET MAGNETS

DYNASET-technology is based on utilising a machine's hydraulic system as the power source. It converts a mobile machines hydraulic power into electricity, high pressure water, compressed air, magnet power, vibration and power boosting.

DYNASET HMAG PRO Hydraulic Magnets convert the hydraulic power of a mobile machine into powerful magnetizing power. This is a complete all-in-one unit with integrated magnet generator.

Ideal for demolition, recycling projects and secondary demolition, it allows you to collect and separate metal from other materials. It also has the world's fastest demagnetizing time of just 0.8 seconds, releasing the collected material lightning fast. A true plug & play magnet ready to be used straight from the box!

## AREAS OF APPLICATION:

Construction

Waste

Demolition

Scrap Handling

# OILQUICK QUICK COUPLERS

We are an official UK dealer for OilQuick, the intelligent quick coupler system for excavators. We already offered the Lehnhoff range of automatic quick couplers, but wanted to offer our customers a choice.

## FULLY HYDRAULIC OILQUICK QUICK COUPLERS.

OilQuick is an automatic quick coupler system for excavators that allows hydraulic work tools to be connected and disconnected straight from the driver's cab. Within a few seconds the operator can change between various work tools, such as a hydraulic hammer, steel or concrete shears, sorting grapple, hydraulic magnet, compactor, sorting bucket, tilt bucket or tiltrotator.

## THE RIGHT TOOL ALWAYS READY FOR THE JOB.

- ▶ Change between various work tools within a few seconds!
- ▶ Increased versatility and efficiency No oil spills, saving both money and the environment.
- ▶ No messy hose couplings.
- ▶ The OilQuick system will not only make your excavator but also your company more flexible, competitive and cost effective.
- ▶ OilQuick is an advanced quick coupler system for excavators and can be supplied in various models for machines from 1 to 120 tons.

## AREAS OF APPLICATION:

Demolition

Construction

Groundworks

Excavation

Scrap Handling

# SERVICING, PARTS & HIRE

## ATTACHMENTS BUILT TO LAST, AND SERVICED TO LAST LONGER

Worsley Plant are servicing specialist with a dedicated team working out of two depots covering the entire UK. We are well known for our superior standards of service and support. That includes nationwide servicing and repair from a team of engineers – wherever possible on site to minimise machine downtime. Can't be done on site? No problem – we also have a team of dedicated engineers at our workshop.

With our Head Office in Middlewich, Cheshire and a Southern Depot in the South East, we're well placed wherever your business may be, and whatever its size, to provide you with first class service.

## BENEFITS OF A WORSLEY PLANT SERVICE

We can service on site or in our workshop

We're on hand nationwide within 24 hours

Experienced engineers in all aspects of attachment servicing

Experts in providing a top of level of service

## GENUINE PARTS

Our dedicated parts and spares department can provide pretty much any attachment part you're missing – and we'll do our best to deliver the next day to minimise machine downtime. We're also happy to send an engineer along to help fit your spares if needed, just to make sure everything works perfectly.

## SHORT OR LONG TERM HIRE

We know that no two customers' requirements are the same, but whether you need something just for the day or perhaps for a few months, we're always happy to help. No matter what your requirement, we can offer our full range of attachments for hire across the UK.
