

# COMPANY PRESENTATION

## NMT SHIPPING

# MORE THAN JUST A SHIPPING COMPANY

Since 1999, the NMT Group has been redefining roll-on/roll-off (RoRo) shipping and logistics. Now part of Stena AB, one of Sweden's most respected companies, we combine decades of expertise with world-class resources to deliver seamless global transport solutions.

With 32 offices worldwide and a trusted network spanning 50+ countries, our team provides customised import and export services for a wide range of cargo, including cars, vans, trucks, machinery, and oversized static goods. From OEM handling to stock management, we're here to make logistics simple.

Operating in the world's important trade lanes, NMT uses a modern fleet of deep-sea and short-sea RoRo vessels, ensuring efficient, safe, and reliable transport for all types of vehicles and machinery. The NMT Group takes pride in its commitment to the machinery sector, offering flexible shipping options, from port-to-port to full door-to-door services, including import clearance and inland transportation.

At NMT, we're more than a shipping company. We're your global logistics neighbour, helping you navigate the often rough waters of supply chains, so you don't have to.

# OUR BRANDS

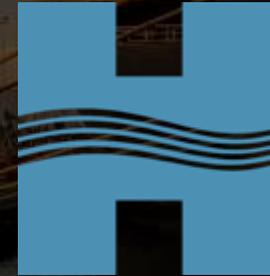

The NMT Group's brand portfolio consists of several more brands,  
targeting a variety of customers and segments

Since 2012 –  
United Kingdom

Since 2017 –  
United Kingdom

Since 2020 - United States,  
United Kingdom, Germany

# YOUR GLOBAL LOGISTIC NEIGHBOUR

Being an asset light company, NMT moves cargo worldwide on modern and technically advanced deep-sea and short-sea RoRo vessels from NMT's global partners.

With the large fleet of flexible vessels used, NMT can transport all types of rolling units, and oversized static pieces worldwide.

Ocean

# GLOBAL PRESENCE

With a growing market and expansion of local NMT offices, The NMT Group has divided its global operation into 4 regions.

The regions are established with the motivation to continue structuring our seamless and swift responding NMT organization locally, for the benefit of our regional customers, carriers and the group itself. Each region has one assigned regional head working in the region.

# OEM LOGISTICS

NMT Shipping is a trusted global logistics partner for OEMs, specialising in delivering tailored solutions for the seamless movement of equipment worldwide. With expertise in RoRo, container and breakbulk shipping, we handle complex supply chains with precision and efficiency

A proven track record in managing the transportation of heavy machinery, vehicles and construction equipment ensures products reach their destination on time and in perfect condition

Operating across key global markets, including Europe, the Americas, Africa and Asia-Pacific, NMT combines extensive industry knowledge with innovative solutions to meet needs

From factory to final delivery, our end-to-end service includes pre-carriage, on-carriage, customs clearance and real-time tracking for complete transparency

As a partner, NMT is committed to enhancing the OEM supply chain, improving operational efficiency and supporting global growth

## SUSTAINABILITY

As an asset-light company we manoeuvre in the sustainable landscape of our partner shipping lines, and we find the right way to connect and transfer the right values from the NMT organization towards the market and our customers

## COMPLIANCE

We carry out our business in an ever-increasing compliant climate. Not only governed by EU or US legislation but also by financial institutions, tax authorities and shareholder requirements
