Flintham Cabins: Helping Construction for 35 Years with Reliable Site Solutions

Supporting Construction with Smart Site Solutions Since 1988

Welcome to Flintham Cabins - your trusted partner for secure, durable, and flexible site accommodation and storage solutions.

For over 35 years, we've supplied high-quality anti-vandal cabins and containers to the construction and industrial sectors across London and the South East. Our units are built for performance, delivered fast, and backed by peace of mind.

From offices, canteens, welfare units, and drying rooms to robust steel storage containers, toilet blocks, and portable toilets, we provide tailored, cost-effective solutions - supported by our trusted supplier network and dedicated in-house team.

We don't just deliver units - we deliver reliability, safety, and service you can count on.

Your site. Sorted.

We Are Proud to Supply...

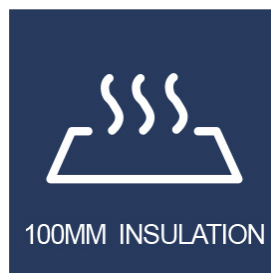

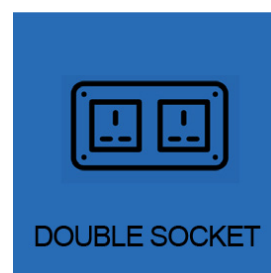

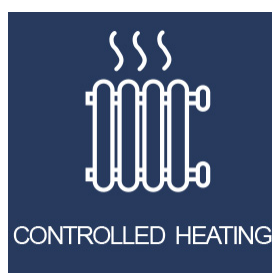

"Great company to work with. We have been hiring containers from Flinthams for many years now and they are a pleasure to work with. Always deliver, even with short notice, and their drivers always find a way to locate the containers in the tightest of spaces. Recommended."
Dave W.G Wigginton

Anti-Vandal Site Accommodation

At Flintham Cabins, we offer a wide variety of Anti-Vandal Site Accommodation units for hire & sale. Sizes are 10ft, 20ft & 32ft unless stated otherwise.

- **Portable Offices:** Create a designated workspace on your site, equipped with desks, power outlets, and secure entry.
- **Site Canteens:** These include kitchen facilities & seating areas, offering your team a place to relax and recharge.
- **Toilet Blocks:** Our secure and eco-friendly toilet blocks ensure your team have access to clean, hygienic facilities at all times. 13ft, 16ft, 20ft options.
- **Drying Rooms:** Essential for keeping workwear and equipment dry, our drying rooms are designed to maintain a comfortable, moisture-free environment.
- **Split Cabins:** Maximize your space with our versatile split/combination cabins. Available in 20ft and 32ft options, these units combine offices, canteens, drying rooms, and storage areas to meet multiple needs in one convenient solution.
- **Security Huts:** Whether you need a gatehouse, car park stand, tollbooth, or ticket kiosk, our security huts are designed with functionality and security in mind
- **Stairs / Double Stacking:** Fully stackable and adaptable, we provide a complete turn-key setup, including stairs, tailored to your specific needs.

Whether you're looking to hire or purchase, our site accommodation units provide reliable, secure, and functional solutions for any project.

Steel Storage Containers | Hire & Sale

Secure, Compliant, and Built to Last

Flintham Cabins offers a wide range of steel storage containers available for hire or purchase, in both new and used conditions. Choose from 10ft, 20ft, or 40ft units, including High Cube options for additional height and capacity, to suit your on-site needs.

Made from robust corten steel, our containers are weatherproof, highly secure, and easy to relocate, making them an essential solution for storing tools, equipment, materials, and more.

12 Foot Mobile Secure Storage

The Groundhog® Ground Lowering, Anti-Vandal Secure Store is a robust 12-foot mobile site storage unit, expertly engineered to provide fast, secure, and reliable on-site storage for tools and equipment. Built using proven construction techniques, it offers exceptional durability and protection, featuring hidden hinges, a three-point locking system, and a Hercules Chubb lock to deter vandalism and unauthorised access.

Ideal for a wide range of construction and maintenance environments, this ground-lowering unit is fully operational and secure in just three minutes. Designed for contractors who need quick, easily deployable storage, it delivers effective, transportable, and easy-to-use site security wherever it's needed.

Need to Store Hazardous Materials?

Our purpose-built COSHH storage units are designed to meet the strict standards of the Control of Substances Hazardous to Health (COSHH) regulations.

- Ensure Compliance - Meet legal obligations for hazardous material storage
- Protect Your Workforce - Minimise exposure to harmful or flammable substances
- Safeguard the Environment - Prevent spills and contamination on-site

Portable Toilets

Why Flintham Cabins' Portable Toilets?

Hygienic Design

- Cold water hand wash basin.
- Portable chemical toilet.
- Fresh water hand basin.
- Liquid hand soap
- Disposable hand towels with dispenser.
- Toilet roll holder
- Long-lasting fragrance spray for odour control.

Durability and Ease of Use

- Weatherproof construction.
- Ventilated design to minimise odours.
- Easy-clean surfaces for enhanced hygiene.

Capacity

- Designed for use by a maximum of seven people working a 40-hour week.

Regular Maintenance

All units are serviced weekly by our experienced team, ensuring consistent cleanliness and functionality.

Why Do You Need Portable Toilets?

Portable toilets are essential for maintaining hygiene and sanitation on construction sites and other remote projects. They ensure compliance with workplace health and safety regulations while providing a convenient solution for workers. Our portable toilets are the most popular choice in the building industry, known for their affordability, durability, and ease of maintenance.

Mobile Welfare Units for Dynamic Workforces

At Flintham Cabins, we offer a range of eco-friendly, anti-vandal mobile welfare units designed for on-site use. From 6-person to 16-person options, our durable and sustainable cabins suit sites of all sizes.

When fixed facilities aren't practical, our towable units provide a quick, flexible solution. Easily moved by a small vehicle and set up on uneven ground, they deliver comfort, compliance, and convenience wherever needed.

6-Person Mobile Welfare Unit

Why Do You Need Welfare Units?

Mobile welfare units are ideal for sites where flexibility is essential. They provide everything your workforce needs, including canteen facilities, toilets, office space, and rest areas—all within a single compact and towable unit. These units are designed to promote efficiency, comfort, and safety while ensuring compliance with HSE standards.

Lightweight | Sustainable | Secure | Comfortable
