

MAXIMISING UPTIME

WE ARE SMILEY MONROE

We exist to keep you moving.

The Smiley Monroe story began in 1979 in Northern Ireland, UK, supplying conveyor belting and service to local quarries, to keep our customers up and running.

Today, our purpose remains the same, and we're more determined than ever to stay close to our customers and solve their problems. Now a global manufacturer with three production facilities spanning three continents, we are proud to produce Endless Conveyor Belts, Cut Rubber and Plastic Parts and conveyor accessories designed for maximum conveyor uptime.

Dedicated to continuous improvement, we push boundaries and consistently ask, "How can we do better?" We prioritise research, development and the growth of our team to deliver the best solutions for both our customers and the environment.

OUR VALUES

Our values are our bedrock, guiding our decision-making. We've created a thriving workplace where together we can achieve great things for our customers, our people and our planet.

Our dedication to our customers is unwavering and our commitment to working collaboratively to problem solve is our driving force.

THE WORLD'S TOP 10
CRUSHING AND SCREENING
BRANDS CHOOSE SMILEY
MONROE BELTS.

NO ONE KNOWS CONVEYOR BELTS LIKE WE DO

**WE'RE NOT CALLED THE GIANTS OF
BELTING FOR NOTHING.**

We stay close to our customers so we can understand your machines, your materials and your applications.

With uptime, efficiency and sustainability in mind, our experienced team of engineers work with you to recommend the most suitable conveyor belt for your application from our wide range of stock. From prototyping to production and aftersales, we're there to support you every step of the way.

MEET OUR PRODUCTS

ZIP CLIP®

WORLD'S FASTEST REPLACEMENT CONVEYOR BELT

Taking the aftermarket by storm, ZIP CLIP® is the fastest belt replacement system on the market. Supplied ready-to-fit with a factory-prepared mechanical splice, ZIP CLIP® offers the longevity of a hot vulcanised endless belt alongside speed of installation. Unlike DIY fasteners, which offer a temporary solution, ZIP CLIP®'s splice is proven to have equal to or greater tensile strength compared to the belt itself, meaning you can run ZIP CLIP® as a permanent conveyor belt with peace of mind. With less than one hour installation time, switching to ZIP CLIP® is saving thousands of downtime pounds and eliminating the need for vulcanising teams in sites across the globe.

**READY TO RUN IN
JUST ONE HOUR**

**SUPPLIED READY-TO-FIT - NO
VULCANISING TEAM REQUIRED.**

SUITABLE FOR OVERBAND MAGNET BELTS.

AVAILABLE FOR BOTH CLEATED AND FLAT BELTS.

PU BELT CLEANER AND CONVEYOR SKIRTING FRIENDLY.

We can fit ZIP CLIP® within an hour, whereas with vulcanising downtime could be anything from 10-12 hours.

Mark McIvor, Operations Manager
RiverRidge Recycling

Lasting up to four times longer than standard EP multi-ply belts, ToughFlex® is based on a straightwarp construction with a special weave of 2 fabric plies and an additional binder warp. The plies are reinforced to resist puncturing and are protected by premium, wear-resistant top and bottom covers.

AVAILABLE IN A RANGE OF SPECIFICATIONS BOTH IN CLEATED AND FLAT BELTS.

SUPERIOR CUT, IMPACT AND WEAR RESISTANT COVERS.

REINFORCED FABRIC PLIES TO RESIST PUNCTURING.

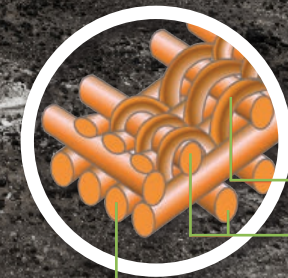

EXCELLENT TROUGHABILITY.

LONGER LIFESPAN - OUTLASTING EP MULTI-PLY BELTS 4X TIMES.

PERFECT ALL-ROUND SOLUTION FOR EXTREME CONVEYING.

INTEGRACLEAT™ Cleated Belts have been built to last in a wide range of applications. Our extensive range of Cleat Profiles are integrally moulded into the belts' top cover offering superior adhesion, increased conveyor belt lifespan and increased process efficiency.

CLEATS INTEGRALLY MOULDED FOR SUPERIOR WEAR LIFE.

CUSTOMISED CLEATS IDEAL FOR EACH APPLICATION.

TOUGHFLEX® BASE BELTS AVAILABLE.

SUITABLE FOR INCLINED CONVEYING.

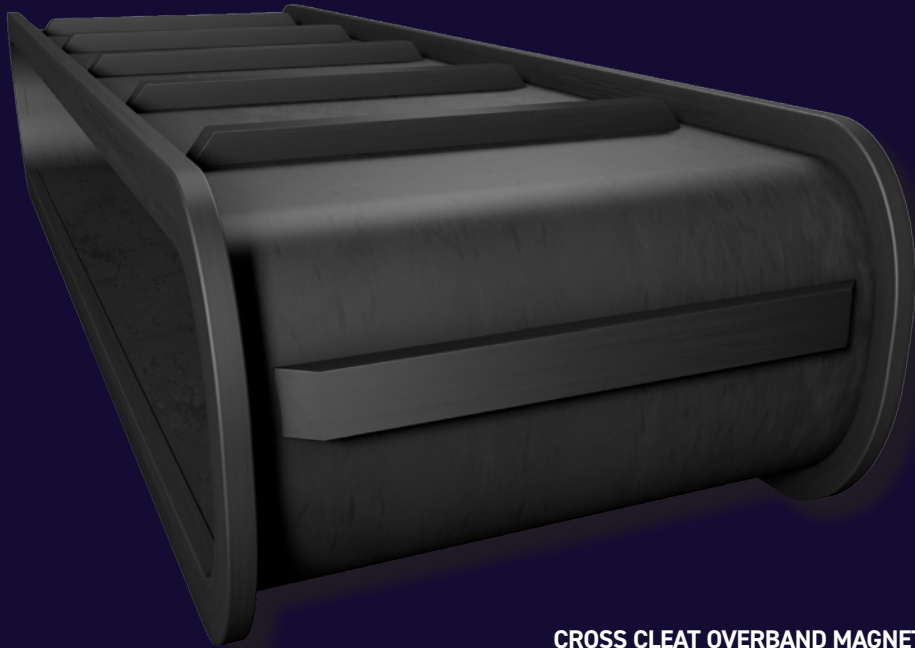

DID YOU KNOW?
Cleated belts are recommended on a conveyor incline greater than 20°.

CLEATS FOR EVERY APPLICATION

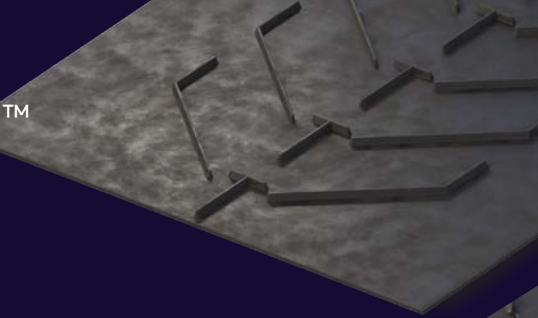

Our INTEGRACLEAT™ range offers a variation of cleat profiles for a range of applications from crushing and screening to recycling and baggage handling. Our team of experts can also design and manufacture a bespoke cleat pattern suitable for your particular application or material handling challenge.

CROSS CLEAT OVERBAND MAGNET BELTS AVAILABLE

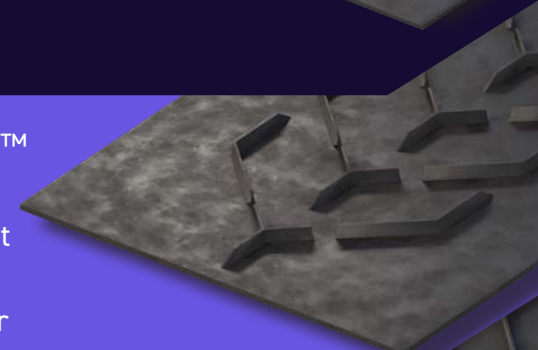

ROCKCLEAT™

Range designed to handle a variety of aggregate material from crushed rock to secondary screened material.

ROADCLEAT™

Road construction is one of the harshest applications. In machines used for this operation, such as milling machines, integrally moulded cleats are a must for durability and long-term performance.

RECYCLEAT™

Designed for tight spaces and steep inclines, while reducing material spillage in waste processing applications.

AGRICLEAT™

AGRICLEAT™ boasts a range of cleat patterns and heights to suit any materials, even at steep inclines.

AIRCLEAT™

Belts that comprises griptop lightweight belting designed for baggage handling and airside applications.

ENDLESS BELTS

Brands who care about performance choose Smiley Monroe belts. Smiley Monroe is proud to manufacture hot vulcanised, endless conveyor belts for the world's top mobile crushing and screening manufacturers. Available in flat and cleated belt profiles, we carry a wide range of stock, from lightweight belting for secondary applications to heavy-duty premium specifications such as ToughFlex® for the harshest conveying applications.

**FLAT AND CLEATED
PROFILES AVAILABLE.**

**WIDE RANGE OF STOCK
OPTIONS AVAILABLE.**

**BRANDED WITH UNIQUE
QUALITY ID NUMBER.**

Warranty rates of under
0.1% across our Endless
Belts range.

CONVEYOR BELT ROLLS

Smiley Monroe offers cut length and full rolls of conveyor belt across the United Kingdom, Ireland, USA and India. Our facilities are stocked with a full range of conveyor belts, flat or cleated. With decades of conveyor expertise behind us, we deliver the belts you need fast.

GIANTS OF BELTING

CUT RUBBER & PLASTIC PARTS

Smiley Monroe supplies a complete range of problem-solving conveyor components designed to prevent machine downtime and protect the wear life of the conveyor belt. We stock a complete range of plied and non-plied rubber sheet, skirting rubber, capping rubber as well as custom cutting machine specific parts such as gaskets, seals and chutes on our state-of-the-art CNC equipment. Speak to our technical team today to design a complete solution to prevent the common causes of conveyor downtime such as material spillage.

ENERGY SAVING POLYMER ROLLERS

Made from HDPE with a triple labyrinth seal, Smiley Monroe's Polymer Rollers are rust and moisture resistant, combating the common causes of roller failure and belt damage. With a self-cleaning surface, they contribute to more efficient conveying, with less risk of downtime due to belt damage.

**ENERGY SAVING - UP TO 60%
LIGHTER THAN A
STEEL ROLLER**

**DAMAGE-FREE - NO RUSTED OR
SHARP ROTATING EDGES**

**LESS NOISE POLLUTION THAN
STEEL ROLLERS**

GLIDETRACKER™ ROLLERS

Easy to install and low maintenance, GlideTracker™ Rollers offer a cost effective alternative to expensive mechanical steering rollers. With instant results, GlideTracker™ will keep your belt on track, preventing belt damage, material spillage and the associated downtime costs.

**EASY TO RETRO-FIT WITH
IMMEDIATE RESULTS**

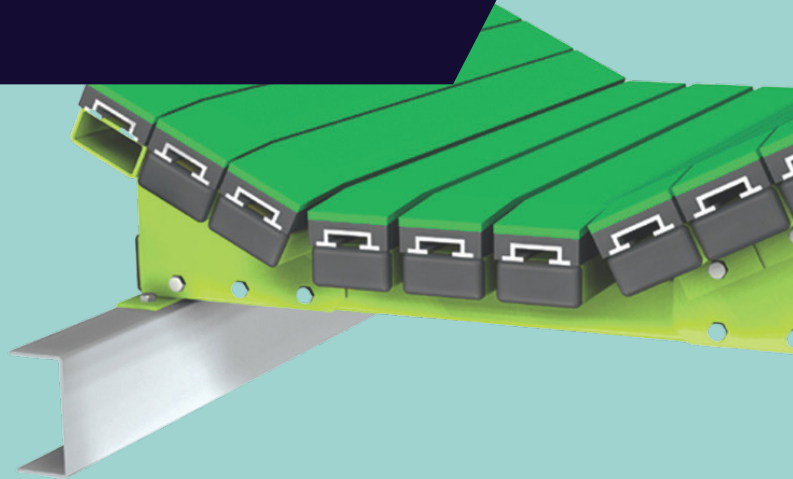

**KEEP YOUR BELT TRACKED,
PREVENTING DAMAGE**

**MINIMISES MATERIAL SPILLAGE
AND ASSOCIATED CLEAN-UP COSTS**

IMPACT BARS

For use at transfer/feed points, Impact Bars reduce the risk of puncture damage to your conveyor belts. Our Impact bars fully support the conveyor belt - preventing sagging and extending belt and skirting lifespan.

 **PROTECTS BELT FROM RIP / PUNCTURE DAMAGE**

 **SHOCK-ABSORBING RUBBER**

 **REDUCES COSTLY MATERIAL SPILLAGE**

PU CONVEYOR BELT CLEANERS

Our Polyurethane (PU) Belt Cleaners are designed to minimise conveyor downtime, belt damage, and spillage associated with the build-up of carryback material.

 **HIGH EFFICIENCY, LOW MAINTENANCE**

 **SIMPLE INSTALLATION**

 **REDUCE CARRYBACK MATERIAL**

 **CLEATED BELT CLEANER AND TUNGSTEN TIP AVAILABLE**
