TECHNICAL DATA

ENGINEERED QUALITY FOR HEAVY HAULING

KEY FEATURES:

- 19T Load Capacity: Transport heavy equipment and machinery with ease.
- Dimensions: L: 9240mm x W:2540mm
- Tandem Axle Design: Ensures stability and manoeuvrability.
- Low-Profile Frame: Facilitates easy loading and unloading.
- Heavy-Duty Folded Side Chimes with Strapping Points to securely hold your cargo in place.
- High-Speed Axles: Ensure smooth and efficient transportation.
- Sprung Drawbar: Absorbs shocks and vibrations for a comfortable ride.
- Hydraulically Operated Ramps: Easy and convenient loading and unloading.
- RHS Chassis Construction: Durable and reliable, designed to withstand heavy loads.
- FEA-Tested: Rigorous testing ensures the longevity and safety of the trailer.
- LED Lights: Enhance visibility and safety.

OPTIONAL EXTRAS:

- Air Brakes: For added safety and control.
- Machine Stops: Securely hold cargo in place.
- Outriggers: Provide extra width for loading.
- Reversing Camera: Improve visibility and safety during backing up.
- Many more...
