

**The ultimate solution for safeguarding your machinery**

# OUR PROCESS

We make ground-breaking protective products and parts for construction equipment

**VANDAL  
GUARDS**

**POLYMER  
HANDRAILS**

**SKY  
SHIELDS**

**BESPOKE  
PARTS**

Expert teams on hand across:

**Design & Development / On Site 3D Scanning / Prototyping /  
Fit-Test / Installation / Aftersales Support Channels**

# VANDAL GUARDS

- ▶ Upgraded material > 27% lighter than alternatives on the market
- ▶ Robust and no rust > stainless steel metalwork > no corrosion
- ▶ Lockable, rainproof storage box > securely stored panels > reduced noise
- ▶ Guards on/off in under 5 mins > intuitive hang & lock system > initial fit in under 45 mins

NON-DESTRUCTIVE INSTALL

No drilling. Protects machine resale value

UV RESISTANT

No degradation

3D SCAN & MEASURE

Rapid development

EASY TO HANDLE

Safe & quick to deploy

# SKY SHIELD™

Shielding operators from the elements

## What is SKY SHIELD™

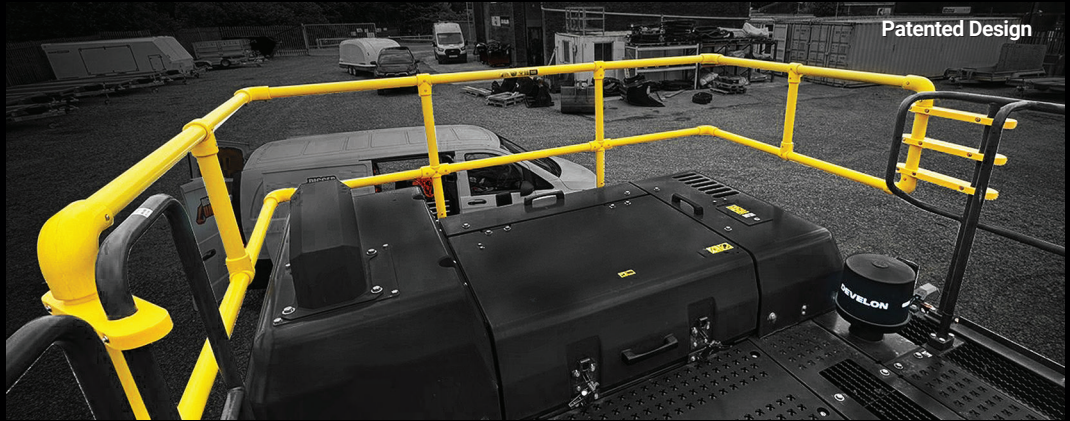

- ▶ A robust and lightweight weather protection kit for micro and mini excavators.
- ▶ Customisable protection: made to measure, precision-cut, clear or tinted plastic weather shields.
- ▶ Easy to fit, no drilling: no damage to machine resale value.

## Why you need SKY SHIELD™

- ▶ SKY SHIELD™ helps protect open-cab excavator operators and limits downtime caused by over exposure to the elements.

# POLYMER HANDRAILS

Patented Design

- ▶ **Lightweight > 75% lighter than steel**  
> fuel & emissions saving
- ▶ **Maintenance free. Resistant to corrosion > No rust / Self-coloured**  
> no painting
- ▶ **Strong and durable > exceeds pull strength standards**
- ▶ **Damping system prevents vibration damage**

Virtual & onsite  
support available

Electric & thermal  
non-conductivity

Transparent to  
electromagnetic  
waves

Designed to  
ISO 2687:2011  
standards
