

Welcome! to our world

RM NEXT

MOBILE IMPACT CRUSHERS

TOTAL CRUSHER CONTROL

With The Touch of a Button

Over the years, we've gained valuable industry knowledge that has shaped how we work. Today, we apply that expertise through engineered best practices, building it directly into our crusher designs to deliver exceptional performance and reliability. We've taken the complexity out of mobile crushers. That means no intense training is required, you are not risking safety, and you can make money from day one.

RM XSMART APP

Connect to your machine directly on-site to get real-time insights.

SELF-REGULATING FEEDER TO MAXIMIZE PRODUCTION

Feed speed adjusts automatically according to engine load to avoid overfeeding the crusher.

TRACK & CRUSH SIMULTANEOUSLY

Without track and crush, you need a wheel loader or stacking conveyor to move the finished product.

RM RELEASE SYSTEM KEEPS YOU CRUSHING

Large slabs can clog your feed by riding on top of your hammers. Activating the RM Release System creates more space for the material to fall into the action radius of the crusher.

REMOTE SCALE CONTROL AND REAL-TIME TONNAGES IN YOUR CAB*

View tonnages and share PDF job reports easily from your RM XSMART app. Zero and calibrate your scale.

* optional belt-scales with up to 3 weighing points.

MORE CLARITY

Better Decisions

Know what's going on when working around the machine. Without situational awareness, you risk loss of production and risk the safety of your crew. That's why we provide your crew with more direct visual feedback to know the performance and status of the machine so you can keep your team safe and your machine running smoothly.

Get instant visual feedback on the status of the machine.

The **performance indicator** helps you hit the feed rate sweet spot to maximize your production intuitively.

OPTIONAL CAMERA SYSTEM AND HEAVY-DUTY TABLET FOR REMOTE MONITORING

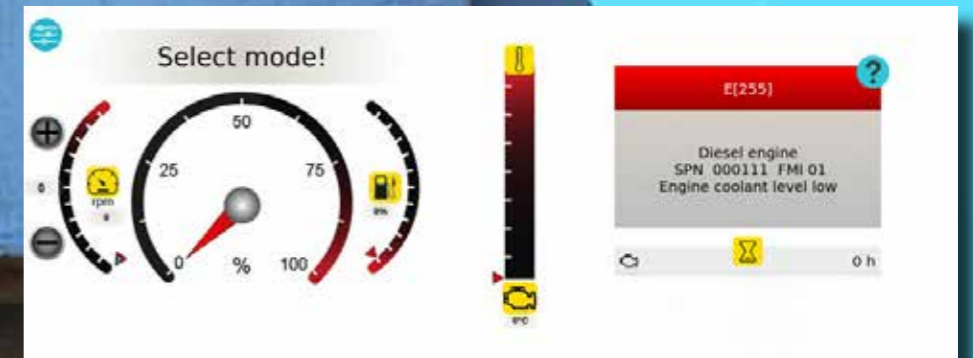

Live feed from the feeder, screen attachment, wind-sifter, and rear of the machine gives you complete visibility of your crusher's operation. This allows you to catch potential issues early and eliminate the risk of manual inspections in hazardous areas.

ADVANCED OPERATOR GUIDANCE

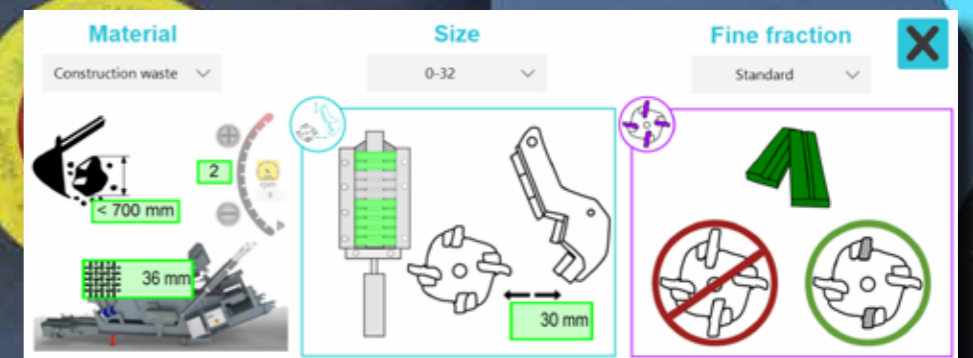

Astonishing Usability

When issues and new situations arise at the jobsite, you feel stuck and left alone in the field. That's why RUBBLE MASTER provides more clarity through more information, guides, and clear first steps so that you become more self-sufficient and reduce the number of phone calls needed to overcome the hurdle.

TROUBLESHOOTING GUIDE

Identify the issue and resolve common errors without a service technician or flipping through endless manual pages.*

SETUP ADVISOR

Initial setup tips to optimize production and reduce wear, without flipping through the manual or guesswork.*

WARNING

12"

ULTRA-BRIGHT TOUCHSCREEN DISPLAY

View the machine's condition, troubleshoot issues, and adjust settings.

REAL-TIME INSIGHTS

More data directly at the machine. View the feeder with the optional camera system.

INTUITIVE CONTROLS

Hit the right buttons intuitively through refined color coding and logical placements of buttons and levers.

1-2-3

EMERGENCY OPERATION

If the radio remote control fails, all crusher functions can be operated via the touchscreen display.

* currently available for RM 90X and RM 100X.

ACCESS MACHINE TELEMETRY & TRACK TONNAGES CONVENIENTLY

from Your Home, Office, or on The Road

Keeping track of business and handling administrative work becomes a breeze. When you struggle to keep an overview of all the moving parts of your operation, it is good to know that you can look up accurate information when needed. Instead of guessing, chasing information, and waiting for someone to get back to you, you can take action proactively and get the job done quickly—anywhere, anytime.

LOCATE YOUR MACHINE

GENERATE JOB-REPORTS

OPTIMIZE YOUR PROCESSES AND IMPROVE YOUR BOTTOM LINE

Cover your blind spots with more data and comprehensive reporting functionality.

PLAN FUELING AND MAINTENANCE

Minimize unplanned downtime. Connect the dots between your service department and your crew. Keep crushing longer.

SAY GOOD-BYE TO MAINTAINING LOGBOOKS

The machine keeps track of your job for you. Share job reports easily with your office or client when needed.

SELECT OBSERVATION TIME FRAME

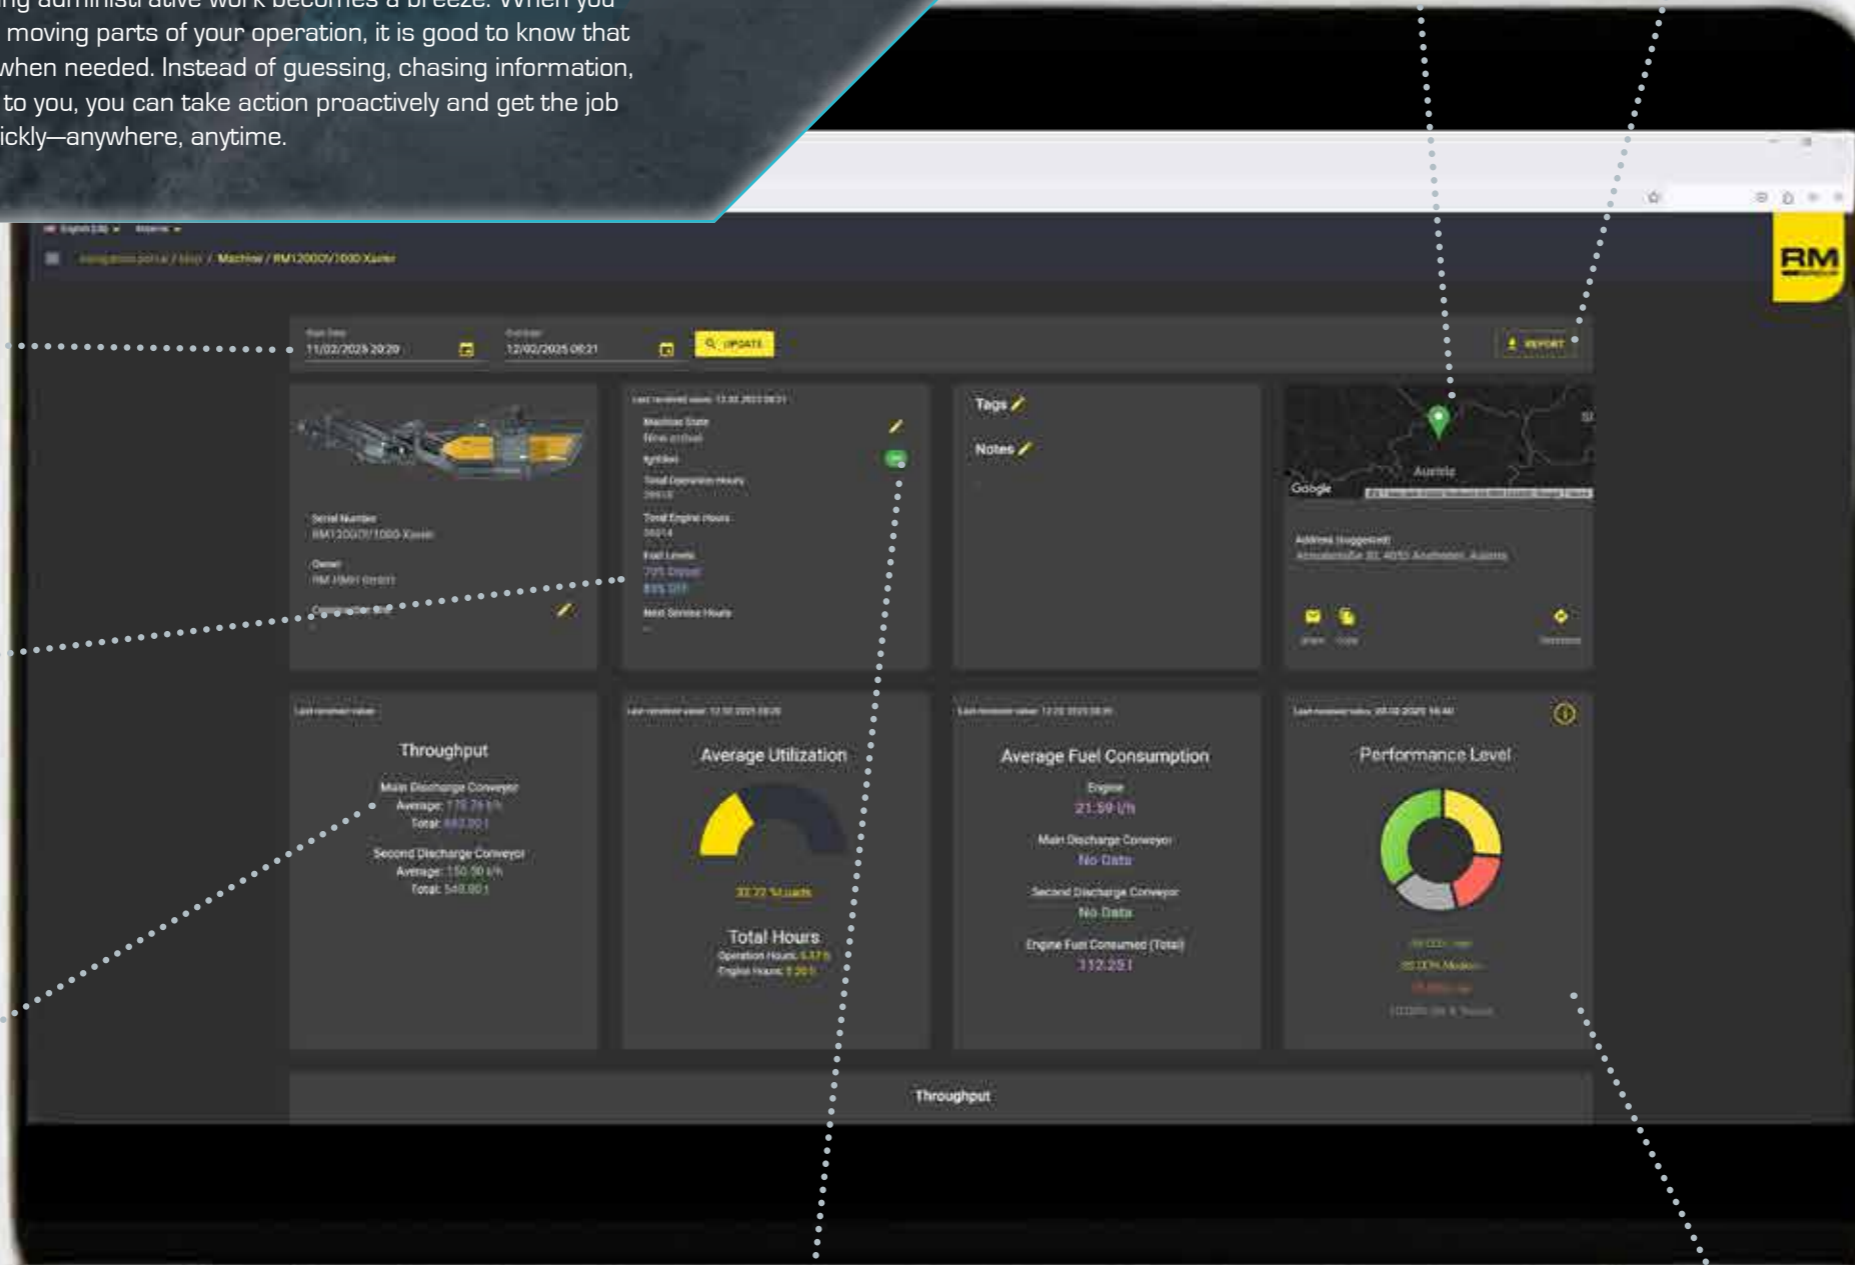

CHECK FUEL & DEF LEVEL

TRACK TONNAGES WITH OPTIONAL BELT SCALES

KNOW IF THE IGNITION IS ON

UNDERSTAND THE UTILIZATION OF YOUR MACHINE OVER A CERTAIN PERIOD

CURRENT MACHINE UTILIZATION

SERVICE MADE EASY

Maximize Uptime

At RUBBLE MASTER, we understand you want to feed the crusher. If you waste time with lengthy processes, you lose production and profits. That's why we make the machine setup, daily maintenance, and troubleshooting as easy as possible, so you spend more time crushing and less time running around the machine and figuring out what's next.

NEVER MISS A LUBRICATION POINT AGAIN

Spot lubrication points easily through color-coded stickers and centralized greasing points.

GROUND-BASED SERVICE

Generous access to crusher and engine. There is no need to climb ladders with heavy items.

IMPROVED DIAGNOSTICS & TESTING CAPABILITIES

Start/stop functions individually for testing.*

MANUALS & SCHEMATICS READILY AVAILABLE

View PDF manuals on the display like on your computer.*

ERROR CODE HISTORY

Qualify issues in the field and reduce the phone calls required to solve an issue.*

* currently available for RM 90X and RM 100X.

SAY YES TO MORE JOBS

Grow Your Business Faster

Aggregate quality and machine versatility are key to maximizing utilization. If your crusher can't do the job or you can't use your end product, you are holding your growth back. RUBBLE MASTER impact crushers are easy to transport and come with various options to improve material quality, maximize production, and minimize wear.

Pre-Screen Grizzly
[standard]

RM 70GO! 2.0 | RM 90X |
RM 100X | RM 120X

RM Active Grid [optional]
Improved performance for sticky materials

RM 100X | RM 120X

2-Deck Pre-Screen [optional]
Improved performance for sticky materials and to produce a defined material.

RM 120X

MAGNETIC SEPARATOR

Segregate rebar

SCREEN ATTACHMENT

Crush & screen simultaneously to produce a spec product.

OPTIONAL WIND-SIFTER

Remove lightweight contaminants such as roots, plastics, or fabrics.

SMALL FOOTPRINT & EASY TO TRANSPORT

CRUSH CONCRETE, ASPHALT, C&D WASTE, AND ROCK

AGGREGATES PEOPLE WAIT IN LINE TO BUY. BETTER CUBICITY. SUPERIOR GRADATION.

LOW NOISE DISTURBANCE FOR URBAN-FRIENDLY OPERATION

ADJUST EVERYTHING WITH ONE OPERATOR

Hydraulic Folding Screen Attachment*

Changing job requirements shouldn't slow you down. With the **hydraulic-operated screen attachment**, adjusting your crusher setup is quick and effortless — no extra hands are needed. Designed for single operator use, it allows you to swap screen media or detach the screen box with minimal effort, saving valuable time on the job. Stay efficient, reduce downtime, and focus on the work that matters most.

**CRUSHED & SCREENED
END PRODUCTS**

**OVERSIZE MATERIAL
WITHOUT FINES**

**SWITCH FROM OPEN TO
CLOSED LOOP IN MINUTES**

**SWING RETURN CONVEYOR
90° TO STOCKPILE
OVERSIZE MATERIAL***

* except RM 70GQ! 2.0

**EASY CHANGE OF
SCREEN MEDIA FROM
THE GROUND**

**FOLD BACK MAIN
CONVEYOR FOR GENEROUS
SCREEN-DECK ACCESS**

* Limitations apply to the RM 70GQ! 2.0. Manual steps required to set up the machine.

A HUGE LEAP IN EFFICIENCY

Diesel-Electric Direct Drives

When material prices and crushing rates are fixed, high operating costs cut into your margins—leading to stress and sleepless nights. RUBBLE MASTER's reliable and fuel-efficient diesel-electric direct drive helps you keep more of your hard-earned money. No hydraulic leaks. No pollution issues. No overheating. No power losses. Just reliable, cost-effective crushing that keeps your business moving forward.

Power More Equipment with One Engine

Utilize electric surplus power to operate an additional compact screen attachment or a fully electrified mobile screening plant. Best of all, this works with our diesel-electric direct-drive and hybrid crusher models.

RM 120X POWERS RM MSC8500E INCLINE SCREEN

RM 7060! 2.0 COMPACT CRUSHER POWERS RM CS3600 COMPACT SCREEN ATTACHMENT

DIRECT DRIVE

The diesel-engine directly drives the rotor.

DIESEL-ENGINE

John Deere Stage 3a & Stage 5 / Tier 4F

SMALL HYDRAULIC PUMP

Powers auxiliary functions, machine setup, and movement of the machine.

CLUTCH ASSEMBLY

You can engage and disengage the rotor using a manual twin-disc clutch, while a hydraulic coupling provides a smooth, controlled start.

GENERATOR

Powers conveyor belts, vibro-feeder, and screen-box

SAVE UP TO 30% ON FUEL

Compared to traditional diesel-hydraulic impact crusher plants

SAVE UP TO 70% ON HYDRAULIC FLUIDS

Compared to traditional diesel-hydraulic impact crusher plants

WORKS WELL IN EXTREME TEMPERATURES

and at high altitudes

WIDE-CORE RADIATOR

Stays clean longer and is much easier to clean in an asphalt application

NEXT LEVEL ELECTRIFICATION

Full-Electric Crusher Options

Upgrade your crusher drive to meet higher emission standards and minimize fuel and maintenance costs. Eco- and noise-sensitive environments, such as inner-city or indoor crushing sites, new government regulations, subsidies and tenders tied to emission targets often make conventional diesel-powered crushers unsuitable. Our 100% electric skid-mounted crushers and mobile hybrid crushers enable you to say yes to demanding jobsites and benefit from reduced operating costs.

“

We chose the hybrid drive because we could use the existing grid connection of our gravel plant, thus protecting the environment and saving costs.

”

Jonathan Schaffers,
Welbers Kieswerke
Germany

SAVE 100% ON FUEL WITH GRID POWER

50 Hz grid required. Consult a RUBBLE MASTER expert for further power requirements.

Mobile hybrid crusher with optional grid hook-up

RM 120XE HYBRID*

Mobile hybrid crusher with optional grid hook-up

* Only available with Stage 5 / Tier 4F engines.

CRUSHER PERFORMANCE

Refined For Over 30 Years

The heart of the machine —the impact crusher— has proven its reliability and performance in soft to medium-hard materials. The 4-bar rotor is suited for primary and secondary crushing applications. If a crusher design is too refined with too many settings, you waste time getting it right and struggle to understand the impact of your actions. That's why we rely on simple mechanical, common-sense solutions so you can quickly get your settings right.

THE RIGHT HAMMER METALLURGY FOR YOUR APPLICATION

Martensitic with ceramic inlays

For recycling and primary crushing applications.

Martensitic with extra ceramic inlays

More uptime in recycling and primary crushing applications.

High Chrome

For abrasive, asphalt, and secondary crushing applications.

“

I have several RUBBLE MASTER machines and am very happy with their performance. The high quality of the final material surprised me and helped me tremendously fulfill the given requirements. We have worked with many other crushers of all kinds before, but none of them could give us the same quality of final material and efficiency as the RUBBLE MASTER machines.

”

Gabriel Meléndez,

MUCH MORE Than a Crusher Manufacturer

Our Business Exists to Support Every Aspect of Yours

We passionately empower the construction, demolition, and material processing industries to make money with their materials while leading the way toward a greener, more sustainable future.

Driving Innovation and Sustainability
in Mobile Material Processing

It all began with a vision: to make recycling C&D waste materials on-site a reality and reduce the waste of valuable resources. We set out to build compact machines that would be highly accepted in urban environments and designed for users with little to no experience in material processing. This vision sparked an international success, creating a new category of compact crushers. The efficiency and ease of use quickly gained traction among professional aggregate producers worldwide, driving the expansion of our product line while remaining true to our core design principles.

WHAT MAKES THE DIFFERENCE? A Team That Truly Cares About Your Business!

We believe in transparency, relationships over transactions, and never settling for the way things have always been done. We're driven to create the best product, supported by caring and comprehensive service. But the real cornerstone of everything we do is passion. We love our products and believe in them. We're passionate about helping you build a sustainable legacy that will last for generations. Your legacy is our legacy, and that drives us to help you be your best.

LIFETIME SUPPORT

REGARDLESS OF AGE AND HOURS, WE SUPPORT YOUR MACHINE.

EXPERT ADVICE

WE ARE THERE BEFORE THE PURCHASE AND LONG AFTER.

OPERATOR TRAINING

WE HELP YOU DOMINATE YOUR JOBSITE.
