Tracking Guides

PVC conveyor belts serve as vital lifelines in numerous industries, providing efficient and reliable material handling solutions.

QPI specialise in the supply and fitting of high-quality PVC conveyor belts and products, fitted by our experienced PVC specialist team. Additionally, we offer bond-on cleats and chevrons, which can be fitted as per your requirements.

“We cater to a wide range of industries”

At QPI, we cater to a wide range of industries including recycling, brick and tile manufacturing, bagging and palletising plants, airport luggage, parcel transport, theme parks and the farming and vegetable production.

Available in stock up to 3000mm wide

For more information on our range of PVC conveyor belt and products, or to request a quote, get in touch with our sales team today.
