

# SUSTAINABILITY AND QUALITY COMBINED - BE.PART

Modern. Values preserved.

## Modern. Values preserved.

rema.germany, a brand of Automotive Product Solutions-Germany GmbH, stands for sustainable remanufacturing and resource-saving solutions in the field of truck parts. As a medium-sized, family-owned manufacturing company, we combine many years of experience with state-of-the-art technology to meet the challenges of today's world.

With our European production sites and a highly digitized way of working, we develop innovative products and services that not only protect the environment, but also guarantee the highest quality.

Product lines 1,572,964 kg CO<sub>2</sub>\* saved

Steering systems 164.042 kg\*

Fuel and exhaust systems 227.697 kg\*

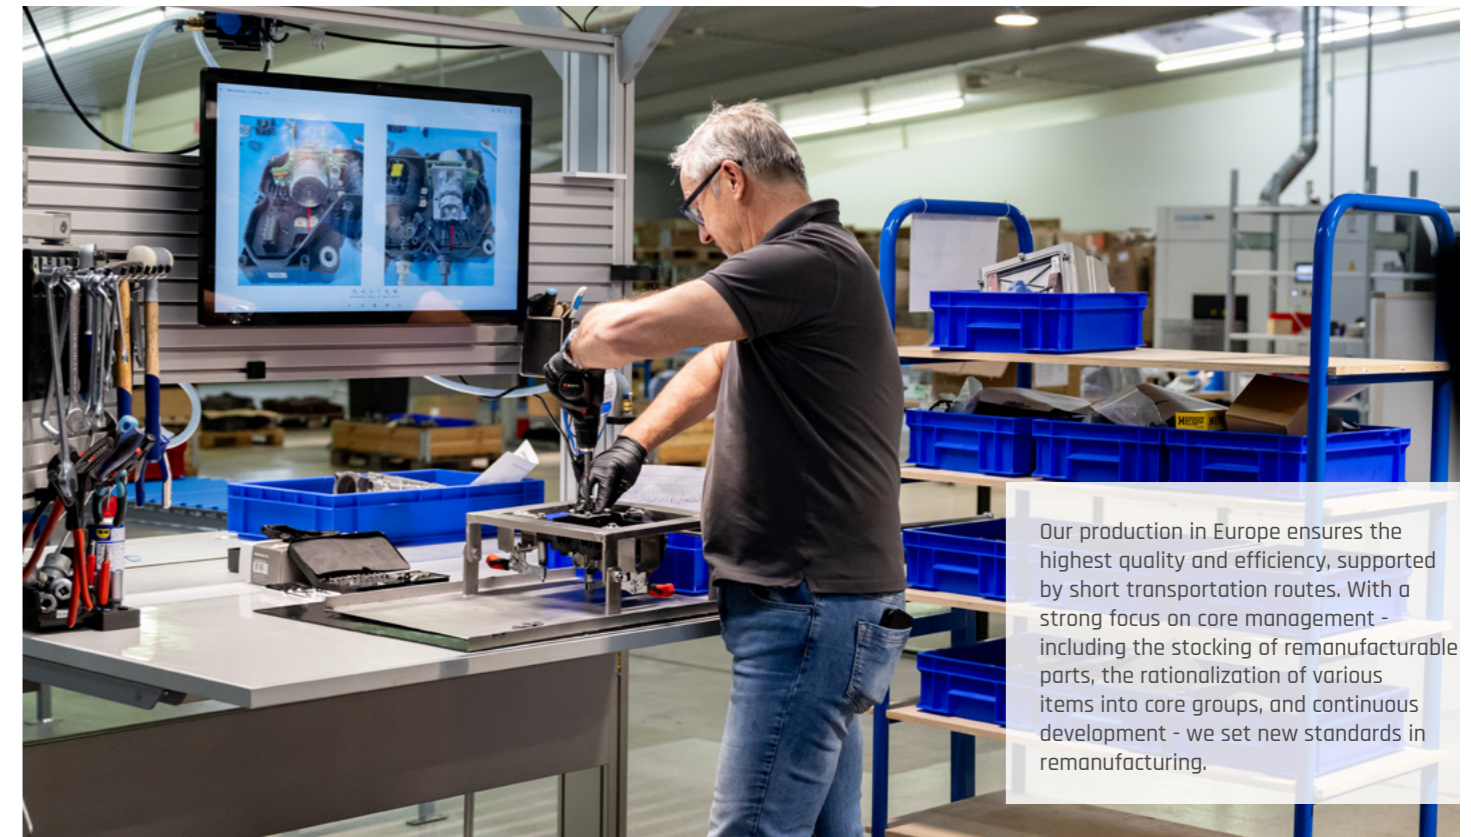

Drive components 173.577 kg\*

Brake systems 1.007.648 kg\*

Reprocessing

Our production in Europe ensures the highest quality and efficiency, supported by short transportation routes. With a strong focus on core management - including the stocking of remanufacturable parts, the rationalization of various items into core groups, and continuous development - we set new standards in remanufacturing.

Sustainability

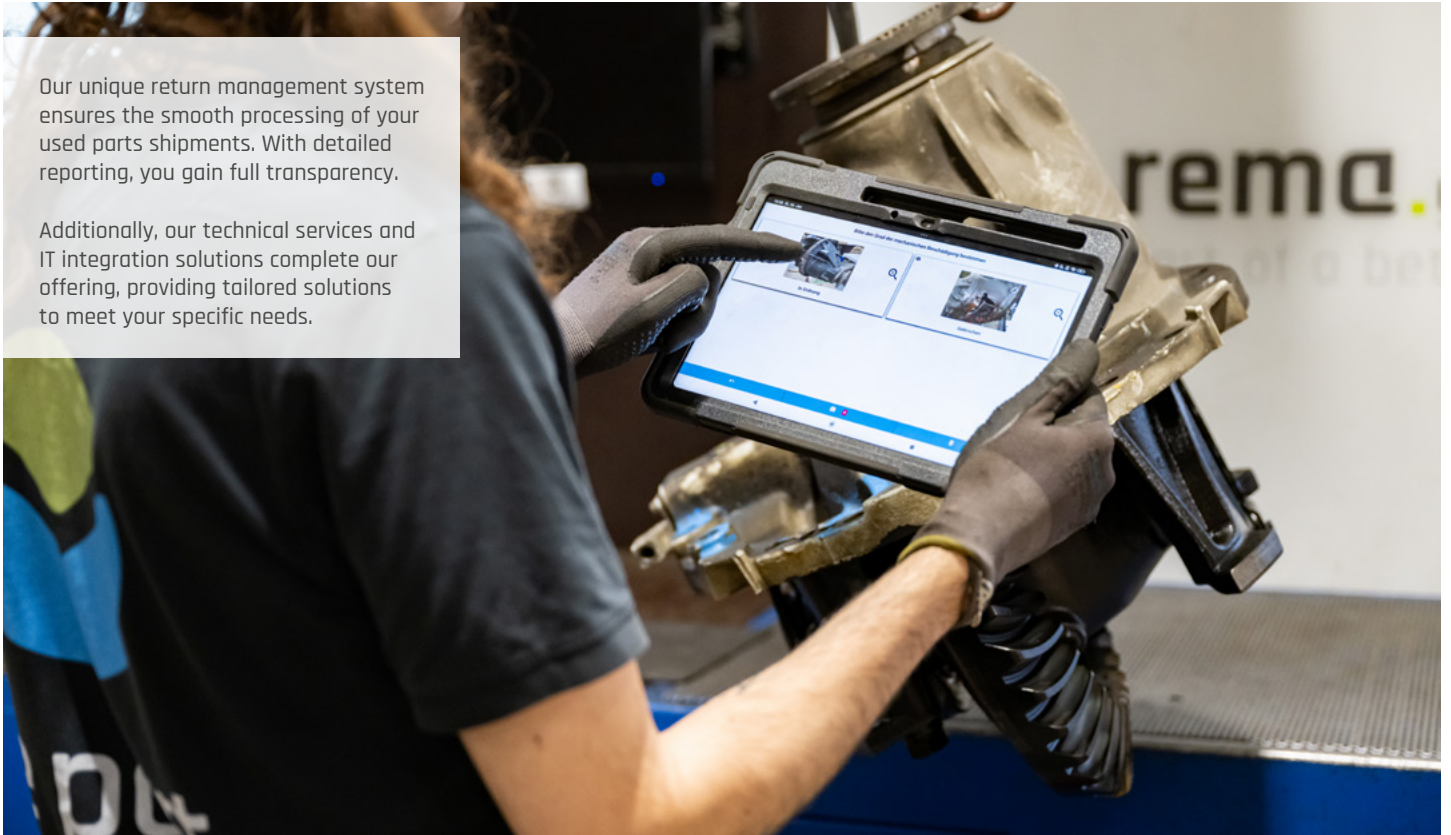

We place great importance on sustainability. Our CO<sub>2</sub> certification and detailed reporting support you in achieving your environmental goals. Through resource-efficient processes, we actively and sustainably contribute to environmental protection.

## Reman-Services

Our unique return management system ensures the smooth processing of your used parts shipments. With detailed reporting, you gain full transparency.

Additionally, our technical services and IT integration solutions complete our offering, providing tailored solutions to meet your specific needs.

## Our vision

"We have set ourselves the primary goal of steadily increasing our contribution to the sustainable conservation of our world's resources, winning over other market players and thus becoming synonymous with the circular economy in the relevant market in Europe."
