Our stylish, easy to operate, clean and efficient capsule machine is the perfect solution for freshly brewed espresso coffee for you, your team and your guests. This machine uses high quality capsules containing ground coffee. If you'd prefer a machine that uses coffee beans instead of capsules please request this at the time of booking.

With very little maintenance this machine is ideal for occasional coffee situations and designed for you to use with minimum fuss and effort.

Perfect for keeping your team going and your invited guests happy.

Ideal for the smaller stand. This machine can make espresso or regular coffee (including decaf) and a very limited supply of hot water for the occasional tea.

Photographs are examples of our machinery and are for a visual reference only. Supplied machinery might be of a similar standard.

BEAN TO CUP AUTOMATIC MACHINE INCLUDES UP TO 500 SERVINGS PER DAY | SELF USE

This machine offers state-of-the-art technology, touch-screen menu and customisable background lighting. We will also include a separate hot water boiler (shown) for an increased hot water and tea production. This bean to cup machine will produce high street quality espresso based drinks and hot chocolate. Uniquely, and for speed of serving and convenience this machine uses a special dehydrated semi skimmed milk product, which negates the need to have an experienced barista operating the machine. Taste profile is very similar to fresh milk.

As mentioned above this machine comes with a water boiler. This water boiler also has a steam arm, and although we recommend the special dehydrated milk in this machine, fresh milk can be an option with an experienced operator. Please express your preference at the time of booking.

Ideal for the medium to large stand. This machine will produce espresso, cappuccino, latte, regular coffee, and a good hot water supply for tea. Hot chocolate is also possible. Moderate amount of daily cleaning necessary.

Photographs are examples of our machinery and are for a visual reference only. Supplied machinery might be of a similar standard.

Includes: Machine and water boiler, recyclable cups, stock required for up to 500 servings per day: coffee beans, special dehydrated milk and chocolate powder, 3x flavoured syrups (vanilla, caramel, hazelnut), English breakfast and herbal teas, stirrers, sugar and sweetener. When the machine is set up for you we will leave you with 6x litres of long life milk for tea and a 2 x 19litre containers of water which are included in the price. Further supplies of milk and water should be purchased through ExCel London Hospitality.

Please note that under-counter space is required for the housing of the water bottle and external water pump.

Staff: This is a self use machine but if you wish to hire a member of staff please contact ExCel London Hospitality.

If you are operating this machine yourself, where possible please make a member of your staff available to receive operational instructions on set up day. This is usually the day before the first day of the event.
