

X20 OneRoom

Immersive Online Collaboration Environment With Real-time Engagement

X20 OneRoom is the future of remote meeting and learning. Built on the robust, award-winning X20 Platform, OneRoom represents a new approach to collaboration compared to traditional videoconferencing. Create an immersive learning and meeting space. OneRoom connects remote and in-room participants together for real-time collaboration and learning wherever they are located.

X20 OneRoom Benefits

The OneRoom solution is equipped with advanced features such as cameras for true eye contact combined with high-quality directional audio that ensures one-to-one engagement. An interactive whiteboard and a suite of integrated collaboration tools facilitate learning, training and decision making for in-room and remote participants alike.

With its wide breadth of applications, the next generation X20 OneRoom contributes to reduced costs, improved communications and an engaging experience for all participants across the globe.

CLASSROOM

An immersive blended learning environment that provides an engaging synchronous experience for both students and teachers.

The collaborative working environment unites in-room and remote participants in the same session, to help teams engage and communicate on a global scale.

MEETING ROOM

Executives and their teams are supported by a secure, private environment that can host both in-room and remote participants to strategize and collaborate together.

EXECUTIVE ROOM

Unique training sessions using an innovative participant-centered blended learning solution that promotes real-time engagement and active participation.

TRAINING ROOM

A private, secure environment enables users to create a hybrid meeting to assemble key stakeholders for strategic decision making.

SITUATION ROOM

Unlock the full potential of X2O OneRoom and discover how teaching and training can be elevated to a new level. Contact us for additional information on how you can experience the X2O Media difference for yourself.
