

DUET® FOR MICROSOFT TEAMS, BY BANDWIDTH

Direct Routing with emergency calling & messaging

Moving to Microsoft Teams?

If you've chosen Direct Routing to power voice calling for Microsoft Teams, you also need to figure out emergency calling and texting.

Moving to Microsoft Teams requires a migration plan that includes your calling strategy, emergency calling capabilities, and business messaging to help you meet complex regulations and communications needs.

Bandwidth is the only carrier that offers a comprehensive SIP and emergency calling solutions for the enterprise.

With Bandwidth's Duet® for Microsoft Teams, you can bundle reliable, scalable, and cost effective voice and emergency calling for a seamless migration experience and maximum control over your telephony—all from a trusted, long-time Microsoft solution provider.

With our award-winning Duet for Microsoft Teams, you'll receive:

- One trusted vendor for SIP, emergency calling and SMS/MMS
- Secure, redundant, reliable voice and emergency calling worldwide
- Dynamic location routing capabilities to help achieve compliance with E911 laws like RAY BAUM's Act in the U.S.
- Better Direct Routing with greater telephony control
- Software-driven SIP for automated porting, provisioning, and rollbacks
- Greater ROI by lowering on-prem equipment costs and pooling usage across users
- Stellar service from the Bandwidth team (with a 9.8 customer satisfaction rating)

Simplify your communications and accelerate your move to the cloud
