Lumis Pro

Lumis Pro is the next generation Learning Management System (LMS) from My Learning Cloud.

Developed internally by our team of expert developers, Lumis Pro truly revolutionises Learning and Development for the Health and Social Care sector.

Developed with the Learner in mind, Lumis Pro brings together a streamlined and user-friendly UI/UX as well as immersive, interactive and engagement e-Learning content.

Our Lumis Pro LMS empowers your learners to further increase their knowledge and skill sets by encouraging them to take ownership of their Learning Journey. At My Learning Cloud we understand that everyone's Learning Journey is different and this is why our tailored LMS's are available on both the iOS and Google Play App Stores. Allowing your learners to complete their mandatory or CPD optional learning anytime, anywhere and on any device.

Lumis Pro is packed full of exciting and intuitive features that help support your organisation to increase and maintain your overall compliance while ensuring your staff remain competent within their roles.

We have brought the latest advancements from the SaaS sector and ever-changing learning landscape to develop a top of the range LMS, for the Health and Social Care sector.

Lumis Pro builds on the foundations of our Lumis Essentials LMS that is also packed full of useful and beneficial features from powerful reporting and powerful admin centres. Whether you are a small, boutique organisation or a multi-site franchise, we have a LMS to suit not only your organisational needs, but also your budget.

About Us

We are the blended and e-Learning specialists that empower Health and Social Care providers with user-centric learning.

Our expertise, tools and guidance enable your care organisation to upskill your team, ensure compliance and deliver the best quality care.

Our team are experts in their field and we continually strive to provide you and the Health and Social Care sector with the best learning solution we can.

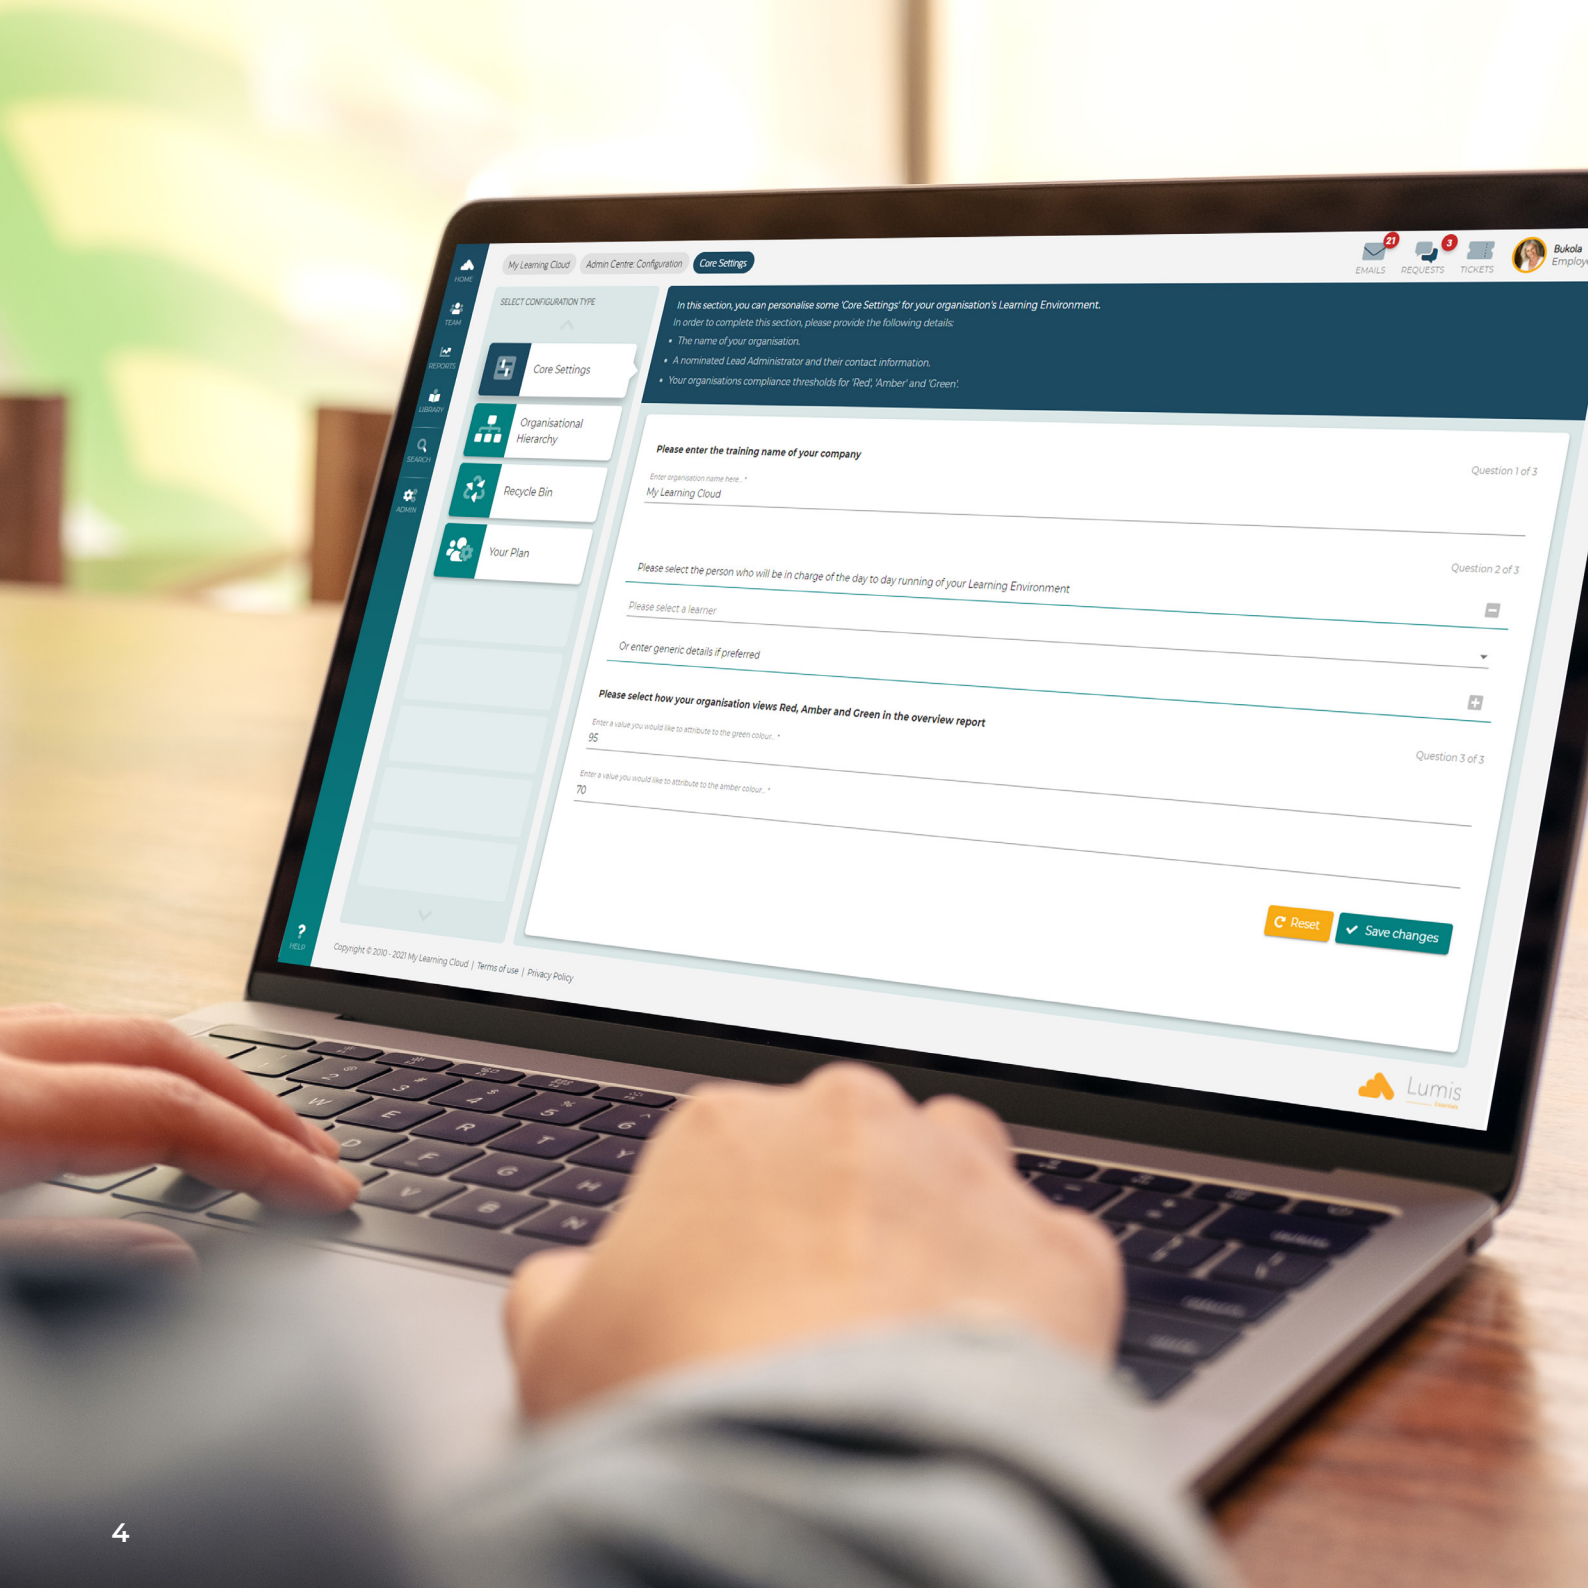

Our tailored Learning Management Systems and accredited content, written by our qualified Subject Matter Experts, allows your care organisation to confidently manage and deliver complaint, higher standards of care.

All of our 100+ e-Learning courses are CPD accredited by the CPD Certification Service, ensuring our course content is of the highest standard.

Our status as a Skills for Care Endorsed Provider and Centre of Excellence, confirms our commitment to the Continued Personal Development (CPD) of those working within the Health and Social Care sector.

Lumis Pro

Our Lumis Pro Learning Management System is designed to truly reflect your organisational needs, allowing you to customise it and make it your own.

The features included allow your organisation to take control of your training, with everything you need in one place. This means, all your learning, administration and compliance in one user-friendly system.

We understand that each organisation is different and this is why our Lumis Pro Learning Management System allows for a blended approach and manages all formats of learning.

Our Learning Pathway feature enables you to create and control a staff member's Learning Journey from start to finish, set custom cycles and your own pass marks and validity periods.

At My Learning Cloud, we know a Learning Management System is only as good as its administration. With the powerful Admin Centre, you can make changes to your Learning Management System quickly, branding or manage workshops, all in one place.

With more than 35 reports available, My Learning Cloud ensures you have all the information you need, when you need it.

Your organisation will benefit from the following preloaded features:

Helpful Welcome Tours

Simple Setup Wizard

Dynamic Report Engine

Insightful Evaluation Centre

Trackable Policies and Procedures

Unlimited Support as Standard

Powerful Admin Centre

Customisable Learning Pathways

Innovative Learning MOT

Custom Branding

In-Built Support System

Multi-Device Compatibility

Key Features

Admin Centre

There is no needless data entry, or having to remember specific processes – just follow the simple on-screen instructions to process any changes you wish to make. You'll be able to completely configure all areas of your Learning Management System, such as Branding and Organisational Hierarchy.

Learning Pathways

Learning Pathways enables you to set learning to reflect the person, their place of work or even their role. You can automate the entire process of assigning courses with pre-set pathways.

Workshop Management

Our Workshop Management functionality allows you to set up, manage and run all of your workshops effortlessly.

Powerful Reporting

You can search, filter, export and print all of your reports, collating all the information you require at the touch of a button. We have over 35 reports available for you from a Complete Training Record report to a Compliance Matrix report.

Integrations

Our Learning Management Systems are fully customisable and can be integrated with your existing HR or ROTA system, as well as Zoom™ and iCal to fully automate your Learning and Development.

Course Uploader

One of the key benefits of our tailored Learning Management Systems, is our in-built Course Uploader. This feature is available on our Lumis Pro Learning Management System and includes up to 1GB of storage space.

Organisation Benefits

Fully Customisable

Our Lumis Pro Learning Management System puts you in control. Our Admin Centre feature streamlines the process of managing your organisations complete Learning Journey, saving you time, money and unnecessary admin tasks.

Administration Time Saving

Our Learning Pathways feature enables you to create and control your staff's Learning Journey from start to finish. With Learning Cycles, you can set up a training plan which, on completion of a course, can automatically enrol an employee onto the next stage of their training, saving countless hours of administration.

Maximise your Savings

Whether virtual or face-to-face, Learners can pro-actively request to book onto a workshop, reserve and confirm their place, ensuring you have the maximum attendance, saving you time and money.

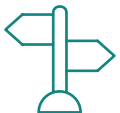

Increased Compliance

All of your reports are live and colour coded, this means, the moment a Learner completes a piece of learning, an e-Learning course or reads a policy for example, the reports will reflect this change.

Management Made Simple

With our built-in integration features, you'll be able to manage all aspects of your organisation in one place. Zoom™ integration means you take advantage of having Virtual Training Sessions with up to 100 delegates, saving you money on face-to-face training or workshops.

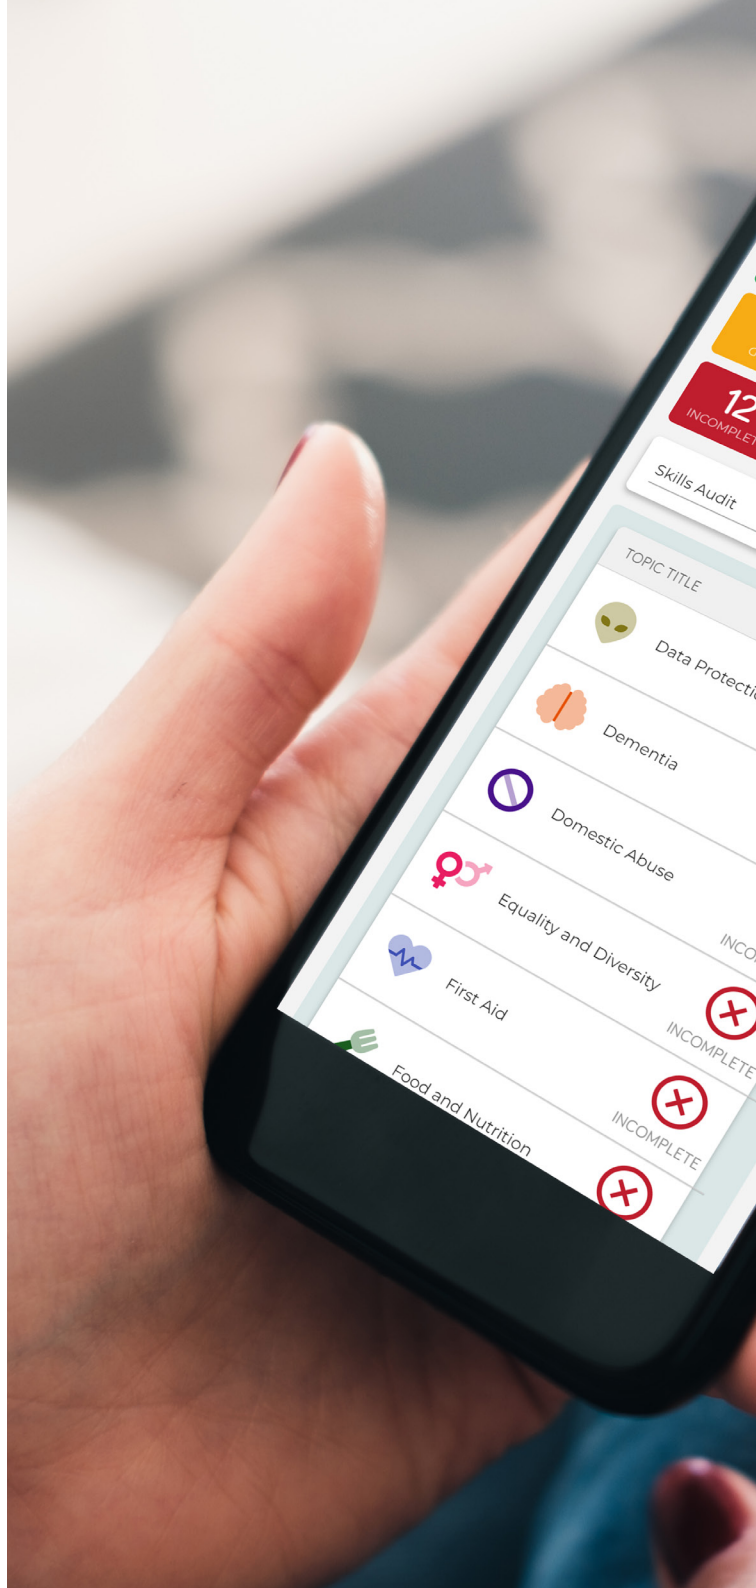

Your Learning, Your Way

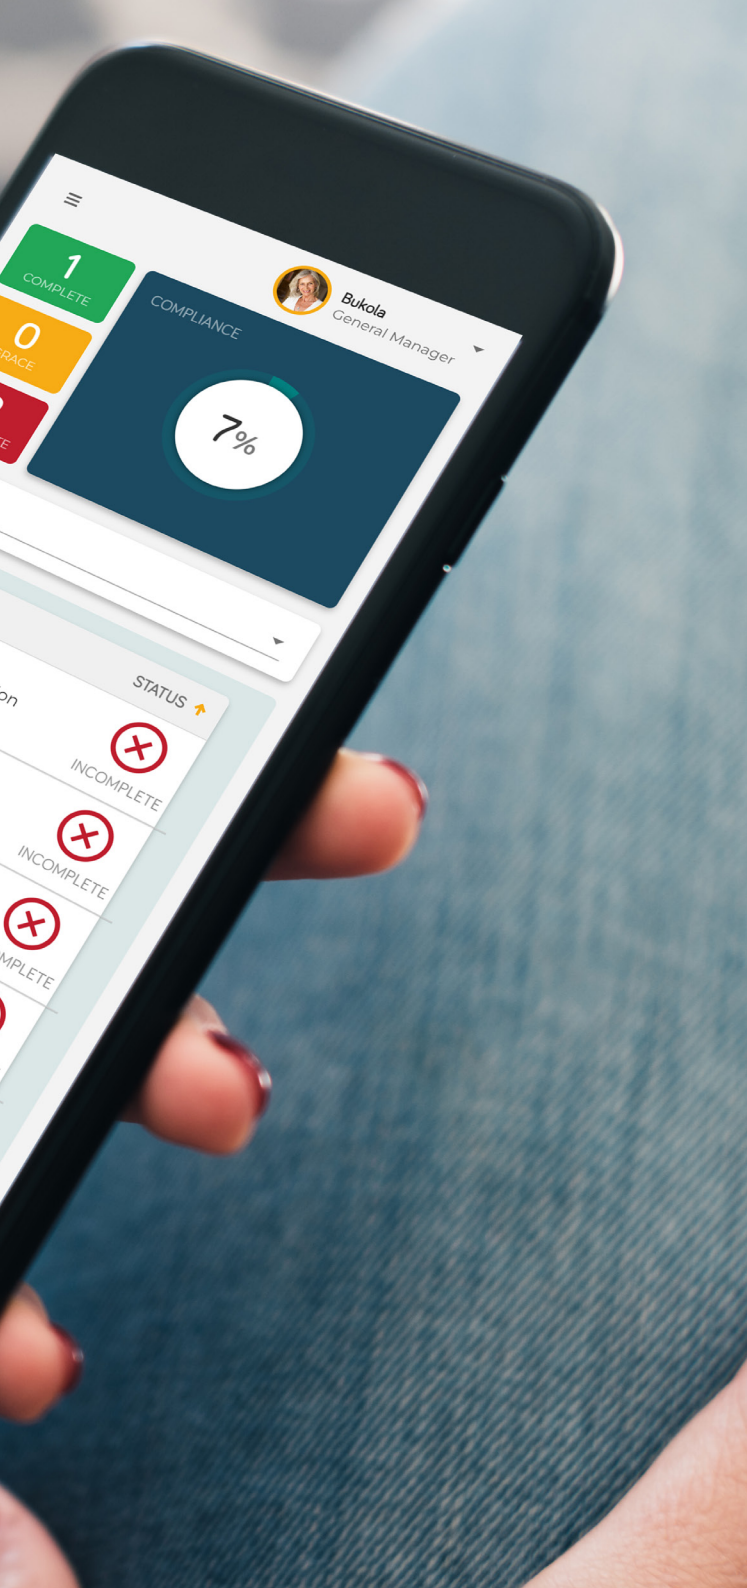

Our Course Uploader feature allows your organisation to upload your own specific course content, ensuring that any learning bespoke to your organisation or learners can still be completed and tracked in one place.

On the Move!

Our tailored Learning Management Systems and accredited content are available on the move, allowing you to complete your learning anywhere, anytime and on any device. Simply use your web browser on your phone or tablet!

If you have internet access, you have access to your learning!

Blended Learning

Many studies have shown that the blended and digitally-driven learning models have led to higher levels of engagement and My Learning Cloud are the blended and e-Learning specialists for the Health and Social Care sector.

Our Learning Management System has been designed to empower Health and Social Care providers with user-centric learning and we've been very mindful of the design of our Learning Management System and e-Learning content.

Ensuring it's motivating, engaging and supportive of the Learning Journeys for the learner, their manager and the organisation to deliver successful outcomes. With blended learning, your learners can take control of their training by providing them with a personalised experience and your employees can overcome time constraints and study at a pace that is convenient to them.
