Pro Tips before you plug in

Exhibition and event power outlets aren't like what you get at home.

On the face of it, they look exactly the same - featuring a standard UK three-prong plug slot. However, for safety and efficiency, the power outlets you'll see on the show floor are regulated to only supply as much power as you need. For example, you don't need to fork out for a 3000w socket if you're just plugging a laptop in!

Use the diagram on the next page to work out what you need before you buy, and you can always call us on 0121 794 2769, or email electrics@wearehb.com if you need a hand.

Pro tips: Extension leads

You can use 4-way extension leads, but please keep the following in mind:

- The total wattage of the items plugged into the extension lead must not exceed the output of your socket's supply
- For safety, you can only use one extension lead per 500w socket
- Extension leads must be no longer than 2 metres
- Multi-way adapters cannot be used
- Trailing cables must not pose a tripping hazard

Electrics – Plugs and Sockets

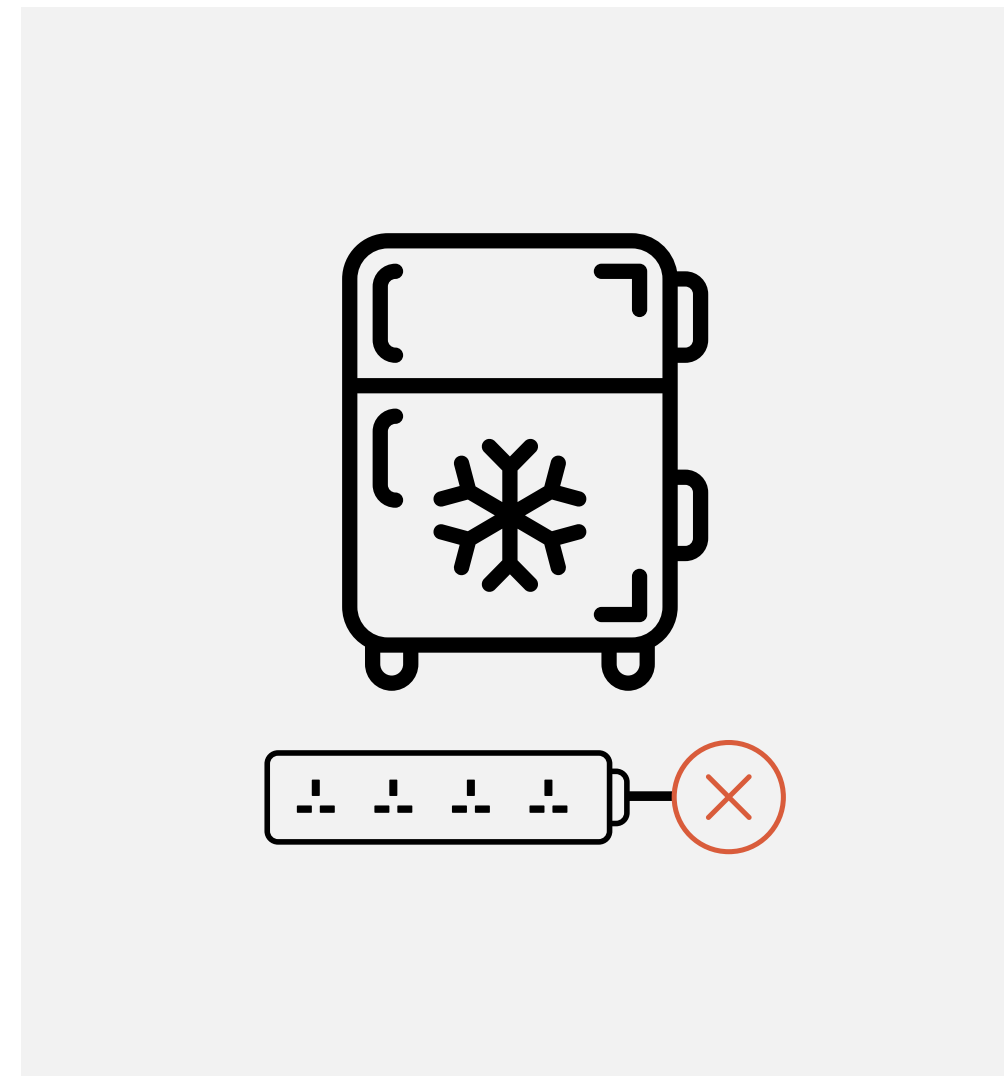

Choosing the right supply output

500W

500W SOCKET (2 AMPS MAX)

- Television (up to 42")
- Laptops
- Phone chargers

1000W

1000W SOCKET (4 AMPS MAX)

- Television (up to 60")
- Lighting (maximum 1000w)
- Upright fridge/cooler

2000W

2000W SOCKET (8 AMPS MAX)

- Microwave
- Domestic coffee machine
- Small vacuum cleaner

3000W

3000W SOCKET (13 AMPS MAX)

- Kettle
- Iron (standard)
- Counter top oven

For the prices of your fittings and a more extensive offering, please see your exhibitor manual or show specific ordering form, as prices are configured on a venue-by-venue basis.

Electrics - Lighting

Spotlights

Spotlights are great for lighting, all our spotlight range are adjustable.

1SPT	1 LED spotlight on track
3SPT	3 LED spotlight on track
LVSPT	12v 50w Low Voltage Spotlight
3LVSPT	Lighting Track with 3 x 50w Low Voltage Spotlights

Fluorescent light

Fluorescent bulbs and CFLs save energy. They are 75% more efficient than a regular incandescent bulb and they last longer. Saving energy saves money and conserves resources

5FT	1 5ft fluorescent light fitting
6FT	1 6ft fluorescent light fitting

Flood lights

Does what it says on the tin - floods your space with light. Great for highlighting special features and lighting large areas.

HQ	150w HQI Metal Halide Flood Light
LEDF	30w LED Flood Light
LAF	15w LED Long Arm Flood Light
