

This week we will be at Naidex 2024!

We are looking forward to attending Naidex 2024 on 20th and 21st March 2024 at NEC, where we will be on stand C128.

Come and see us to learn about dwarfism and Little People UK.

There will also be a wide range of companies and organisations there with a whole host of equipment and services, informative guest speakers and the opportunity to network with others.
