

Power to your people...

Discover how fissara® software helps transport and waste companies make significant cost, time & administrative savings

fissara® MOVE is a cloud-based workforce management platform that helps bulk haulage and waste transport companies manage their staff and jobs in one place.

With all your job management and communication tools in fissara MOVE, your business will benefit from improved service and compliance, and significantly reduced operational costs.

TJ Transport, a leading bulk haulage specialist, has seen considerable improvements in operational capacity and profitability since they started using fissara® MOVE in 2020. The company operates more than 100 vehicles across the UK.

Improve profitability and performance

Since its implementation into TJ Transport, fissara® MOVE has helped the company:

Provide drivers with a complete overview of each job from the fissara MOVE mobile app, simplifying the way drivers handle transfer/conveyance notes. Speed, accuracy, and adherence to duty of care regulations have all improved as a result.

Maintain social distancing measures in the office; staff can access fissara MOVE from any location (via a PC or tablet) to deal with invoicing, job notes, job amendments and filing transfer/conveyance notes.

Migrate unsecure paper calendars, workbooks, spreadsheets and ad hoc files into fissara MOVE. Critical operational information is now accessible by key members of staff to view securely and in real-time from the fissara MOVE cloud platform.

Overcome the challenges of COVID-19 by using the fissara MOVE to record proof of delivery using photographs and GPS coordinates, thus reducing the need for person-to-person contact. This has resulted in faster invoicing and improved cash flow.

Significantly reduce admin time (up to 35 hours per week) compiling vehicle costings and P&L reports using fissara MOVE's reporting system. The ability to 'pull' data almost instantly means that TJ Transport can respond to operational issues more quickly.

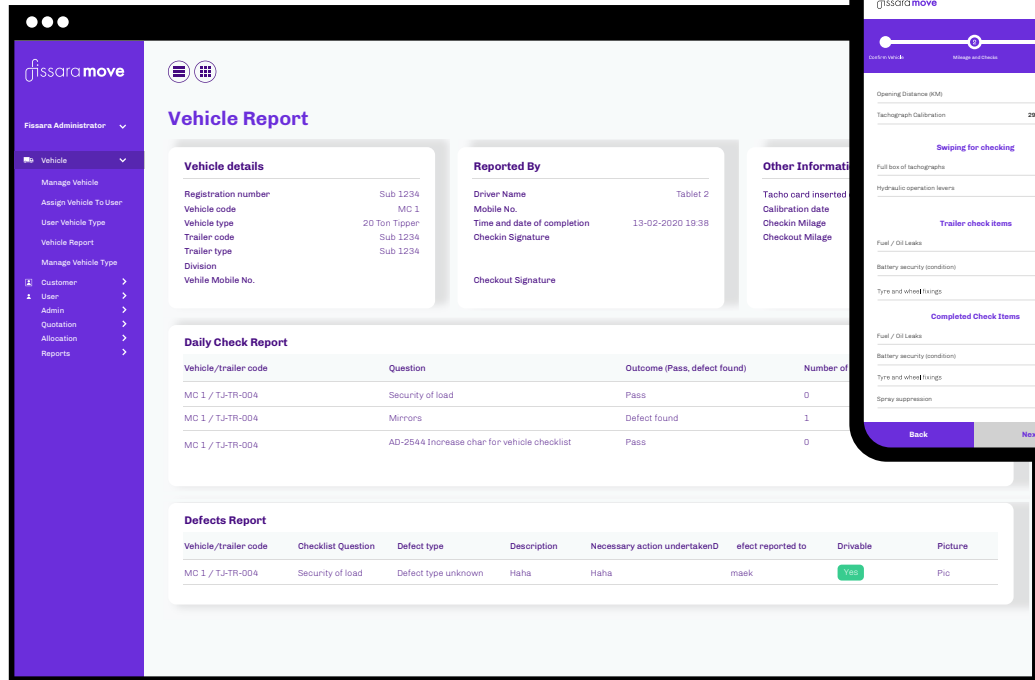

Consolidate invoicing into one digital platform to improve invoice accuracy, timeliness, customer satisfaction and finance administration time.

Call 0161 546 0336 to book a virtual demo and discover how fissara MOVE can help your business cut costs, reduce wastage and improve staff efficiency.

Manage all your operations in one place

Relying on ad hoc files, paper forms and spreadsheets is a thing of the past with fissara MOVE.

Save time, money and effort by controlling your most critical business tasks in real-time via the dedicated mobile app and desktop interface.

In the bulk haulage business, we've been waiting for a powerful management tool like fissara MOVE for a long time. It is the jewel in the crown of our operations, allowing us to be more efficient by providing our office staff and drivers with a one-stop-shop for all their planning, invoicing, and job management needs.

fissara MOVE has also improved communication between our customers, office, and drivers. Staff are much happier; the system has strengthened each department in the business, made office teams and drivers much more efficient and reduced the amount of duplication between teams. This has increased operational profitability across the business.

John Gosling, Managing Director at TJ Transport
