**DISCOVER THE RESOURCE REVOLUTION**

# RWM VIRTUAL

Without the chance for the industry to come together in 2020, RWM Virtual has been created to provide an environment where professionals can connect, learn and grow.

## AN UNMISSABLE EVENT

With thousands of digital webinar series being launched throughout 2020, we have taken our time in building something a little different.

RWM Virtual will be live across 3 days (23-25 February 2021), with each day being built specifically for a particular part of the recycling, resource and waste management audience. The first day will be dedicated to Local Authorities, the second to Waste Management Companies and the third designed for Waste Producers.

Of course, there will be topics that may cross interests, but your registration gives you access to everything across the 3 days, both live and on-demand.

...we are confident that we can provide the programme and networking opportunities to complement our physical event, allowing us to offer real value for those involved.

**Bradley Maule-ffinch**

## WHAT CAN RWM VIRTUAL OFFER?

- A flexible and accessible platform allowing you to watch, learn and connect.
- A unique learning opportunity with our programme of over 50 seminars that is comprised of high-quality conference content.
- A range of practical demonstrations allowing you to see machinery and products in action as well as ask questions of the experts.
- The chance to meet and connect with exhibitors and other visitors via a chat to discuss individual requirements or set up a meeting.
- Over 50 exhibitors will be offering the latest solutions needed to tackle effective recycling, reprocessing and waste management.
- Plus... our event is completely FREE to attend.

# KEYNOTES

DAY 1

**TREVOR NICOLL**

President

CIWM

Transitioning from Covid emergency to climate emergency

DAY 1

**DAVID WARREN**

Head of Circular Economy Policy Development

Welsh Government

Making the Circular Economy in Wales a reality

DAY 1

**GWEN FROST**

Head of Innovation and Sustainability

Bristol Waste

How our campaigns have managed to change behaviour in Bristol

DAY 2

**THERESA VILLIERS**

Member of Parliament for Chipping Barnet

Resources and waste management and the UK's journey to net zero

DAY 2

**SIMONE APLIN**

Technical Director

Anthesis

Digital transformation and waste tracking in the waste and resources sector

DAY 2

**DR. ADAM READ**

External Affairs Director

Suez Recycling & Recovery UK (and SVP, CIWM)

Resource Management: Where will the sector be in 2030?

DAY 2

**PAT JENNINGS**

Head of Policy, Knowledge & External Affairs

CIWM

DAY 2

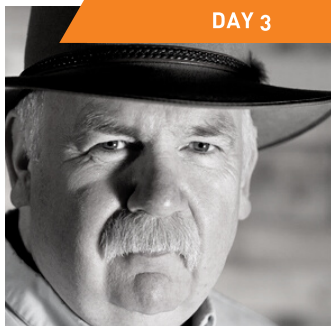

**JACQUELINE O'DONOVAN**

Managing Director

O'Donovan Waste Disposal Ltd

Challenges facing the resource and waste industry in 2021 and beyond

DAY 3

**KEN WEBSTER**

Director

IS4CE (International Society for Circular Economy)

Closing loops or cascading materials as nutrients?

DAY 3

**CHARLES MINORS**

Head of Strategy and Business Development

Formula 1

Formula 1's race to net-zero carbon by 2030

DAY 3

**KEVIN VYSE**

Head of Technology

ProAmpac/RAP

EPR – things you wanted to know but were always frightened to ask

DAY 3

**NICK CLIFFE**

Deputy Challenge Director

Innovate UK & KTN

The Smart Sustainable Plastic Packaging Challenge & UK Circular Plastics Network

# PROGRAMME

## DAY 1

### KEYNOTE THEATRE

10.00 - 10.30 Trevor Nicoll, President, CIWM - Transitioning from Covid emergency to climate emergency  
11.10 - 11.40 David Warren, Head of Circular Economy Policy Development, Welsh Government - Making the Circular Economy in Wales a reality  
14.35 - 15.05 Gwen Frost, Head of Innovation & Sustainability, Bristol Waste Company - How our campaigns have managed to change behaviour in Bristol

### COLLECTIONS & TRANSPORT THEATRE

10.35 - 11.05 Peter Nilsson, Marketing Manager, Smart Recycling - Efficiency and competitiveness in recycling fulfils the potential of the circular economy  
11.45 - 12.15 Cyrille Jegu, Managing Director, KINERGEIA Limited - Accelerating the Transition to a Circular and Participative Economy with Household Behaviour Data  
14.00 - 14.30 - Ges Jones, Technology Director, Rugged Mobile Systems Ltd - How selecting the right Mobile Computing Equipment can elevate your Waste Collection, Street Cleansing and Winter Gritting

### CIRCULAR ECONOMY THEATRE

11.10 - 11.40 Xiaoyan (Amy) Ma, CEO, Danu Robotics & Nathan Western, CTO, Danu Robotics - How advanced robotic technologies can help us achieve a circular economy worldwide  
11.45 - 12.15 Loughnan Hooper, CEO, Dotser - Driving WEEE Operational Efficiencies with Cloud Resource Management Platforms  
12.20 - 12.50 Charlotte Glassneck, Manager Plastics Applications, TOMRA Sorting - Circular Economy, a Closed-Loop Recycling for Plastics is possible

### ENERGY FROM WASTE THEATRE

10.35 - 11.05 Thomas Drave, Sales Director, Bezner Anlagen- und Maschinenbau GmbH - Waste to Energy: from design to commissioning  
11.10 - 11.40 Ken Roberts, Managing Director, Gasmot Technologies UK Ltd - Waste Incineration BREF, Proving low & stable, a Mercury CEMS data case study  
11.45 - 12.15 Juergen Schaper, General Manager, FCC Environment & John Coates, Head of Waste, Lincolnshire County Council - Maintaining EFW service levels during the pandemic and future policy impacts for EFWs 2021 and beyond  
12.20 - 12.50 Barthélemy Fourment, International Sales Director, Dalkia Wastenergy - Are small scale RDF boilers sustainable?  
13.00 - 13.30 Pedro Ribas Araújo, CEO, Advanced Cyclone Systems - Optimized cyclones particle separation at high temperatures

## DAY 2

### KEYNOTE THEATRE

10.00 - 10.30 Theresa Villiers, Member of Parliament for Chipping Barnet - Resources and waste management & the UK's journey to net zero  
11.10 - 11.40 Simone Aplin, Technical Director, Anthesis - The Digital Transformation and Waste Tracking in the Waste and Resources Sector  
12.20 - 12.50 Dr Adam Read, External Affairs Director, SUEZ Recycling & Recovery UK & Pat Jennings, Head of Policy, Knowledge & External Affairs, CIWM - Waste & Resource Management | Where will the sector be in 2030?  
14.35 - 15.05 Jacqueline O'Donovan, Managing Director, O'Donovan Waste Disposal Ltd - Challenges facing the resource and waste industry in 2021 and beyond

### RECYCLING & REPROCESSORS THEATRE

10.35 - 11.05 Anne Bräutigam, Senior Manager Investor Consulting, Germany Trade & Invest - Trends and Opportunities in Germany's Waste Management and Recycling Market  
11.10 - 11.40 George Koukas, Commercial Director, SABO S.A - Remote Data Acquisition systems and how you can boost the performance of your factory through them  
11.45 - 12.15 Brian Gist, UK/Nordics Managing Director, TOMRA Sorting - A Symphony of All Sorts  
12.20 - 12.50 Dr Will Barker, CEO & Founder, Mint Innovation - The Way Forward for Precious Metal recovery - BioMining  
13.00 - 13.30 Michael Groves, CEO, Topolytics - Making the world's waste visible, verifiable and valuable  
14.00 - 14.30 Julia Turner, Executive Director, The Wood Recyclers' Association (WRA) - The UK Waste Wood Sector - 2021 and Beyond

### ENERGY FROM WASTE THEATRE

10.35 - 11.05 Alessandro Bertacchini, Business Development Manager, Turboden Spa & Simon Webb, MD, Tidy Planet Limited - A spotlight on decentralised Waste-to-Energy  
11.10 - 11.40 Esben Mikkel Vestergaard, Regional Sales Manager, C.F. Nielsen AS - The Future of Domestic Fuel - An Overview of the Market Possibilities for Briquettes In Europe  
11.45 - 12.15 Henrik Hofgren, Technology Specialist, Babcock & Wilcox Vølund A/S - Lessons learnt from International Innovation - Upgrade of SNCR system and boiler load on a Swedish WTE plant  
12.20 - 12.50 Dr Matthew Goodwin, Sales Director, Waste Knot Energy - Transforming Waste into Fuel Pellets  
13.00 - 13.30 Ken Roberts, Managing Director, Gasmot Technologies UK Ltd - Waste Incineration BREF, proving low & stable, a Mercury CEMS data case study  
14.00 - 14.30 Ian Blacker, Business Development Director; Andy Wilson, Senior Project Manager & Wayne Davies, Senior Project Manager, Fortum eNext - Operation and Maintenance Mobilisation - creating the foundation for success  
14.35 - 15.05 Ivan Pinson, Commercial Director, Innerspec Technologies UK - EMAT Inspection of Heat Exchanging Components

## DAY 3

### KEYNOTE THEATRE

10.00 - 10.30 Ken Webster, Director, IS4CE (International Society for Circular Economy) - Closing Loops or Cascading Materials as Nutrients?  
11.10 - 11.40 Charles Minors, Head of Strategy and Business Development, Formula1 - Formula 1's race to net-zero carbon by 2030  
12.20 - 12.50 Kevin Vyse, Head of Technology, ProAmpac/RAP - EPR - things you wanted to know but were always frightened to ask  
14.00 - 14.30 Nick Cliffe, Deputy Challenge Director, Innovate UK and KTN - The Smart Sustainable Plastic Packaging Challenge and UK Circular Plastics Network

### PACKAGING THEATRE

10.35 - 11.05 Lee Wearing, Strategic Account Manager, Valpak - What is the proposed UK Plastic Tax and how is it likely to affect your business?  
13.00 - 13.30 Robbie Staniforth, Head of Policy and Innovation, Ecosurety & Jon Brookes, Head of Partnerships, Ecosurety - The possible impacts of EPR

### CIRCULAR ECONOMY THEATRE

11.45 - 12.15 Mark Brill, Vice President Sales and Marketing, TOMRA Collection UK & Ireland - What makes a modern and well-designed deposit return scheme?  
13.00 - 13.30 Cyndi Rhoades, Founder, Worn Again Technologies - Regenerative recycling technology to enable a circular future

# THEATRES

## KEYNOTE

The Keynote Theatre is where the leading experts from the resource and recycling sector will present. It will offer visitors a chance to learn from industry leaders, listen to practical case studies from other industries and look ahead to see what the future might hold.

## COLLECTIONS & TRANSPORT

The Collections and Transport Theatre is where you can learn about the latest collection vehicles, street sweepers and other waste handling systems. Topics will include reducing emissions, electric vehicles, safety systems and collection harmonisation.

Sponsored by  **Smart**  
RECYCLING

## PACKAGING

The Packaging Theatre shifts the focus to the beginning of a product's life cycle. Visitors can learn about new packaging techniques and materials, plus how and where products fit into the circular economy. Topics will include, EPR, compliance, new packaging materials and technologies, and case studies on dealing with different types of packaging.

Sponsored by  **Valpak**

## CIRCULAR ECONOMY

The Circular Economy is gathering momentum as organisations recognise the urgent need to close the loop on our use of resources. The Circular Economy Theatre covers the technologies, initiatives, processes and legislation that are needed to progress the journey to a circular economy.

## ENERGY FROM WASTE

The Energy from Waste Theatre explores the key strategies that organisations can adopt to generate energy from waste cost-effectively. Topics include the future of advanced thermal treatment, the carbon intensity of future energy from waste and residue management.

Sponsored by  **dalkia wastenergy**  
GROUP EDF  **TIDY PLANET**  **TURBODEN**  
clean energy ahead

## RECYCLERS & REPROCESSORS

The Recyclers and Reprocessors Theatre is where visitors can hear from experts on recycling plant and equipment. Topics will include innovations in recycling processes, the latest in sorting technology and how to ensure businesses keep up with regulations.

Sponsored by  **GTAI**

# IN GREAT COMPANY

RWM Virtual welcomes exhibitors from a range of leading organisations, brands and specialists within the industry.

## LEADING ORGANISATIONS EXHIBITING

## SPONSORS

## PARTNERS

“...I am really looking forward to talking at RWM Virtual about Wales' journey to a circular economy. It will be a great digital platform for Local Authorities across the UK to connect and discuss future plans and what they can learn for their own local authorities.

**David Warren, Head of Circular Economy Policy Development, Welsh Government**

# NETWORKING

We know how important RWM is for facilitating business opportunities and our virtual event will be no different. RWM Virtual offers a unique opportunity to create great lasting connections that can make a difference to your organisation. Whether you are interacting through group conversations, one-to-one chats or via an exhibitor booth, the platform will provide a variety of ways to extend your network and make valuable contacts.

## HOW YOU CAN ENGAGE

Our platform has been developed to make sure one-to-one and group conversations are both natural and engaging, as well as being private and secure.

### Exhibitors

To speak with an exhibitor of interest you can approach their booth as you would at an in-person event and engage in a conversation via the chat facility; requesting more info or to join them live.

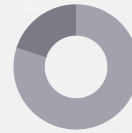

### Visitors

In the lobby there is a public chat area where you will be able to speak with other visitors. If there is a conversation that you want to have on a more personal basis then you can arrange that between you.

The Networking Area also allows you to make contact with other attendees.

### Speakers

Following a seminar session you will be able to ask speakers questions through the chat function. Some speakers will also be available at their booth if they are from an exhibiting company.

80% of professionals believe that career success can be elevated through networking.  
(Source: LinkedIn Newsroom)

40% of people say they network more online than in person.  
(Source: Forbes)

84% of people prefer remote meetings over in-person meetings.  
(Source: hubspot)

80% of people join virtual events for educational purposes. The next biggest reason is networking.  
(Source: Markletic)

In a survey of 12,000+ business people, professionals who spent 6.3 hours a week networking agree that it played a crucial role in their success.
