23-25 FEBRUARY 2021

EVENTPREVIEW

DISCOVER THE RESOURCE REVOLUTION

RWM VIRTUAL

Without the chance for the industry to come together in 2020, RWM Virtual has been created to provide an environment where professionals can connect, learn and grow.

AN UNMISSABLE EVENT

With thousands of digital webinar series being launched throughout 2020, we have taken our time in building something a little different.

RWM Virtual will be live across 3 days (23-25 February 2021), with each day being built specifically for a particular part of the recycling, resource and waste management audience. The first day will be dedicated to Local Authorities, the second to Waste Management Companies and the third designed for Waste Producers.

Of course, there will be topics that may cross interests, but your registration gives you access to everything across the 3 days, both live and on-demand.

“

...we are confident that we can provide the programme and networking opportunities to complement our physical event, allowing us to offer real value for those involved.

Bradley Maule-ffinch
Group Managing Director, ROAR B2B

WHAT CAN RWM VIRTUAL OFFER?

- A flexible and accessible platform allowing you to watch, learn and connect.
- A unique learning opportunity with our programme of over 50 seminars that is comprised of high-quality conference content.
- A range of practical demonstrations allowing you to see machinery and products in action as well as ask questions of the experts.
- The chance to meet and connect with exhibitors and other visitors via a chat to discuss individual requirements or set up a meeting.
- Over 50 exhibitors will be offering the latest solutions needed to tackle effective recycling, reprocessing and waste management.
- Plus... our event is completely FREE to attend.

THEATRES

KEYNOTE

The Keynote Theatre is where the leading experts from the resource and recycling sector will present. It will offer visitors a chance to learn from industry leaders, listen to practical case studies from other industries and look ahead to see what the future might hold.

COLLECTIONS & TRANSPORT

The Collections and Transport Theatre is where you can learn about the latest collection vehicles, street sweepers and other waste handling systems. Topics will include reducing emissions, electric vehicles, safety systems and collection harmonisation.

Sponsored by  smart recycling

PACKAGING

The Packaging Theatre shifts the focus to the beginning of a product's life cycle. Visitors can learn about new packaging techniques and materials, plus how and where products fit into the circular economy. Topics will include, EPR, compliance, new packaging materials and technologies, and case studies on dealing with different types of packaging.

Sponsored by  Valpak

CIRCULAR ECONOMY

The Circular Economy is gathering momentum as organisations recognise the urgent need to close the loop on our use of resources. The Circular Economy Theatre covers the technologies, initiatives, processes and legislation that are needed to progress the journey to a circular economy.

ENERGY FROM WASTE

The Energy from Waste Theatre explores the key strategies that organisations can adopt to generate energy from waste cost-effectively. Topics include the future of advanced thermal treatment, the carbon intensity of future energy from waste and residue management.

Sponsored by  dalkia wastenergy  TIDY PLANET  TURBODEN

RECYCLERS & REPROCESSORS

The Recyclers and Reprocessors Theatre is where visitors can hear from experts on recycling plant and equipment. Topics will include innovations in recycling processes, the latest in sorting technology and how to ensure businesses keep up with regulations.

Sponsored by  GTAI

IN GREAT COMPANY

RWM Virtual welcomes exhibitors from a range of leading organisations, brands and specialists within the industry.

LEADING ORGANISATIONS ALREADY EXHIBITING

SPONSORS

PARTNERS

“...I am really looking forward to talking at RWM Virtual about Wales' journey to a circular economy. It will be a great digital platform for Local Authorities across the UK to connect and discuss future plans and what they can learn for their own local authorities.

David Warren, Head of Circular Economy Policy Development, Welsh Government

NETWORKING

We know how important RWM is for facilitating business opportunities and our virtual event will be no different. RWM Virtual offers a unique opportunity to create great lasting connections that can make a difference to your organisation. Whether you are interacting through group conversations, one-to-one chats or via an exhibitor booth, the platform will provide a variety of ways to extend your network and make valuable contacts.

HOW YOU CAN ENGAGE

Our platform has been developed to make sure one-to-one and group conversations are both natural and engaging, as well as being private and secure.

Exhibitors

To speak with an exhibitor of interest you can approach their booth as you would at an in-person event and engage in a conversation via the chat facility; requesting more info or to join them live.

Visitors

In the lobby there is a public chat area where you will be able to speak with other visitors. If there is a conversation that you want to have on a more personal basis then you can arrange that between you.

The Networking Area also allows you to make contact with other attendees.

Speakers

Following a seminar session you will be able to ask speakers questions through the chat function. Some speakers will also be available at their booth if they are from an exhibiting company.

80% of professionals believe that career success can be elevated through networking.
(Source: LinkedIn Newsroom)

40% of people say they network more online than in person.
(Source: Forbes)

84% of people prefer remote meetings over in-person meetings.
(Source: hubspot)

80% of people join virtual events for educational purposes. The next biggest reason is networking.
(Source: Markletic)

In a survey of 12,000+ business people, professionals who spent 6.3 hours a week networking agree that it played a crucial role in their success.
