

Water Pollution Prevention Award 2023

Company Name: _____

Contact: _____

E- Mail: _____

Telephone: _____

The Water Pollution Prevention Award will be based on a case study demonstrating how your business managed the risk of water pollution.

Please feel free to submit all or any relevant supporting information as you feel appropriate, covering the key criteria below.

Explanation of the business working environment in relation to preventing incidents which could potentially lead to the pollution of the water environment, surface water and / or groundwater.

Details of the potential pollution risks and hazards identified.

Details of the potential consequences identified of not preventing / controlling the pollution risks.

Details of the improvement changes that were made to the business operation and how these were then implemented.

Details of the staff training undertaken, including Health and Safety.

Outline the potential for replication.

Entries should be submitted to -

Ian Crellin Marketing Manager BSIF ian.crellin@bsif.co.uk
