

Fluid and Power solutions for your construction projects

If sludge, slurry, rain, or wastewater is slowing down your work or if transferring, containing, or treating liquids is a key requirement - United Rentals have it covered.

As the largest provider of fluid solutions in Europe, United Rentals can help if you need a single submersible pump or a complete custom-engineered dewatering system.

Additionally, United Rentals has a comprehensive fleet of mobile generators and support equipment to power your construction site, whether you are in the middle of an emergency or when you need help preparing for a project.

Dewatering Sludge

Temporary Power

Groundwater Filtration

Groundwater Dewatering

Sewer Bypass

Fluid Solutions

Whether you need to pump groundwater on a construction site, contain liquids quickly, or treat contaminated sludge, United Rentals goes beyond equipment rental, offering integrated fluid solutions for demanding job sites.

PUMPS

- Range: Centrifugal, positive displacement and submersible
- Available for both low and high flow rates (910 m³/h) and up to 13 bar pressure.

TANKS

- Containment of broad range of liquids
- Multiple types and sizes, 30 m³ to 70 m³
- Divers application such as economical storage, heating, mixing, separation and sensitive environmental storage

FILTRATION

Multiple products for filtration of:

- Liquefied visible pollution
- Liquefied dissolved pollution
- Solid waste
- Vaporised pollution

Visit our website for our full product range, including a wide range of support equipment

Power Solutions

Find the right temporary power solutions. Be prepared for everything — even the unplanned — with United Rentals' comprehensive fleet of power equipment.

DIESEL GENERATORS

- Outstanding reliability, high performance and increased efficiency
- Power range: 18 kVA, 40 kVA, 60 kVA, 100 kVA, 125 kVA, 200 kVA, 300 kVA and 500 kVA
- Remote monitoring through LiveLink Telemetry

BATTERY PACK 45 kVA 60 kWh

- Emission free
- Efficient software operation
- Silent energy storage
- Fuel consumption savings

FUEL TANKS

- Range: 1000 l & 3000 l
- Double-walled
- Transportable full of fuel

DISTRIBUTION BOARDS

- Range: 63 A, 125 A, 400 A
- Robust & durable design
- Compact & stackable

POWER & EXTENSION CABLES

- Range: 16 A - 125 A
- 10 m & 25 m length
- Flexible & high quality cable

About United Rentals

United Rentals is the largest equipment rental company in the world. The company has an integrated network of 1,487 rental locations in North America, 14 in Europe, 23 in Australia and 19 in New Zealand.

United Rentals Europe, formerly known as BakerCorp, is the industry leader in Fluid Solutions and is now expanding its range of Power Solutions. We provide cost effective rental products for the transfer, containment and treatment of liquids and power generation. United Rentals products are designed with safety and quality as top priorities, have “plug and play” features and offer great versatility for a wide range of applications. This translates into unique benefits throughout the tank, pump, filtration and generator product lines.
