HIGHLIGHTS OF WEBINAR 2

The collective strength of all police forces in the UAE is a testament to what we can achieve when a clear strategic direction comes together with hard work and is supported by the very latest innovations.

H.E. Major General Dr Ahmed Nasser Al Raisi
Inspector General at the UAE Ministry of Interior and Chairman of ISNR Abu Dhabi Higher Organizing Committee

Abu Dhabi Police is keen to foresight the future to enhance early detection of opportunities and challenges in various security sectors, analyze and set long-term proactive plans at all levels to advance the comprehensive security system and realize qualitative achievements in Abu Dhabi.

Colonel Khalfan Abdallah Almansoori
Deputy Director of Abu Dhabi Police Strategy & Institutional Development Center

Despite the decline of traditional crime during the pandemic there has been an increase in cyber crime such as online financial fraud; promoting sub-standard financial or medical products and more.

Colonel Mubarak Saeed Al Khyeli
Director of GCCPOL

SPEAKERS TESTIMONIALS

ISNR Webinar Series is the chance to keep in touch with our potential clients during this difficult situation and to present key technology developed specifically for COVID-19 management such as Polaris Wireless solution.
The Webinar organized by the ISNR team allowed us to have a wider exposure and many requests of meetings followed. Therefore we would like to thank the ISNR team for the organization of this successful Webinar.

Ali Al Mannaei
CEO of Al Hamra Trading Establishment

Motorola Solutions were honoured and delighted to participate in this ISNR Webinar with such high level speakers and audience. We were extremely pleased to share with them our technology experience in supporting the frontline police officers to respond to the current COVID-19 threat.

Ivan Ruiz
Senior Director of Business Development EMEA at Motorola Solutions, Inc

ISNR WEBINAR SERIES: MANAGING AMID COVID 19 CRISIS

Remaining true to our commitment for the last 15 years, ISNR Abu Dhabi brings together global technology, security, and safety leaders to share their latest innovations, solutions, and best practices against threats to national resilience.

Due to the exponential global socio-economic disruption resulting from COVID 19 crisis, ISNR Abu Dhabi finds it an obligation to reinforce people-private-public-partnership through a series of webinars concentrating on valuable insights and interactive editorial-led format sharing information and maintaining content integrity

UPCOMING WEBINAR

Episode 3: Adopting cloud solutions in public sectors: the dilemma of security, data sovereignty and scalability

15 JULY 2020 **2:00PM (GST)**

In the shadow of the novel COVID-19 situation, public sector agencies are turning to the cloud more than ever, particularly as people increasingly need access to information and government services. With the broad impact of the pandemic, it is more important than ever to implement a secure remote working strategy that helps employees get work done from home while protecting the stakeholders' sensitive data.

Many of these agencies are now expanding their use, even storing potentially sensitive data in the cloud infrastructure. The public sectors need to be mindful of their solutions' security, data sovereignty and privacy, and the potential legal implications of the loss of such sovereignty or privacy.

Confirmed Participating Organizations: (More to be announced)

- Huawei Technologies
- Injazat Data Systems
- Microsoft
- Department of International Trade UK
- Axon Technologies
