

# SPAWER

Heat pump for spa

## ICESPA

The power of Full Inverter  
down to -25°C

- Ultra silent
- Reversible hot/cold
- Control through a wifi connection
- Compatible with all spas
- Compatible 50 and 60Hz
- Integrated remote touch screen
- Integrated auxiliary heater pilot - relay optional
- Integrated auxiliary heat pump pilot - relay optional

5 kW

|                           |            |
|---------------------------|------------|
| Climate                   | Extreme    |
| COP air 26°C / water 26°C | 5.33~13.89 |
| Noise at 10 m (db(A))     | < 30       |

**HEAT PUMP WARRANTY 3 YEARS**

**COMPRESSOR WARRANTY 7 YEARS**

**TITANIUM COIL WARRANTY AGAINST CORROSION 15 YEARS**

## TECHNICAL DATA

E.U. Standard  
TUV-certified

The IceSpa is a heat pump for spas especially conceived for the most extreme climate.

Operating down to -25°C, you can heat up your spa right in the middle of snow peaks and enjoy the view in complete peace.

Its Full Inverter technology **will reduce your energy consumption up to 80%** at an equivalent power consumption compared to an electric heater! Easy to install, the IceSpa is compatible with all hot tubs and connects itself as easily.

Ideal for spas up to 1.5 m³ and nordic baths, this heat pump will meet your expectations.

With its small frame and side ventilation, it perfectly integrates inside the SpaWer steps. These steps allow you to easily enter your spa while hiding the heat pump to combine practicality to aesthetics.

### LARGE REMOTE TOUCH SCREEN

### CONTROL THROUGH A WIFI CONNECTION

### Plug & Play hydraulic connecting kit (optional)
