

# WHY SPATEX 2022 IS THE MUST-ATTEND SHOW FOR YOU

With interest in the construction of water leisure projects in the UK at an all-time high, following two years of restrictions on foreign travel, there has never been a better time to attend SPATEX 2022. As the UK's ONLY dedicated international water leisure exhibition, it is bursting with inspiration and information, and showcases the very latest products, trends and innovations. SPATEX 2022 offers the potential to meet over a

thousand people from the water leisure industry in one day.

### International showcase

Held at the Coventry Building Society Arena from Tuesday 1 to Thursday 3 February, SPATEX 2022 is free to attend, and provides all building and construction industry supply chain professionals with ALL you need to know about water

features, spas, hot tubs, saunas, steam rooms, swimming pools, enclosures, tiling as well as the more functional elements like chemicals and heating and ventilation. It's literally the best of water leisure under one roof.

Wellness and making people feel good is what it is all about when it comes to water leisure. A large part of that success begins at the planning and design stage.

One hundred plus companies, including all the world's major suppliers and manufacturers, cover every conceivable aspect of water leisure, for both the commercial and domestic sectors. Saving energy is high on the exhibition's agenda and you can expect to see lots of new products supporting a low energy, low carbon footprint. Many of the stands will feature two years' worth of launches as well as those making their 2022 debut.

### Free seminar programme

Not just an exhibition, SPATEX hosts a double programme of free seminars on all three days. The technical workshops hosted by ISPE (Institute of Swimming Pool Engineers) in Arena 1 offer vital information such as new standards and guidance that affect all disciplines involved in the development of water leisure projects and CPD points and a certificate of attendance are available for all attendees. For example: Wednesday Feb 2 Arena 1 Protect yourself – Protect your Business – an overview of the types of insurance pool builders and engineers should consider including liability and professional risks, personal accident and tools.

Over in Arena 2 and promising to be of particular interest to architects is the talk by Devin Consulting (experts in the design and engineering of water features) on Wednesday February 2 discussing their role in the construction of the world-famous London Sky Pool, completed in June.

“ Saving energy is high on the exhibition's agenda and you can expect to see lots of new products supporting a low energy, low carbon footprint. Many of the stands will feature two years' worth of launches as well as those making their 2022 debut. ”

Spanning 17m across the rooftops of two high rise apartment buildings 35m in the air, this amazing all-acrylic, clear see through structure is part of the Embassy Gardens development in Nine Elms, London for Ballymore EcoWorld, opposite the new American Embassy building.

### Free expertise for your projects

Tap into a unique pool of free expertise for your projects - SPATEX 2022 is fortunate to count the industry's many esteemed associations amongst its supporting partners. There's no better place to seek advice from an expert, and all for free! Representatives from SPATA (Swimming Pool & Allied Trades Association) and BISHTA (British and Irish Spa and Hot Tub Association) will be in attendance. Please come to the SPATEX Help Desk at the entrance to the exhibition hall, if you need to be pointed in the right direction.

Registration is free at [www.spatex.co.uk](http://www.spatex.co.uk) and view SPATEX's impressive list of exhibitors and details of the free double seminar and workshop programme.
