# Welcome to The Complete Solution

Complete Pool Controls Ltd is a leading independent company supplying recreational water treatment chemicals and dosing equipment. Our extensive range of chemicals for swimming pools and hot tubs is available through a UK-wide dealer network.

We offer our partners a complete solution which includes training, technical support, water testing, equipment, integrated monitoring systems as well as water treatment chemicals which meet latest standards. These elements combined ensure you and your customers receive the best products, service and support possible.

## Complete Pool Controls - Company Profile

Established in March 2007 Complete Pool Controls Ltd specialise in recreational water treatment chemicals and related dosing equipment. The company brings an attractive and innovative range of products to its nationwide clients, backed by sound experience and technical support. We are proud of our flexibility and total dedication to our customers. Our customers include swimming pool and hot tub users purchasing via professional shops and leading commercial outlets.

A comprehensive range of chemicals, testing apparatus and reagents are stocked alongside dosing equipment and spares, enabling swift nationwide service based from our facilities in Cheltenham, Gloucestershire.

### **ISO9001/14001 Quality/Environmental Management**

- Complete Pool Controls Ltd gained ISO9001 accreditation in January 2013 following an external audit from the BSI group. The standard verified our processes and constantly looks for improvement in all areas of the business.

**Capacity and Storage** - At our headquarters in Gloucestershire we operate from premises with over 30,000 square foot of storage capacity. Adequate stocks of raw and finished product are kept on site at all times ensuring delivery time scales are maintained.

**Staff** - 40 staff are based at our Cheltenham facility. We have 4 field staff that are able to service our long list of customers.

**Product Training** - Best practice and product use information is freely available for dealers and commercial operators. Training includes BISHTA certification, general product use training certification and links with leading commercial trainers including P.P.O courses.

**Consumer and Dealer Website** - Bringing the latest product, user information and the ability for dealers to order online (via log-in).

**Export** - Multi-language labelling for key export customers in Scandinavia/Eire and Benelux territories.

**Contract Packing** - For leading water treatment suppliers requiring bespoke and own labelled products.

**Key Chemical Brands** - Blue Horizons for pools, AquaSParkle for hot tubs and Blue Horizons Commercial for commercial pool operators offer both regular and special treatments for swimming pools and hot tubs.

**Other Chemical Brands** - Aquablanc (non-chlorine systems), Aquasachet, Aromascent, Aqua Gentle, Gold Horizons Spa, Kleen Pool and Revival.

**International Partners** - Chemoform, Clear Blue Water Tech LLC, Palintest, Lovibond, WDT, Dinotec, Descon and Brandpak.

# The Complete Solution

## Chemicals

Market leading range of pool and hot tub chemicals  
Complete range of high quality treatment products  
All-encompassing range of commercial pool/spa chemicals

## Innovation

New initiative in hot tub sanitisation  
User friendly 'all-in-one' water care kits  
Expanding our alternatives to normal sanitisers  
Extending our problem solvers

## Marketing

Marketing support for Blue Horizons/AquaSParkle/Gold Horizons

- Branded material
- Website dealer support & positioning
- BPR compliance

## Training

Certified BISHTA training

- Hot tub & swim spa water hygiene management

Internal chemical awareness training  
Commercial equipment support

- Dosing installation
- On site equipment set up and operation

## Water testing

Lovibond and Palintest approved dealer  
Pool and hot tub water management support  
Water balance, calcium hardness, cyanuric acid and phosphate level  
Bacteriological testing (total coliforms, pseudomonas aeruginosa)  
Legionella testing

## Compliance

ISO 9001 - quality management system  
ISO14001 - environmental management system

BPR - CPC are also working closely with our international partners to make sure our products are compliant with the Biocidal Products Regulation - (BPR, Regulation (EU) 528/2012)

## Dosing equipment

Full dosing and control systems, for commercial and domestic/residential pool & spas  
Extensive stock of spares

## Technical Support

Blue Horizons/AquaSParkle/Gold Horizons  
Chemical help  
General product pool/hot tub advice  
24 hour emergency helpline

## Safety

Full range of personal protective equipment  
Bespoke kit bags available on request

# Your Successful Showroom with Complete Pool Controls

Complete Pool Controls Ltd has an evolving marketing investment programme designed to make Blue Horizons, AquaSPARKle and Gold Horizons the best supported brands in the UK. In particular to optimise consumer awareness, provide support to dealers and maximise retail excellence impact with brand oriented retail improvement tools that make showrooms look exciting and professional.

## SWIMMING POOL CHEMICALS

Blue Horizons is the UK's most comprehensive range of high-quality water treatment products and has continued to go from strength to strength since its launch in 2007. We continue to develop the range, adding innovative and exciting new products wherever possible, making this the go-to range of swimming pool chemicals.

The Blue Horizons range incorporates the popular BOAST system and is enhanced with a range of market leading speciality products. Rest assured that by following our simple water care system, your customers will really have pool water to BOAST about throughout the swimming season.

- B** Balance your pool water for bather comfort & maximum chemical efficiency
- O** Oxidise to establish a sanitiser level then weekly to destroy bather wastes
- A** Algae prevention. Stop algae establishing themselves in your pool water
- S** Sanitise. Maintain a constant sanitiser level to prevent & kill bacteria
- T** Testing. Test your pool water to ensure the correct levels

# POOL FIRST AID

# Problem solvers

## The importance of phosphate removal and control

Recovering an algae infested pool can be time consuming and expensive, which is why algae prevention is always preferable to cure. Apply a regular dose of Blue Horizons Ultimate Phos Away to pools where mains water phosphate levels are elevated. Alternatively, if the pool has algae, follow your normal procedure to cure, then apply Blue Horizons Ultimate Phos Away.

## Ultimate Phos Away

- Highly concentrated phosphate remover and clarifier
- Phosphate removal means fewer algae problems
- Less cleaning and vacuuming - reduces pool maintenance

Pool Volume		Phosphate level			
Litres	Gallons	200 - 1,000ppb	2,000ppb	4,000ppb	6,000ppb
22,730	5,000	71ml	142ml	285ml	425ml
45,460	10,000	142ml	285ml	565ml	850ml
68,190	15,000	213ml	425ml	850ml	1.28ltrs

Order Code	Pack size	Case QTY
PHOSAWAYULTIBH	1ltr	6

\*In conjunction with normal algae cure procedure.

Please note: All chemicals must be ordered in full case quantities.

## Disinfectants

### Multifunctional 200g Chlorine Tablets

A long lasting, multifunctional 200g chlorine tablet

High chlorine content - economical

Stabilised to minimise chlorine loss to sunlight

Enhanced with a clarifier and algae inhibitor for sparkling clear water

Order Code	Pack size	Case QTY
MFTAB2002BH	2kg	each
MFTAB2005BH	5kg	each
MFTAB20010BH	10kg	each
MFTAB20025BH	25kg	each

### Multifunctional Mini 20g Chlorine Tablets

Smaller 20g chlorine tablet, ideal for floating dispensers or chlorine feeders

High chlorine content - economical

Stabilised to minimise chlorine loss to sunlight

Enhanced with a clarifier and algae inhibitor for sparkling clear water

Order Code	Pack size	Case QTY
MFTAB201BH	1kg	6
MFTAB2025BH	2.5kg	each
MFTAB205BH	5kg	each

### 200g Chlorine Tablets

A popular traditional 200g chlorine tablet

High chlorine content - economical

Stabilised to minimise chlorine loss to sunlight

Slowly release chlorine over 3 – 4 days

Order Code	Pack size	Case QTY
CLTAB2002BH	2kg	each
CLTAB2005BH	5kg	each
CLTAB20010BH	10kg	each
CLTAB20025BH	25kg	each

### Small Chlorine Tablets

A popular traditional 20g chlorine tablet

High chlorine content - economical

Stabilised to minimise chlorine loss to sunlight

Ideal for floating dispensers or chlorine feeders

Order Code	Pack size	Case QTY
CLTAB2025BH	2.5kg	each
CLTAB205BH	5kg	each
CLTABS2025BH	25kg	each

### Ultimate Multifunctional Floating Dispenser

Pre-filled with slow release multifunctional chlorine tablets

Lasts between 3 – 5 weeks

2 sizes available to suit many pool capacities

Suitable for a regular or holiday treatment

Order Code	Pack size	Case QTY
MFDISP.72BH	720g	8
MFDISP15BH	1.5kg	6

Please note: All chemicals must be ordered in full case quantities.

# Blue Horizons Pool Chemicals

## Disinfectants

### Stabilised Chlorine Granules

A traditional easy to dose chlorine granule

Stabilised to minimise chlorine loss to sunlight

Rapid Dissolving

Order Code	Pack size	Case QTY
CLGRAN01BH	1kg	6
CLGRAN02BH	2kg	6
CLGRAN05BH	5kg	4
CLGRAN10BH	10kg	each
CLGRAN25BH	25kg	each

### Ultimate Stabilised Chlorine Granules

A rapid dissolving, easy to dose chlorine granule

Stabilised to minimise chlorine loss to sunlight

Enhanced with a clarifier for sparkling water

Order Code	Pack size	Case QTY
CLULTGRN2BH	2kg	6
CLULTGRN5BH	5kg	4

### Bromine Tablets (BCDMH)

Popular alternative to chlorine

Apply via a bromine feeder or floating dispenser

Slow release 20g tablet for long lasting disinfection

Low odour, so ideal for indoor pools

Works efficiently over a wide pH range

Order Code	Pack size	Case QTY
BRTAB05BH	5kg	4

### Floating Chlorine Tablet Dispenser

Available in two sizes

The small dispenser is ideal for 20g chlorine tablets

The large dispenser can accommodate 20g and 200g chlorine tablets

Order Code	Pack size
Small	
FLDISPSMLSTUCKED	each
Large	
FLDISPLRBH	each

## Balance

### pH Minus

A granular acid for lowering the pH of pool water

Order Code	Pack size	Case QTY
PHMIN15BH	1.5kg	6
PHMIN07BH	7kg	2
PHMIN25BH	25kg	each

### TA Reducer

An inhibited hydrochloric acid-based liquid for the reduction of total alkalinity

Order Code	Pack size	Case QTY
TAMINUS05BH	5ltr	2

### pH Plus

A powdered product for increasing the pH of pool water

Order Code	Pack size	Case QTY
PHPLUS01BH	1kg	6
PHPLUS05BH	5kg	4
PHPLUS25BH	25kg	each

### TA Raiser

A fine, rapid dissolving powder which is used for increasing the total alkalinity of pool water

Order Code	Pack size	Case QTY
TAPLUS05BH	5kg	each
TAPLUS25BH	25kg	each

### Calcium Hardness Raiser

A calcium flake which rapidly increases calcium hardness to the desired level

Order Code	Pack size	Case QTY
CHPLUS05BH	5kg	each
CHPLUS25BH	25kg	each

Please note: All chemicals must be ordered in full case quantities.

## Shock

### Pool Fusion Aqua Sachet

A powerful dual-action oxidiser and clarifier

Supplied in a convenient 175g one-treatment sachet

Use weekly to maintain crystal clear pool water

Sprinkle directly into pool water, no pre-measuring

Order Code	Pack size	Case QTY
SHFUSP175BH	175g sachet	20

### Non Chlorine Shock

A fast dissolving, chlorine-free shock granule

Destroys swimmer wastes

Fast acting

Order Code	Pack size	Case QTY
NCLSHOCK05BH	5kg	4

### Rapid Shock

A powerful, fast dissolving oxidiser

High chlorine content - economical

Destroys swimmer wastes and helps prevent/kill algae

Stabiliser-free

Order Code	Pack size	Case QTY
SHRAP02BH	2kg	each
SHRAP05BH	5kg	each

### Granular Shock

A traditional stabiliser-free granular shock

Destroys swimmer wastes and helps prevent/kill algae

Stabiliser-free

Order Code	Pack size	Case QTY
SHGRAN01BH	1kg	6
SHGRAN05BH	5kg	4

hth® Shock is also available. Please refer to the commercial section.

### Granular Shock Pouches

Powerful oxidiser to destroy swimmer wastes

Convenient pre-measured 300g sachets

Helps prevent/remove algae

Lower hazard for transportation

Order Code	Pack size	Case QTY
SHSACH21BH	2.1kg	each
SHSACH41BH	4.8kg	each

# POOL FIRST AID

# Problem solvers

## Metal Klear put to the test

Blue Horizons Metal Klear is not your average metal remover. It contains zero phosphates (which some metal treatments can contain) so won't encourage algae growth. Metal Klear is an advanced formula for chelating (sequestering) iron, copper and manganese. If metal staining can be found on the pool floor, sprinkle Blue Horizons Natural Stain Remover directly onto the stain to help 'lift' the stain off the pool surface, then apply Blue Horizons Metal Klear.

The pictures below were taken by a local service company. The pool had a copper reading over 5mg/l. Three days after the addition of Metal Klear, a couple of backwashes and a vac to waste and the pool water is totally transformed.

## Metal Klear

- A powerful metal sequestrant
- Use to remove metal staining
- Helps to clear discoloured water
- A phosphate-free formula

Water volumes		Dose Rates		
Litres	Gallons	Initial	Fresh Staining*	Maintenance (weekly)
4,546	1,000	60ml	120ml	15ml
11,365	2,500	150ml	300ml	38ml
22,730	5,000	300ml	600ml	75ml
45,460	10,000	600ml	1.2ltr	150ml
68,190	15,000	900ml	1.8ltr	225ml

\*Fresh metal staining or water discoloration dose.

Order Code	Pack size	Case QTY
SPMETAL01BH	1ltr	6

**BEFORE** Blue Horizons Metal Klear

**AFTER** Blue Horizons Metal Klear

Please note: All chemicals must be ordered in full case quantities.

## Speciality

### Chlorine Reducer

Reduces chlorine and bromine  
Fast acting crystal  
Problem solver

Order Code	Pack size	Case QTY
SPCLRED1BH	1kg	6

### Ultimate Phos Granules

Highly concentrated granular phosphate remover  
Easy to dose twin sachet  
Fewer algae problems  
Less cleaning and vacuuming

Order Code	Pack size	Case QTY
PHOSULT100BH2 x 100g sachet		12

### Ultimate Phos Away

Highly concentrated phosphate remover & clarifier  
Triple strength formula  
Fewer algae problems  
Less cleaning & vacuuming – reduced pool maintenance

Order Code	Pack size	Case QTY
PHOSAWAYULT1BH	1ltr	6

### Concentrated Phos Away

Phosphate removal means fewer algae problems  
Less cleaning and vacuuming  
Reduces pool maintenance  
Liquid for easy application

Order Code	Pack size	Case QTY
PHOSAWAY1BH	1ltr	6

### Metal Klear

A powerful metal sequestrant  
Use to remove metal staining  
Helps to clear discoloured water  
A phosphate-free formula

Order Code	Pack size	Case QTY
SPMETAL01BH	1ltr	6

### Pool Leak Seeker

Seals minor cracks  
Suitable for pool and spa pipework  
Fast acting liquid for easy application

Order Code	Pack size	Case QTY
SPLEAK01BH	1ltr	6

### Stain & Scale Inhibitor

Apply to control and remove metal stains  
Use to prevent scale formation  
Liquid for easy application

Order Code	Pack size	Case QTY
SPSTNHIB1BH	1ltr	6

### Chlorine Stabiliser/Conditioner

UV protection for chlorine in granular form  
Use in outdoor pools

Order Code	Pack size	Case QTY
SPCOND2BH	2kg	each

### Solar Shield

Liquid pool blanket  
Reduces evaporation and heat loss  
Compatible with all sanitisers  
One dose lasts up to a month

Order Code	Pack size	Case QTY
SPSOLAR02BH	2ltr	6

### Instant Chlorine Stabiliser

Easy pour liquid  
No pre-dissolving required  
Fast acting  
Prevents chlorine loss to sunlight

Order Code	Pack size	Case QTY
SPCOND3.78BH	3.78ltr	4

Please note: All chemicals must be ordered in full case quantities.

## Algaecides

### Ultimate Algicide Concentrate

A concentrated, dual-action algae destroyer

Use for prevention and cure  
Copper and copper-free blend

Order Code	Pack size	Case QTY
ALGULT01BH	1ltr	6

### Algae Controller

A copper-free algaecide

Dose weekly to prevent algae growth

Order Code	Pack size	Case QTY
ALGAE.5BH	0.5ltr	12
ALGAE01BH	1ltr	6
ALGAE02BH	2ltr	6

## Longlife Algaecides

### AlgiMAX Eliminator

A long-life copper based algaecide

Prevents algae growth for up to 3 months

Concentrated for economical use

Also popular as a Winteriser

Order Code	Pack size	Case QTY
ALGIMAX1BH	1ltr	6
ALGIMAX2BH	2ltr	6

### Summerclear

A long-life copper-free algaecide

Prevents algae growth for up to 3 months

Compatible with a wide range of sanitisers

Order Code	Pack size	Case QTY
ALGAESUMC02BH	2ltr	6

### Concentrated Winter Time

A copper-free winter algaecide

Compatible with a wide range of sanitisers

1ltr will treat up to 12,000 gallons

Order Code	Pack size	Case QTY
ALGWNTR1BH	1ltr	6

### Ultimate Winter Time

A copper-free winter algaecide

Built-in stain control for added protection

Compatible with a wide range of sanitisers

Treats pools up to 15,000 gallons

Order Code	Pack size	Case QTY
ALGWNTR5BH	5ltr	4

## Clarifiers

### Ultimate Water Clarifier Concentrate

A highly effective dual-action clarifier

Clears cloudy water fast

Environmentally friendly formula

Liquid for easy application

Order Code	Pack size	Case QTY
CLAULT01BH	1ltr	6

### Rapid Liquid Floc

A fast acting alternative to traditional floc granules

Settles debris to the pool floor for easy removal

Apply directly to pool – no pre-dissolving needed

Order Code	Pack size	Case QTY
CLAPAC01BH	1ltr	6

### JellyCLEAR Cubes

Traps fine particles in the filter helping to maintain crystal clear water

Suitable for use with sand and cartridge filters

Lasts for up to 2 weeks

**Each 70g cube treats up to 11,000 gallons**

Order Code	Pack size	Case QTY
CLACUB24SINGBH	24 x 70g	1

### Flockfix Cartridges

Slow release floc cartridge

Traps fine particles in the filter helping to maintain crystal clear water

Also aids in the removal of metals

**Each presentation box contains 8 x 125g cartridges**

Order Code	Pack size	Case QTY
CLASOCK1BH	1kg	12

### Granular Floc

Settles unwanted debris to pool floor

A traditional problem solver

Aids in the removal of algae

Order Code	Pack size	Case QTY
CLAFLOC2BH	2kg	6

### Aqua Sparkle Tablets

50g Floc Tablet

Traps fine particles in the filter enhancing filter efficiency

Add weekly for crystal clear water

**Each 500g tube contains 10 tablets**

Order Code	Pack size	Case QTY
CLATAB05BH	0.5kg tube	12

### ClearFAST Aqua Sachet

Pre-measured 150ml sachet – no pre-measuring needed

Easy pour nozzle

Clears cloudy water fast

Improves filter efficiency

**Each 150ml sachet will treat up to 11,000 gallons**

Order Code	Pack size	Case QTY
CLASACT24BH	150ml	24

Supplied in this attractive counter display tray

Please note: All chemicals must be ordered in full case quantities.

## Cleaners

### Slatted CoverKleen

A powerful liquid slatted cover cleaner

Removes stubborn calcium scale and staining

Fast acting

Order Code	Pack size	Case QTY
COVCLEAN5BH	5ltr	4

### Springwash

Removes calcium scale from pool surfaces and surrounding areas

Helps to promote bacteria and algae free surfaces

Fast acting liquid cleaner

Order Code	Pack size	Case QTY
CPSPRING5BH	5ltr	2

### Easy Kleen

Liquid waterline cleaner

Rapidly removes grease and grime

Convenient trigger spray for easy application

Also suitable for hot tub use

Order Code	Pack size	Case QTY
CPEKLEEN5BH	0.5ltr	12

### Waterline Cleaning Paste

A highly effective waterline cleaning paste

Helps to remove grease and dirt, promoting bacteria-free surfaces

Supplied with sponge applicator

Compatible with many pool surfaces

Order Code	Pack size	Case QTY
CPWCP350BH	350g	12

### Tile & Liner Cleaner

Fast acting waterline cleaner

Effective against scale and staining

Helps to promote bacteria and algae free surfaces

Order Code	Pack size	Case QTY
CPTLCO2BH	2ltr	6

### Natural Stain Remover

All natural stain remover

Granular to sprinkle directly onto staining

# AQUA *gentle*

FOR SOFT AND GENTLE  
HOT TUB WATER

## Soft on the skin, soft on the tub

Aqua Gentle is a simple and effective water treatment kit designed to include everything required to manage a hot tub's routine water care: testing, treating, and conditioning.

Aqua Gentle's highly advanced formula helps to prevent biofilm bacteria that may build-up in the pipework. With less bacteria in the water, you won't need to top up with chemicals as often and your hot tub will stay safe and sparkling for longer.

Lower chemical consumption

Soft and gentle formula that is kind to your skin

Lightly fragranced with lavender for a calm and tranquil bathing experience

Comes with an easy to follow support guide

CPC have brought a system to the market that keeps water balance at the heart of your water management but provides you a simple, no fuss routine dosing system.

# AQUA gentle

For Soft and Gentle Hot Tub Water

## Aqua Gentle display stand

Dimensions: 467.5mm (w) x 340mm (d) x 1200mm (h)

## Aqua Gentle Water Care Kit

1ltr Conditioning Liquid, 700g Fizzy Tabs, 5 x Spa Fusion Sachets, 3+ Test Strips and User Guide

Order Code	Pack size	Case QTY
AGPSPAQUAGENTLE	1	4

## THE STEP BY STEP GUIDE TO SAFE, SOFT AND GENTLE WATER

### STEP 1: DAILY

#### TEST THE HOT TUB WATER

Use the 3+ Test Strips to test your hot tub water for chlorine, pH and total alkalinity. The test strips will quickly let you know if the levels are correct or need adjusting.

#### IDEAL LEVELS

<b>CHLORINE</b> Ideal level 3 - 5 ppm	<b>pH</b> Ideal level 7.2 - 7.6	<b>ALKALINITY</b> Ideal level 80 - 150 ppm
--	---------------------------------------	---

#### ADD AQUA GENTLE FIZZY TABS

Add the required number of rapid dissolving Aqua Gentle Fizzy Tabs directly to the hot tub water with the jets running.

**Note:** If a lot of bathers are using your hot tub, you may need to increase the number of Fizzy Tabs to help maintain ideal chlorine levels.

### STEP 2: WEEKLY

#### ADD AQUA GENTLE CONDITIONING LIQUID

Shake the bottle vigorously.

Using the graduated measuring cup, add 100ml of Conditioning Liquid per 1,500 litres (330 gallons) of hot tub water.

Add directly to the hot tub water with the jets running.

### STEP 3: BI-WEEKLY

#### ADD SPA FUSION

For hot tubs of up to 1,500 litres (330 gallons), apply one sachet of Spa Fusion. Empty the whole sachet into the hot tub with the jets running. Leave the hot tub cover off for a minimum of one hour after application.

#### USEFUL INFORMATION

##### FOAM CONTROL

Body oils, cosmetics and detergents on swimming costumes can result in unsightly foaming on the hot tub water surface. If foaming occurs, use AquaSParkle FoamAway to control it.

##### DRAINING AND REFILLING

Over time, your hot tub water absorbs minerals, chemicals and bather pollution leading to dull and lifeless water. Draining and refilling your hot tub with fresh water every 2-3 months can help to prevent this. Prior to drain down, take the opportunity to clean your hot tub's internal pipework using AquaSParkle Hot Tub Flush.

FoamAway, Hot Tub Flush and other speciality products can be found in the AquaSParkle Premium Care Service Pack.

Please note: All chemicals must be ordered in full case quantities.

## AquaSPARKle – an innovative and easy to use range for hot tub users

Your spa will provide you with your own personal haven of relaxation and therapy, providing you with a refuge away from the stresses and strains of everyday life. Our comprehensive AquaSPARKle range of water treatment products will keep your hot tub water healthy, clean and inviting to use.

Some of our industry leading AquaSPARKle products are:

### A selection of one-treatment sachets that provide the following:

- Enhances bathing experience
- Bather waste destroyer that also clarifies the hot tub water, helping to achieve sparkling clear spa water
- Highly effective filter cleaning solution

### Extensive range of customer friendly kits

- Chlorine and Bromine Starter Kits for the hot tub beginner
- Premium Spa Care Kit
- O<sub>2</sub> Gentle Starter Kit
- NEW initiative in hot tub sanitisation - Bromine Pod
- New Aqua Gentle Water Care Kit

# PRODUCT FEATURE

## Bromine Pod

The AquaSParkle Bromine Pod provides continuous in-line sanitation by producing active bromine to kill bacteria and potentially harmful organisms. The AquaSParkle Bromine Pod has made caring for your hot tub water even easier. The in-line Bromine Pod delivers enough bromine directly into your hot tub water without the need to measure or handle chemicals and deliver consistent sanitiser dosing. All combining to make your hot tub experience more enjoyable than before with clearer safer water.

Order Code	Pack size	Case QTY
ASPODBROMINE	3 x 140g	8

The AquaSParkle Bromine Pod is designed to be flexible and can be installed in a number of ways:

### USE IN A BUILT-IN PROPRIETARY HOT TUB DOSING SYSTEM (OR FRAME)

Attach the AquaSParkle Bromine Pod to the chemical dispenser frame or chamber using the adaptor clip provided. Ensure that the AquaSParkle Bromine Pod is firmly attached to the adaptor clip, and the adaptor clip is firmly attached to the chemical dispenser frame.

It takes a while for bromine tablets to begin to dissolve so it may be appropriate to first shock treat to immediately establish chlorine or bromine residuals. Add the appropriate amount of Spa Rapid Shock as per product label dosing instructions. Always test your hot tub water prior to use and maintain bromine levels between 4 to 6 mg/l (ppm).

(this initial shock dose applies when using the AquaSParkle Bromine Pod in any of the 3 installations).

### USE WITH A DARLly SANISTREAM™ OPEN-TOP FILTER, OR OPEN-TOP FILTERS FITTED WITH A STOPPER DEVICE IN THE CENTRE OF THE CARTRIDGE

To install the AquaSParkle Bromine Pod into an open ended cartridge filter lower the Pod ensuring the top is upright, until it rests onto the Pod retainer grid. Then install the cartridge filter in the hot tub.

Retainer grid to prevent pod from damaging hot tub

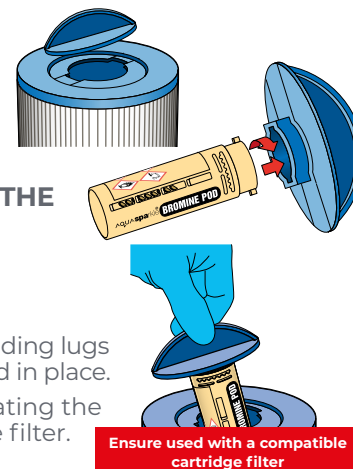

We recommend use of cartridge filter with a retainer grid fitted for spa protection

### USE WITH A DARLly SANISTREAM™ HANDLE-TOP CARTRIDGE FILTERS, OR OTHER CARTRIDGE FILTERS THAT CONTAIN A CAP THAT ACCOMMODATES THE CLIP-IN OF THE POD LUGS

To install the AquaSParkle Bromine Pod into a cartridge filter of the closed-cap type, first twist the handle anti-clockwise and remove the cap.

Install the AquaSParkle Bromine Pod in the cartridge filter cap by locating the two protruding lugs on the top of the Pod into the underside of the cap, then twist until it clicks to lock the pod in place.

Insert the AquaSParkle Bromine Pod and cap assembly into the cartridge filter by locating the lugs of the cap into the slots, then twisting clockwise to lock the cap into the cartridge filter. Then return filter to the hot tub.

Ensure used with a compatible cartridge filter

Please note: All chemicals must be ordered in full case quantities.

## Hot Tub Starter Kit

### Spa Starter Kit – Chlorine / Spa Starter Kit – Bromine

GHSSFOAM	0.5ltr	12

### Spa Natural Clarifier

Fast-acting liquid water polisher  
 Environmentally friendly formula  
 Easy application

Order Code	Pack size	Case QTY
GHSSCLARIFIER1	1ltr	6

### Spa Shine 'n' Protect

Multi-application cleaner  
 Shines, conditions and protects acrylic, vinyl and rubber  
 Provides UV protection to spa surfaces  
 Easy trigger spray application

Order Code	Pack size	Case QTY
GHSSPOLISH	0.5ltr	12

### Spa Scale Free

Use to control and prevent scale formation  
 Helps to protect the spa and spa equipment  
 Dose weekly for added protection

Order Code	Pack size	Case QTY
GHSSSCALE1	1ltr	6

### Spa Quick Chlorine Reducer Liquid

Liquid chlorine reducer  
 Rapidly lowers chlorine and bromine levels  
 Fast spa turn-around after commissioning  
 Easier to use than conventional chlorine reducers

Order Code	Pack size	Case QTY
GHSSCLREDLIQ5	0.5ltr	6

### Clear Spa Flush Plus

Rapidly removes the build-up of soaps & oils in spa pipework  
 Helps to prevent biofilm formation  
 Keeps spa plumbing clean

Order Code	Pack size	Case QTY
GHSSPIPE	1ltr	6

### Spa Cartridge Cleaner

A traditional cartridge cleaner  
 Rapidly removes grease and debris from your hot tub filter  
 Restores filter efficiency

Order Code	Pack size	Case QTY
GHSSPACRT001	1ltr	6

### Spa & Pool Perfect

Reduces scum build-up and clogged filters  
 Naturally biodegrades body oils and cosmetics  
 Reduces chlorine odour  
 Dual-application product for spas and pools

Order Code	Pack size	Case QTY
GHSSPERFECT	1ltr	6

### Powder Filter Cleaner

Dual-action powder cartridge cleaner  
 Rapidly removes greases and oils, restoring filter efficiency  
 Effective at scale removal

Order Code	Pack size	Case QTY
GHSSPACRTIMS5	500g	12

Please note: All chemicals must be ordered in full case quantities.

## OXYGEN NON-CHLORINE CHEMICALS

### **AQUABLANC – The 100% Chlorine FREE Pool and Spa Water Treatment**

Aquablanc is an extensive range of non-chlorine Active Oxygen products that offer users safe and bacteria free water, without the use of halogens such as chlorine and bromine. Aquablanc treated pools or hot tubs provide bathers with pure and gentle water, with less of the attendant smells associated with chlorinated water, thus leading to pleasant and low odour environments.

#### **Swimming pools/hot tubs running on Aquablanc Active Oxygen provides:**

- A popular alternative to chlorine or bromine
- Pure, gentle and safe water for you and your family
- A choice of easy to use sachets or tablets
- No chlorine smell

# Aquablanc Non-Chlorine Chemicals

## Aquablanc Pool

### Aquablanc O<sub>2</sub> Gentle

Supplied in an easy-to-dose twin sachet.  
A popular alternative to chlorine or bromine  
Pure and gentle swimming pool water  
Clarifies for crystal clear water

Order Code	Pack size	Case QTY
NCL02GENTLE	3.24kg	each

### Aquablanc Oxygen Liquid with Algaecide 12%

Oxygen liquid with built-in algaecide  
Gentle sanitiser for the ultimate swimming pool water  
Minimal odour for a pleasant pool environment  
Dosed via an automatic controller for ease of use

Order Code	Pack size	Case QTY
NCLOXY20AB	20kg	each

### Aquablanc pH Minus Liquid

Use in conjunction with the Aquablanc non-chlorine system  
Dosed via an automatic controller for ease of use  
Blended to 25% solution strength

Order Code	Pack size	Case QTY
WBACIDPH25	25kg	each

## Aquablanc Hot Tub

### Aquablanc Spa Starter Kit

Popular non-chlorine spa starter kit  
Contains all the essentials for pure and gentle spa water  
Full Aquablanc Spa Guide included

Order Code	Pack size	Case QTY
AGPSNCLAB	1	2

### Aquablanc Spa O<sub>2</sub> Tablets

A popular alternative to chlorine or bromine  
Easy to use, chlorine-free 2-part system  
Promotes soft and gentle spa water  
Use in conjunction with A Combination Liquid

Order Code	Pack size	Case QTY
NCL02TAB1AB	1kg	6

### Aquablanc Spa A Combination Liquid

Simple weekly application  
Easy to use, chlorine-free 2-part system  
Promotes soft and gentle spa water  
Use in conjunction with O<sub>2</sub> Tablets

Order Code	Pack size	Case QTY
NCLCMBLQ1AB	1ltr	6

Where there's a swimming pool plant room, there's a place for CPC's commercial products. With a huge range of pool and spa water treatment chemicals, chemical dosing equipment, water testing apparatus and Health and Safety equipment, Complete Pool Controls Ltd provides the Complete Solution for any wet leisure facility's water care.

CPC are a market leading recreational chemical supplier with the Blue Horizons Commercial range of swimming pool and spa water treatment product portfolio, making it the Complete Solution for any swimming pool or leisure facility operator, fully supported by:

- Industry experts conversant in all aspects of pool and spa water management and principles
- Dedicated national field support and remote technical and product support
- Customer service support and technical advice
- High quality products with UN certified packaging/labels
- Product training, including water testing and storage and product handling training
- Innovation and specialist problem solving products
- Chemical dosing equipment solutions

CPC are an appointed distributor of the WDT dosing equipment portfolio including the ever-popular Granudos dosing stations including a large stock holding of all spare parts. We have over 40 years experience with these systems including aftersales support and training

CPC are an appointed distributor of *hth*<sup>®</sup> Calcium Hypochlorite and dosing equipment products, and all aftersales spare parts

As a supplier, we offer the Prominent range of automated chemical measurement and control systems. Used in conjunction with the DULCONNEX gateway remote monitoring system, giving the professional pool or spa operator complete control at times

The Sugar Valley electro-chlorination system is an innovative disinfection solution for a swimming pool or spa. The system uses advanced oxidation technology, generating low levels of chlorine along with the formation of free radicals which provides an efficient way of oxidising and destroying organic matter and pathogens in the water, before finally transforming back into sodium chloride (common salt)

A range of specially blended leisure industry cleaners, effective and easy to use. The range includes a descaler, deep cleaner and every day multi-purpose cleaner

# The Complete Solution

## Commercial Disinfectants

### Sodium Hypochlorite

For routine use in pool and spa water treatment

Easy to use

Suitable for direct dosing or for dosage using injection equipment

Bulk Sodium Hypochlorite deliveries can be carried out subject to site survey conditions

Order Code	Pack size	Case QTY
<b>Liquid Shock (10/11% Sodium Hypo with additive)</b>		
HYPOLS5CM	5ltr	2
<b>10/11% Sodium Hypochlorite with additive</b>		
HYPO1110CM	10ltr	each
HYPO1120CM	20ltr	each
<b>14/15% Sodium Hypochlorite</b>		
HYPO1510CM	10ltr	each
HYPO1520CM	20ltr	each
<b>14/15% Sodium Hypochlorite with additive</b>		
HYPO15C20CM	20ltr	each

### Pro-Cal Calcium Hypochlorite Donors

High quality, high chlorine strength products

Even consistency

Suitable for hard and soft water

Suitable for most chemical dosing devices including the Granudos granular system

Fully backed in-house and field product support

Order Code	Pack size	Case QTY
<b>Pro-Cal Calcium Hypochlorite Granules</b>		
SHGRAN10CM	10kg	each
SHGRAN25CM	25kg	each
SHGRAN40CM	40kg	each

### Salt

Order Code	Pack size	Case QTY
<b>Hydrosoft Salt</b>		
SALTHYDROSOFT25	25kg	each
<b>Granular Salt (bag)</b>		
SALTGRN25CM	25kg	each
<b>Salt Pebbles (bag)</b>		
SALTPEB25CM	25kg	each
<b>PDV Salt (bag)</b>		
SALTPDV25CM	25kg	each

Please note: All chemicals must be ordered in full case quantities.

### Other Sanitisers/Specialities

Order Code	Pack size	Case QTY
<b>Small Chlorine Tablets</b>		
CLTAB2025BH	2.5kg	each
<b>200g Chlorine Tablets</b>		
CLTAB20025BH	25kg	each
<b>Bromine Tablets (BCDMH)</b>		
BRTAB05BH	5kg	4
<b>Chlorine Reducer (reduces chlorine &amp; bromine)</b>		
SPCLRED1BH	1kg	6
<b>Sodium Thiosulphate</b>		
SPCLREDT25CM	25kg	each
<b>Chlorine Stabiliser</b>		
SPCOND2BH	2kg	each
<b>Cyanuric Acid/Conditioner</b>		
SPCOND23CM	23kg	each
<b>Cyanuric Acid/Conditioner (bag)</b>		
SPCOND23CM	25kg	each

## Commercial Water Balance

### Water Balance

Order Code	Pack size	Case QTY
Sauna / Steam Milk - Eucalyptus		
SRMLK5CM	5ltr	2
SteamKleen		
CPSKLEEN1CM	1kg	6

Please note: All chemicals must be ordered in full case quantities.

# Extra Kleen Leisure Industry Cleaners

## Commercial Cleaning Products

### Extra Kleen Deep Klean

Triple action cleaner

Removes heavy soiling including rust, scale/calcium deposits, scum and body oils/fats

Minimal pH impact

Order Code	Pack size	Case QTY
Extra Kleen Deep Klean		
CPEXDEEP5BH	5ltr	2

### Extra Kleen Multipurpose Klean

Highly effective biodegradable general purpose cleaner

Sanitiser with a fresh fragrance

Order Code	Pack size	Case QTY
Extra Kleen Multipurpose Klean		
CPEXMULTI5BH	5ltr	2

Examples of how effective Deep Klean is...unbeatable cleaning power

### Extra Kleen Scale Klean

Enables rapid penetration and removal of scale deposits/scum and body fats

Removes metal tarnish, hard water scale, rust from ferrous metals and brightens aluminium and chrome surfaces

Minimal pH impact

Order Code	Pack size	Case QTY
Extra Kleen Scale Klean		
CPEXKLEEN5BH	5ltr	2

### Extra Kleen Shower Klean

Highly effective shower head descaler and disinfectant that kills bacteria including legionella

Quick and easy to use method of removing unsightly scale that harbours bacteria

Keeps shower heads and taps flowing freely and looking good

Order Code	Pack size	Case QTY
Extra Kleen Shower Klean		
CPEXSHOWER5BH	5ltr	2

### Commercial Cleaners

Order Code	Pack size	Case QTY
Tile & Liner Cleaner		
CPTLC02BH	2ltr	6
Super Cleanse 50 x 20g (Chlorine Dioxide)		
BIOFILM5CM	1kg	each

### Super Cleanse

Warm swimming pool and spa water can provide the ideal conditions for bacterial growth. As bacteria then starts to form on surfaces, in pipework and balance tanks, biofilm can begin to form. Biofilm is extremely resistant against chlorine. Blue Horizons Commercial Super Cleanse is a highly effective cleaning agent that penetrates the biofilm and helps remove the bacteria.

Can also be used to clean a biofilm covered surface such as floatation aids, covers, channel grates or around the pool side and in changing rooms.

Can also be used to clean a biofilm covered surface such as floatation aids, covers, channel grates or around the pool side and in changing rooms.

Please note: All chemicals must be ordered in full case quantities.

# Commercial Dosing and Control Solutions

## Prominent Dulcodos Pool System Plus

### Free Chlorine & pH Monitoring & control system

- Amperometric chlorine & pH measurement
- Constantly good water quality
- Simple menu-driven operation
- Wide range of monitoring functions, sample flow, temperature, pH and Chlorine
- Probe housing with flow detection
- Low operating costs
- Backboard mounted with power supply isolation - Simple and fast installation
- Remote Real-time operation status via the DULCONNEX platform

We also can supply a full range of Prominent dosing pumps and spares - full list available upon request.

# Granudos Dosing Stations - Automated Control Systems

## WDT CPR Touch Automated Controller

The CPR Touch has been developed especially for both commercial and residential pools & spas. With exceptional performance the measurement system guarantees a stable and reliable control of the necessary parameters ensuring safe bathing conditions

Includes a simple and intuitive to use 7" Touch-Screen graphical display, allowing for an easy to use operational system with self-explanatory icons

Pre-mounted on a board c/w inline strainer for easy installation  
Can be used with most dosing devices currently available

### FEATURES

- Coloured 7" Touch screen to indicate the current data and status of the unit
- Faults, alarms and calibration are illustrated by self-explaining icons
- All control parameters are adjustable to ensure optimal pool & spa conditions
- Proportional control characteristic to ensure compliance with the selected set points
- Start-up automatic with pH preference dosing
- Level control of the product drums
- Shock chlorination and ECO mode

### INTERFACES

- Remote indication
- The measuring values, current status, faults and alarms can be remotely monitored by normal internet driven devices (e.g. computer or smartphone) via a LAN connection. The control and operation parameters can be accessed and adjusted giving the operator complete control over the system
- Large data storage capability (up to 1000 days), giving the ability to view historical data
- The data can also be downloaded via a USB device
  - Measured value logging
  - Calibration logging

#### Order Code

WDT CPR Touch Automated Controller  
CPCTOUCHXL

## Granudos Dosing Stations

Simple to use and operate the Granudos is the professional operators choice of system used for the dosing of calcium hypochlorite granules into the pool or spa water. With a capability of administering both chlorine and pH corrective chemicals through one simple to use system this can be tailored fitted to suit any application

With flexible dosing output capabilities the Granudos is operated using an intuitive coloured touch screen or via a clear to use 5 line LCD display.

### BENEFITS

- Granular calcium hypochlorite feeder
- Compact and easy to use
- Chlorine is dissolved within the unit, eliminating blocked injectors, no sludge, no wastage
- Fast reacting to chlorine demand – very efficient
- No mixing of chemicals, reducing the risk of manual handling and Health & Safety risks
- Easy to install
- Operation and visualisation via 5-line LC display and three buttons or touch screen display
- Granudos 45 version – The product container is attached to the system further reducing manual handling issues

### FEATURES

- Safety features include flow, level and pressure sensors
- Adjustable operational dosing programmes
- Conical hopper ensuring an even flow of granular chlorine to the dosing screw
- Ability to continuously correct the pH level in the water as well as providing scale prevention
- Unique venturi suction system

## Granudos 45/10 S5

Granudos 45/10 S5 is a calcium hypochlorite granular feeder that takes chemical direct from the product drum or by simply adding to the hopper system helping to minimise manual handling problems associated with the handling of hazardous chemicals. The calcium hypochlorite granules are fed from the drum to the pool/spa water by a simple screw feed and venturi suction system, eliminating the need for conventional dosing pumps and day tanks and dosing injectors. Easy to use and operate with a small footprint of 0.42m<sup>2</sup>.

The Granudos 45/10 S5 can be linked to a most control systems or may be used manually via its integral timed program.

**Order Code**

Granudos 10S5

GRAN10S5

**Order Code**

Granudos 45S5 (40kg or 25kg - available on request)

GRAN45S5

## Granudos 45/10 Touch

With all of the same features as the standard Granudos S5 system the Touch version benefits from the use and operation of the system via a 7" touch screen display with a comprehensive event and data logger of up to a 1000 days of historical date storage.

Ability to connect to a LAN (local area network) for remote monitoring capabilities.

With easy to understand graphics and icons, the visualisation of the operating system and dosing outputs are clearly displayed at all time. Easy to install (just 4 connections) with a small footprint area required.

**Order Code**

Granudos 10 CPR Touch

GRAN10TOUCH

**Order Code**

Granudos 45 CPR Touch

GRAN45TOUCH

## Granudos 45/10 CPR Touch XL

The complete all in one dosing station is suitable for all pools/spas giving the operator complete control from one system. The Granudos comes complete with an integrated touch screen controller c/w Free Chlorine, pH, ORP (REDOX) & temperature control and measurement. Operated via a 7" touch screen system with a comprehensive event and data logger of up to a 1000 days of storage. Ability to connect to a LAN (local area network) for remote monitoring capabilities.

Easy to install (just 4 connections) with a small footprint area required.

The Granudos 10 Touch XL system also benefits from an integral flocculation pump.

Granudos 10 CPR Touch XL

GRAN10TOUCHXL

**Order Code**

Granudos 45 CPR Touch XL

GRAN45TOUCHXL

## Continuous flocculation - Flocdos System

Continuous flocculation is a process of binding impurities in the swimming pool water into larger particles which are not big enough to be trapped in a conventional filtration system. By adding the liquid flocculent via the Flocdos pump as a filter aid this will also help to improve the water quality and clarity.

It is strongly recommended by the Pool Water Treatment Advisory Group (PWTAG) and importantly it is a highly effective method of dealing with chlorine resistant infections such as cryptosporidium (a highly infectious organism that causes chronic cases of severe diarrhoea).

FlocPAC SUPER is the perfect product to be administered via the Flocdos + pump.

The Flocdos + system is simple to install and use with the added benefit of taking the PAC liquid direct from the container.

- Dosing pump output 15 -200ml/hr
- Leakage monitoring of the pump dosing tube
- Empty indication switch on the drum suction lance

**Order Code**

Flocdos System

GRANFD1.6DA

**hth®** is the world's leading brand of Calcium Hypochlorite used for the disinfection of swimming pools and spa pools, coupled with a range of dedicated feeders, making this a perfect choice for the professional pool and spa operator.

**Why use hth®?**

- With a lower pH than liquid Chlorine, **hth® Calcium Hypochlorite** can achieve a saving on pH correction costs
- Suitable for hard and soft water
- Balanced water easier to achieve
- Helps control Total Dissolved Solids
- Improves water quality and bather comfort
- 30-month shelf life when stored appropriately

**hth® Calcium Hypochlorite**

- Suitable for hard and soft water
- Less pH correction is required
- Balanced water easier to achieve
- Helps control Total Dissolved Solids
- Improves water quality and bather comfort

Order Code	Pack size	Case QTY
<b>Hth Dedusted Granules</b>		
HTHDDGRAN10	10kg	each
HTHDDGRAN25	25kg	each

HTHEFGAN40	40kg	each
<b>Hth Easiflo Briquettes</b>		
HTHEFTAB25	25kg	each

**hth® Advanced Tablets**

- 255gram non-stabilised Calcium Hypochlorite Tablet – 68% available chlorine content
- Designed for use via a skimmer basket
- 1 tablet per 25m<sup>3</sup> of pool water
- Slow dissolving - long lasting 5 to 7 days
- Octagonal blue tablet avoiding accidental mixing with standard stabilised chlorine tablets

Order Code	Pack size	Case QTY
HTHADVANCE9	9kg	each

**hth® Shock Granules**

- Clears algae - getting straight to the problem area
- Cleans surface draw-off channels and skimmers
- Cleans the filter
- Burns off inorganic chloramines
- Has minimum effect on water balance, TDS and pH
- Does not add any cyanuric acid
- Fast dissolving powder with long shelf life
- Easy to handle and use - no need to pre-dissolve

Order Code	Pack size	Case QTY
HTSHOCKGRAN	5kg	2

**hth® Banisol® Cleaning Solution**

**hth® Banisol® extra** is an ultra concentrated, liquid formulation cleaning product with a high active ingredient and is extremely effective against scale deposits, rust and mineral stains.

**Areas of Use**

- Removal of scale deposits, traces of rust and mineral stains in and around the pool/spa and changing facilities
- Can be used to clean calcium carbonate deposits in chlorine feeder units
- Periodic deep cleaning

Order Code
hth® Banisol Cleaning Solution 20ltr
HTH BANISOL

# hth® Feeders

## hth® easiflo® 10 FIRST

hth®, the leading manufacturer of calcium hypochlorite, has developed the hth® easiflo® 10 FIRST chlorine dosing system. Designed to be used in combination with hth® easiflo® BRIQUETTE, this device produces a ready-to use, on-demand chlorine solution for disinfecting swimming pools and spas.

hth® easiflo® 10 FIRST is ideal for smaller volumes of pool and spa water.

The dosing unit generates a chlorine solution which is released into the pool's circulation system, ensuring that the chlorine level in the swimming pool is maintained. Thanks to the smooth body and specially designed system, it is easy to clean and maintenance is kept to a minimum.

This feeder is easy to install and maintain. With no pressurised dosing lines.

To maintain safety in the plant room, an emergency stop float limits the risk of overflow and spillage of the chlorine solution.

Benefits include:

Ideal for hotels, spas, children's pools and small pools

Easy to install, operate and maintain – small footprint

No dosing pump or complex injection system is required

Provides a ready-to-use chlorine solution on demand - available chlorine: 0,7%

Can be used with an automatic controller

Designed for hth® easiflo® BRIQUETTES, known for their exclusive anti-scale additive

Comprehensive training and technical support

## hth® easiflo® First 20/50

The hth® Easiflo feeder produces a Calcium Hypochlorite solution on demand from the automated control unit. The hth® Easiflo briquettes are placed inside the hopper of the feeder. When the auto control indicates a need for chlorine, filtered pool water is directed onto the briquettes via the patented spray system. This produces a stable chlorine solution, which is then drawn into the pool circulation under vacuum created by the venturi, along with a full washdown system to keep regular maintenance to a minimum. The hth® Easiflo feeders have been designed using the latest technology to ensure trouble free operation, in conjunction with the use of hth® Easiflo briquettes.

Benefits include:

Ideal for larger volumes of water for most leisure facilities including leisure and fitness clubs, municipal swimming pools, hotels and school pools

Easy to install, operate and maintain – small footprint

No dosing pump or complex injection system is required

Provides a ready-to-use chlorine solution on demand - available chlorine: 0,7%

Can be used with an automatic controller

Designed for hth® easiflo® BRIQUETTES, known for their exclusive anti-scale additive

Comprehensive training and technical support

# Residential Pool & Spa Dosing Solutions

## Descon My Pool Control

The My Pool Control system unit is perfect for any domestic / private pool owner, helping them to take the guess work out of the application and dosing of pool chemicals.

There are two versions to choose from:

Free Chlorine and pH measurement  
REDOX/ORP and pH measurement

Both systems include temperature monitoring.

Manufactured to the highest standard using top grade components the pool owner can rest assured in the knowledge that their pool water is maintained in the correct chemical condition at all times.

A basic connection kit is provided with the unit to connect it with the pool circulation system. Additional fittings may be required to connect to circulation pipework, please enquire.

Can also be supplied with or without dosing pumps.

### My Pool Control Free Chlorine & pH Automated Controller c/w pumps

- Free Chlorine potentiostatic measurement 0,00 – 10,00 mg/l free chlorine pH 0 -14 optional extra
- Temperature -30 to +140 degrees C
- Switch on delay & no flow protection
- Dosing Pump output - 2.5lt/hr std
- Injection points 1/2" BSP
- Pump dosing line tubing 6 x 4 mm
- Electrical protection class – IP65

#### Order Code

CPCMYPOOLCONFCL

### My Pool Control ORP/REDOX & pH Automated Controller c/w pumps

- Redox (ORP) measurement 0 to +1500mV pH 0 -14
- Temperature -30 to +140 degrees C
- Switch on delay & no flow protection
- Dosing Pump output - 2.5lt/hr std
- Injection points 1/2" BSP
- Pump dosing line tubing 6 x 4 mm
- Electrical protection class – IP65

#### Order Code

CPCMYPOOLCONTROL

## BENEFITS

- Ensuring the water is treated at all times for bather comfort
- Constant monitoring of the chlorine & pH values even when away from home i.e. holiday
- Easy to install with minimum on-going maintenance
- Chlorine and pH correction products taken direct from containers

## FEATURES

- Easy operation by an intuitive backlit LCD display – via a membrane keypad
- Passcode protected menus ensuring no unauthorised access
- Quiet operation via self-priming “peristaltic” type pumps with a maximum dosage capacity of 2.5lt/hour
- No flow safety protection switch integrated into clear acrylic measurement flowcell
- High quality electrodes used for the sensing of the chlorine, pH & temperature values
- Supplied mounted on a rigid PVC backboard along with a basic installation kit
- Audible sound for alarm conditions
- Complete with fitting kit for liquid chlorine

# Domestic/Residential Pool & Spa Dosing Solutions

**sugar.valley**

ECO-FRIENDLY WATERCARE TECHNOLOGY

## UVSCENIC

**LOW SALINITY ELECTROLYSIS,  
HYDROLYSIS AND UV TECHNOLOGY**

### Why the Sugar Valley UV scenic?

Achieve sparkling and healthy water thanks to the combined unique oxidation and UV radiation process

Safe & low cost disinfection

Very low salt level required - ensuring a lower corrosion risk

### How does it work?

The UV Scenic system incorporates an ultraviolet treatment plus a salt water electrolysis system that only requires a low level of salinity in the pool water 1gr per 1lt of water

Generates a totally natural anti-algae/chlorination/flocculation cycle with no unpleasant smells or tastes

No need to handle harsh chemical products, it simplifies maintenance

It guarantees a healthier and more enjoyable bathing experience

UV rays eliminate 99% of the algae, bacteria and micro organisms

Low salt electrolysis ensures the chlorine production to maintain the pool cleanliness and free of germs

Controls and regulates pH, Redox and free chlorine

Controls filtration, lighting, + 4 auxiliaries outputs

Temperature monitoring and control

Take complete control with the Vistapool App remote monitoring system

## HIDROLIFE

### SALT ELECTROLYSIS

### Why the Sugar Valley Hidrolife?

Achieve sparkling and healthy water thanks to the unique oxidation process

Safe & low cost disinfection

Low salt level required - low corrosion risk

Fully automatic water treatment control system with remote access with integrated WiFi module capabilities

### How does it work?

Simply produces chlorine from salt introduced into the pool or spa water that passes through the electrolysis chamber

The salt it requires to operate should be added to the pool/spa at a concentration of 3gr per 1lt of water

Chlorine is generated by the electrolysis process that destroys organic matter and pathogens in the water, before finally transforming back into sodium chloride (common salt)

Closed circuit system with minimal attention required

Salt Electrolysis from 3 g/l of salt

Can work with sea water

Controls and regulates pH, Redox and free chlorine

Controls filtration, lighting, pH, + 4 auxiliaries outputs

Temperature monitoring and control

Take complete control with the Vistapool App remote monitoring system

# DOSING PUMPS

## Dosing Pumps

### Blue Horizons Solar Shield Liquid Pool Cover Dosing System

The Blue Horizons Timed Peristaltic Dosing Pump is a low cost simple to operate method of dosing Solar Shield into pools based on pool surface area and timed dosing.

The peristaltic pump provides trouble free operation, being self priming ideal for dosing from the Solar Shield container. The action of the peristaltic pump acts as a non return valve preventing siphoning when dosing down hill into a sump or drain.

The pump is controlled by a sophisticated digital timer allowing up to 48 timed outputs to be programmed. The required daily dose in mL can be directly entered into the programme.

The pump is supplied complete with suction and delivery lines, an injector and safety bund.

### Peristaltic Pumps

Ideal for precise dosing at low rates. Particularly suitable for products which are prone to gassing i.e. hydrogen peroxide, sodium hypochlorite. Stenner pumps come complete with foot valve, injector and 3 metres of injection tube and spare dosing tube.

Stenner Peristaltic Pump

Order Code	Models available	Size
DOSPUMPSTEN2	Stenner 2	2.15 litres/hour
DOSPUMPSTEN4	Stenner 4	7.57 litres/hour
DOSPUMPSTEN6	Stenner 5	10.73 litres/hour

### Etatron DLX Pump

**Flow Rate:** From 1 to 5 Ltr/Hr

**Maximum Pressure:** 2 Bar

**Power Supply:** 230v standard

**Stroke Rate:** 120 impulses/minute maximum

**Pump Head:** PVDF Head. Auto-bleed options available

**Diaphragm:** PTFE

**Mounting options:** Wall mounted as standard

**Installation Kit:** PVDF Injection Valve, Foot Filter, 2m each of suction/discharge tubing, screws & plugs for wall mounting

**Order Code**

CPCETAPUMP0507

### Continuous Flocculation Kits

Flocdos plus continuous flocculation system incorporates injector, carbou lance and control panel.

<b>Kit 1- Daily/routine wear</b>	
Including: half mask respirator and filter, goggles, gauntlets, apron, wellingtons (Size 9 unless otherwise requested) hand wipes and holdall	
HSKITDR	Each
<b>Kit 2 - High Protection</b>	
Including: full mask respirator and filter, gauntlets, boiler suit, apron, wellingtons (Size 9 unless otherwise requested) hand wipes and holdall	
HSKIT2HP	Each
<b>45 Litre Spill Kit</b>	
HSKIT3SPIL	Each

## Face/Eye Protection

Order Code	Size	Case QTY
<b>Safety Goggles c/w acetate clear</b>		
HSGOGGLE		Pair

## Eyewash Stations

Order Code	Size	Case QTY
<b>Eyewash Cabinet Includes:</b> 1 x 500ml eye wash bottle, wall mountable cabinet and mirror		
HSEYESTATN		Each
Eyewash Bottle		
HSEYEBOTTLE	500ml	Each

## Signage

Order Code	Case QTY
<b>Chemical Safety Signs.</b> Other signs (i.e. prohibited) available on request	
HSSIGN	Calcium Hypochlorite each
HSSIGNHYPO	Sodium Hypochlorite each
HSSIGNBISULPHATE	Sodium Bisulphate each
HSSIGN	Sodium Carbonate each
HSSIGNFLOCPAC	Floccpac Super each
HSSIGN	Hydrochloric Acid each
HSSIGNSULPHURIC	Sulphuric Acid each
HSSIGNHYPOACID	Acid + Chlorine = gas each
HSSIGN	Aquablanc Hydrogen Peroxide each

## Body/Hand Protection

Order Code	Size	Case QTY
<b>Chemical Gauntlets (to elbow)</b>		
HSGAUNT9	7 - 10	Pair
<b>Chemical Resistant Apron c/w ties</b>		
HSAPRON		Each
<b>Chemical Resistant Boilersuit - Lightweight</b>		
HSLWSUIT	S -XXL	Each
<b>Disposable Polythene Overshoes (50 pairs)</b>		
HSOSHOES		Pack
<b>Hand wipes (150)</b>		
HSWIPES		Each
<b>Nylon Holdall</b>		
HSHOLDALL		Each
<b>Safety Wellingtons black</b>		
HSBOOTS	5 - 12	Pair

## Respiration

Order Code	Case QTY
<b>Full Face Respirator</b>	
HSFFRESP	Each
<b>Eurocannister A2 B2 E2 K2 P3</b>	
HSFFILTER	Each
<b>Half Mask Respirator</b>	
HSHMASKRESPNEW	Each
<b>Half Mask Filters A1 B1 E1 K1 P3 (2 per pack)</b>	
HSHMFILTERNEW	Each

## Bringing you The Complete Solution

CPC provides a Microbiological Water Analysis Service in accordance with current HSE guidelines. It is a minimum requirement that a UKAS accredited laboratory performs a monthly bacteriological test and a quarterly test for legionella when pool and spa water is made available to the public. This includes hot tubs used as part of a holiday let and hot tubs on display.

For more information please refer to the following publications:

### **HSG282 – Control of legionella and other infectious agents in spa pool systems**

<http://www.hse.gov.uk/pubns/priced/hsg282.pdf>

### **L8 – The control of legionella bacteria in water systems**

<http://www.hse.gov.uk/pubns/priced/l8.pdf>

---

## Microbiological Testing of Spa & Pool Water

### **Spas/Hot Tubs**

Microbiological samples for indicator organisms should be taken once a month as routine and quarterly for Legionella.

More frequent sampling may be required depending on the risk assessment.

The spa pool manager has the responsibility for ensuring that microbiological samples taken are at the appropriate intervals and the results recorded in the spa pool log book together with any remedial actions and follow up samples following an adverse report.

### **Swimming Pools**

In order to establish that the pool is without risk to the health of those using it, pool operators will need to ensure, under COSHH Regulations, that they have adequately controlled the risks from exposure to micro-organisms. To do this, adequate disinfecting of the pool will need to take place and bacteriological sampling will be required.

Bacteriological sampling will need to be taken monthly in pools in use all year round.

More frequent sampling may be required depending on the risk assessment.

Constant checking of the correct disinfection level and pH value will ensure the bacteriological quality of a well run pool. Bacterial levels should be zero (or near zero) as a 'baseline'.

More frequent samples will be necessary where a deterioration in water quality occurs. Pools that are less frequently used should be checked before use and then monthly throughout their operational period.

# Water Analysis Service

## Why use CPC?

CPC delivers to its customers a simple complete package that helps you manage your water testing. Our yearly subscribers receive :-

- **Account set up and support from our dedicated team**
- **Yearly supply of sterilised sample bottles**
- **Pre-printed labels for all sample bottles**
- **All required Royal Mail next day delivery packets**
- **Easy to view tracking report**
- **Central certificate backup**
- **Access to CPC market leading technical support resource**

Our selected partner brings extensive experience in the microbiology of water providing UKAS accredited analysis for the isolation and enumeration of a number of micro-organisms that are important in assessing the safety of water.

Our range of services includes:

Legionella & total viable counts analysis for spas in accordance with L8 HSG274 parts 1-3

24 Hour Legionella analysis by PCR

Pseudomonas Aeruginosa, Coliform, total viable counts, Cryptosporidium analysis for swimming pools, hot tubs and spas.

### Yearly Gold Package

12 x TVC @ 37°C

12 x Coliforms

12 x E.coli

12 x Pseudomonas Aeruginosa

4 x Legionella

## Water Analysis Service Sample Procedure

1. Dip the bottle into the water below the waterline and fill to the top.

2. Complete the label which is on the bottle.

3. Place the bottle into the box.

4. Place the box into the watertight envelope and seal.

5. Post into a standard Post Box.

# TECHNICAL SUPPORT

Our customer service and technical support team are here to help you get the best from our market leading, innovative water treatment products & dosing equipment. Whatever your enquiry or question, we are here to help, with over 300 years of cumulative industry experience.

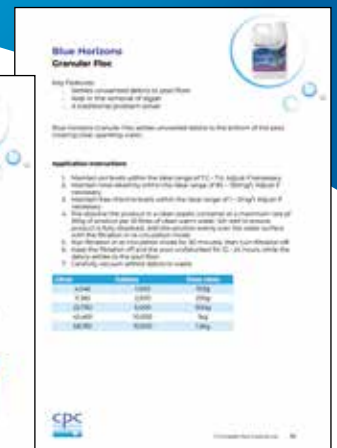

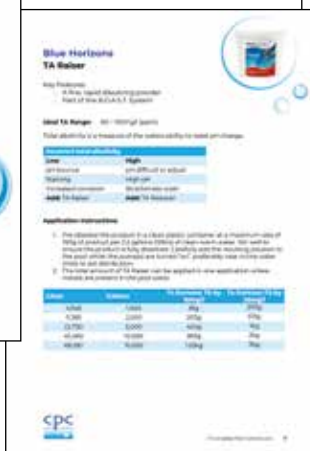

We also have 4 regional Account Managers who can offer field support as and when required.

It is this investment in technical support which puts Complete Pool Controls at the forefront of the wet leisure industry.

## Full Range of Dealer Chemical Manuals

The Dealer Chemical Manual includes technical information on all Blue Horizons, AquaSParkle, Gold Horizon and Aquablanc products.

## BISHTA ACCREDITED WATER HYGIENE MANAGEMENT COURSE

Enhance  
confidence  
skills

Build  
knowledge

Boost  
team  
morale

## Join us because ...

Training is a part of every companies' portfolio. It ensures your team has both the knowledge and the confidence to carry out their tasks professionally and effectively. Investing in training opportunities for your team shows that you support their personal development, value them as a member of your staff and understand that they are an integral part of your business' success.

Discounts  
available for  
CPC  
customers  
and BISHTA  
members

### Additional benefits

- ✓ Standardise the team's approach to water management
- ✓ Ensure safe and economical use of chemicals and equipment
- ✓ Elevate the customer experience
- ✓ Foster good working relationships and effective team work

# Bespoke Tailor-Made Training for Pool and Hot Tub Professionals

## Blue Horizons, AquaSParkle and Gold Horizons Product Training

Full product training is available for our dealers, example of the subjects covered are listed below:

- Introduction – filling the spa
- Testing
- Water Balance
- Draining and re-filling
- Disinfection
- Shock Treatment
- Specialities

**bluehorizons** 

**AQUASparkle** 

  
**Goldhorizons**

## Commercial Pool and Hot Tub Plant Room Training

CPC offer full product training on its commercial water treatment range, specific to the needs of the individual customer. This training can be held at your venue or at our facility in Cheltenham. Other training and support services we offer include the following:

- Plant room site surveys and support
- Best practice advice on water chemistry & chemical dosing equipment
- Advice on chemical storage, handling and chemical segregation
- Troubleshooting
- Advice on chemical selection
- Water testing and record keeping
