

Cleanliness. Service. Outstanding quality.

# The story in retrospect.

**mariner** 

The story in retrospect.

# Our models.

1975

## submatic

The revolution in pool floor cleaning: thanks to the submatic, they can be cleaned remotely.

1978

## Introduction of the product brand 3S

Sommer Schenk Suisse introduces the product brand "3S".

1979

## standard

Small, handy, powerful: the standard is ground-breaking for the large model range to come.

1982

## aps 2000

Automatic lane-by-lane cleaning using the earth's magnetic field.

1990

## nova

First of its kind in the world: the first automatic professional device for smaller pools and indoor pools based on low voltage.

1997

## navigator

Thanks to "Navi", the world first enables almost complete, automatic cleaning of pools with complicated shapes.

2017

**proliner and proliner plus**

The clubliner design is adapted to a compact device for larger pools – for more filter area, more suction width and more suction power.

2018

**proliner navi3**

6 lamella filter cartridges with the largest filter area available on the market relieve the stationary filter system.

2019

**proliner natur and proliner tube**

The proliner natur cleans natural pools with high pressure. The proliner tube is the solution for heavily soiled pools.

2006

**topliner and navigator II**

The introduction of the two top models completes the trend-setting range of the Mariner 3S family.

2010

**clubliner and clubliner plus**

The innovation in compact form opens up new market segments such as hotel/wellness pools, thermal/school pools etc.

2014

**Pool cleaner with high pressure unit**

Stubborn dirt is loosened from the pool floor with high pressure and sucked into the filter box.

1998

**compact 400 and progress**

The two new device types correspond to the latest standards with regard to safety extra-low voltage (< 30 V DC).

2002

**compact 600**

The compact 600, the big brother of the compact 400, expands the range of compact cleaners.

2005

**compact yellow**

The price-reduced devices with adjustable brushes are fluid dynamically optimized – the suction power increases.

Swiss Quality.
