PLUG & PLAY
PLUG IN AND ENJOY !

Place your Poolican wherever you like, connect it to the hydraulic system and then plug it into a mains socket. Then all you have to do is enjoy!

POOLICAN : And if you made life easier for yourself ?

Do you feel overwhelmed with all the equipment needed to keep your pool clean and functional? Poollex has the answer.

The Poolican, an intuitive device, combines the three essential elements for a healthy pool. And it goes even further with a 4th element that ensures the comfort of users with a water that is always at the right temperature: the heat pump!

The treatment of your pool is entirely taken care of by a single device!

The Poolican is a compact device that is placed near the pool and plugged into a mains socket. Inside, you will find a circulation pump, a cartridge filter, a salt electrolyser and a 5kW Full Inverter and reversible heat pump. Once installed, you can easily control your pool from your smartphone.

Would you like to adopt a more civic-minded routine? Poollex accompanies you in your approach.

Thanks to the electrolyser, the treatment of your pool is more natural, free from the disadvantages of chemicals. The heat pump is equipped with Full Inverter functionality for continuous operation without any peak in consumption, which considerably reduces your energy consumption.
