Quality that floats ...
since 1968

A few good reasons to choose for an OASE automatic pool cover:

ECONOMICAL

Costs savings on

- heating (insulation/solar)
- water consumption
- chemical products and maintenance
- filtration
- dehumidification and air conditioning (indoor pools)

Your investment will be recovered within the shortest time!

MORE COMFORTABLE

- automatic operation
- no algae formation in the slats (patented anti-algae hinge)
- pleasant water temperature
- extends the swimming season
- self-cleaning system
- winter protection
- less maintenance
- eliminates chemical odours
- works soundlessly

In a nutshell: A real luxury!

MORE SAFETY

- patented anti-algae safety hinge (83mm/bends only in one direction/more capacity)
- operable only by authorised key (key lock)
- low voltage motors (24V)
- in combination with SS handrails or a specially constructed shelf below
- coverlock

Appropriate supervision is always advised!

INSTALLATION OF YOUR AUTOMATIC COVER

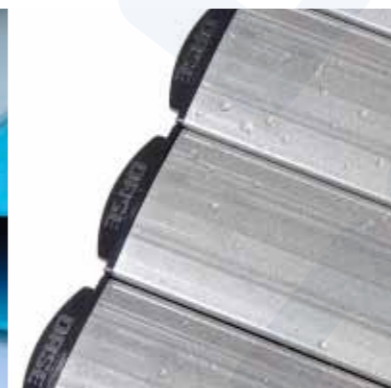

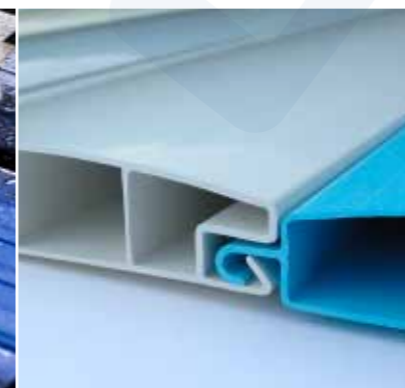

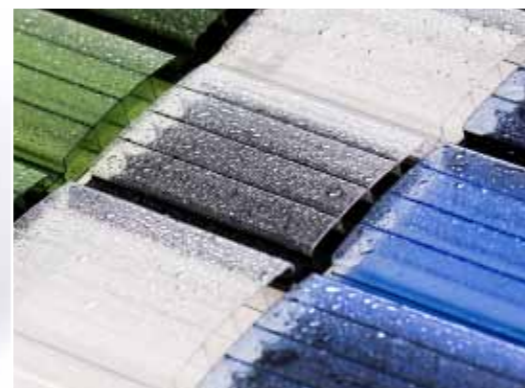

- by your professional pool builder
- above or below ground
- suitable for new or existing pools
- adaptable to different shapes (custom design)
- external or internal motors

Your pool benefits from considerable added value!

Choice of profiles

- different types: polycarbonate (PC) or PVC
OASE PVC, OASE PC, OASE DELUXE (anti-algae), OASE PRESTIGE (silver), OASE TOP-UV
- a large range of colours
- classical or patented anti-algae safety hinge
- different width of profiles (60mm, 63mm, 83mm)
- different thickness (11mm to 16mm)
- NF on request
- solar
