Discover Platinum spas – Elevate your wellness journey

Where innovation meets luxury for unrivalled relaxation

Welcome to the world of Platinum spas, where cutting-edge technology and luxurious design come together to create the ultimate spa experience. With over a decade of industry expertise and hundreds of thousands of satisfied customers worldwide, Platinum spas is dedicated to delivering the best in relaxation, hydrotherapy, and wellness. Whether you seek to unwind or rejuvenate, our range of hot tubs and swim spas are crafted to transform your wellbeing.

At the heart of our collection are innovative features that set Platinum spas apart. From our advanced hydrotherapy systems and intuitive user controls to energy-efficient design and premium materials, each model is built with your comfort and enjoyment in mind. Our dedication to quality ensures every spa delivers unmatched performance, providing a sanctuary of calm that you can enjoy year after year.

Explore our three exceptional ranges—Deluxe, Premium, and Luxury—each offering a unique blend of indulgence and innovation. Whether you're looking for classic comfort or state-of-the-art features, Platinum spas has the perfect hot tub for you. Discover the future of wellness today and take your relaxation to the next level with Platinum spas.

Your wellness is important to us

We focus on improving wellness and offer a global range of award-winning hot tubs and swim spas to suit every customer's needs.

Our hot tubs and swim spas aim to improve wellness, help you relax, spend quality time with loved ones and lead happier and healthier lives.

What are the benefits of a hot tub and swim spa

A hot tub or swim spa not only brings you hours of enjoyment but has a number of health benefits too. It can help to reduce stress and anxiety, relieves headaches, helps to burn fat faster and is even great for your skin.

Hot tubs can boost your circulation and reduce strain on the heart, lowers blood pressure and can even help improve your sleep.

Hot tubs are also great if you have aching joints from injuries, arthritis or other conditions. The warm water and bubbles can help to soothe any aches and pains, often to lasting effect.

A swim spa also gives you the benefit of exercise as well as relaxation. They can form an important part of the day to day fitness regime of anyone that wants to stay in good shape.

Swim spas can offer different exercise stations, either swimming or rowing against the powerful built-in jets will provide an intense workout.

Soothe away your stresses with a soak in a hot tub or swim spa.

Who are Platinum spas

Platinum spas offers the widest choice of award-winning hot tubs and swim spas in the Superior Wellness portfolio.

Taking pride in the quality of our hot tub and swim spas and using the latest technology on the build and design work to create cutting edge products.

Our Values

Our brand values at Platinum spas are hugely important to us and we live and breathe them every day:

Quality

Every hot tub and swim spa we produce is of the highest quality.

Choice

We focus on improving wellness and offer a wide range of award-winning hot tubs and swim spas to suit every customer's needs.

Care

We put our customers, partners and team members at the heart of everything we do.

Innovation

Striving for world class design and features with innovation at the forefront with two decades of experience.

Why choose Platinum spas

As a leading brand for over a decade, Platinum spas continues to innovate and inspire. With hundreds of thousands of satisfied customers worldwide, we remain dedicated to delivering the very best in hot tub technology and wellness.

From PlatinumRevive to PlatinumPure, PlatinumGuru, and PlatinumMelody, our spas are designed to transform your home into the ultimate relaxation retreat.

Discover the Platinum spas Collection today and elevate your wellness with world-leading luxury, innovation, and energy efficiency.

Buying with confidence

Quality reassurance

With Platinum spas, you can have confidence in the components used. We are proud to partner with industry leading suppliers to bring you the highest quality hot tubs with the best hydrotherapy experience. Superior Wellness, world's fastest growing hot tub manufacturer, provides the warranty for Platinum spas.

Structure with lifetime warranty*

Hot tubs are often subjected to extreme changes in weather, so having a solid structural frame that doesn't warp, shrink or contract in such harsh conditions is incredibly important while they are supporting vast volumes of water.

All Platinum spas hot tubs are built around an impressive tubular stainless steel framework, due to its robustness we are proud to give a lifetime warranty* on its integrity.

Hand quality craftsmanship

We take care and pride in every hot tub we make with each one uniquely crafted by hand during the build.

Our skilled teams use their hands to ensure every detail is to the highest quality standard, where this isn't possible, we use the latest technologies to maintain our high levels of quality. The stainless steel structure is hand welded for each spa with the fibre-glassing hand sprayed then hand rolled. All plumbing is assembled by hand and manually glued and fitted and some of the jet holes are hand drilled or manually cut. Our brand is consistent with all hot tubs built to the same high standard, but each hot tub is actually custom made with many of the processes by hand.

Quality and Innovation

Built to last.

At Platinum spas, quality is paramount. Designed in the UK and crafted in energy-efficient, state-of-the-art facilities, our hot tubs are built with the finest, most durable materials. Every detail is engineered for performance, ensuring the ultimate in luxury, efficiency, and longevity.

Warranty overview

***Lifetime warranty on the shell structure of the spa:** Platinum spas warrants the structural integrity of the spa shell against water loss due to defects in material or workmanship.

***5-7 years warranty on the shell surface of the spa:** Platinum spas warrants the shell surface of the spa against blistering, cracking, and delamination. 5 Years Deluxe and Premium Ranges, 7 years on Luxury range.

2-3 years warranty on Control box and display module: Platinum spas warrants the display and the spa control box against defects in materials and workmanship. This warranty does not cover fuses, bulbs, and gaskets. 2 Years Deluxe and Premium Ranges, 3 years on Luxury range.

2-3 years on pumps: Platinum spas warrants the jet and Circulation pumps against defects in materials and workmanship. 2 Years Deluxe and Premium Ranges, 3 years on Luxury range.

1-2 year warranty on plumbing: Platinum spas warrants the plumbing against leaks from fittings, pipes, drains, joints, internal plumbing, bonded parts, and jet housings. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

1-2 year warranty on the cabinet of the spa: Platinum spas warrants the cabinet against cracking or peeling of the surface due to defects in material or workmanship. Fading and weathering of the surface over time are considered natural and are not covered under warranty. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

1-2 year warranty on the ozone generator: Platinum spas warrants the ozone generator against defects in materials or workmanship. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

1-2 year warranty on the audio system components: Platinum spas warrants the factory-installed audio components (Power supply, speakers, wires, Bluetooth modules, etc.) against defects in materials or workmanship. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

1-2 year warranty on LED lights: Platinum spas warrants the factory-installed LED lights against defects in materials or workmanship. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

1 year warranty on thermo cover: Platinum spas warrants the thermo cover against defects in materials or workmanship.

1-2 years warranty on plastic components: Platinum spas warrants the filter housing, pillows, diverters, waterfalls, and cup holders. Defects due to improper water chemistry are not covered. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

1-2 years warranty on jets: Platinum spas warrants the jets against defects in materials or workmanship. This warranty does not cover jet failures due to lack of maintenance or poor water chemistry. 1 Year Deluxe and Premium Ranges, 2 years on Luxury range.

* Lifetime warranty period 10 years.

* Any damage found must be reported within 30 days with images. Any damage not reported and in time worsens maybe rejected.

Control at your fingertips

We use Balboa as our control system, recognised globally for its high quality and innovation always providing the latest technology. On every Platinum spas hot tub and swim spa we use Balboa heaters, control panels and control board.

Platinum spas control panels have WIFI as an option where the customer can control the hot tub from any 3G enabled location. With colour screen and directional key pads users can go through their settings and have their hot tub or swim spa set up perfectly for their needs with ease.

Spa Touch 2T

Platinum Spa Touch

Platinum spa touch

We are excited to unveil the 7" Platinum spa touch, the latest advancement in our Spa Touch panel series.

The 7" Platinum spa touch screen offers a stunning, intuitive graphical interface designed to elevate your spa experience. Powered by an Arm® dual-core 800MHz processor with an additional co-processor, this advanced display merges cutting-edge performance with unparalleled ease of use.

With integrated Wi-Fi, you can control your spa remotely from your mobile device, whether you're relaxing at home or traveling across the country. Manage your settings, monitor performance, and enjoy total control at your fingertips.

Transform your hot tub experience with the next evolution in spa technology.

Hydrophobic Screen

Captive Touch

Built In Wi-Fi

Bluetooth Connectivity

Jet design and formation

More jets do not equal a better hydromassage, but the right jets do. Utilising the perfect mix of air and water – to deliver a massage that reduces stress and lower back pain, improves sleep and post exercise recovery. It will also alleviate restless leg syndrome, cramps, arthritis and fibromyalgia, improving your overall wellbeing.

A regular hydromassage routine can be more beneficial than you realise.

Seats designed to follow the contours of the body and recessed jets are placed to perfectly match the muscle structure of the human form, which delivers a comfortable, premium hydromassage experience for most body types.

Deluxe range: Serenity meets style

The Deluxe range delivers the perfect balance of style and function. Featuring six arch jets that are precisely positioned to target key muscle groups, these jets offer gentle yet effective hydrotherapy to ease tension and promote relaxation.

Additionally, the Deluxe range is enhanced by beautiful fountains, creating a soothing visual and auditory experience. With thoughtful designed headrests, cupholders, and diverters, this range offers a complete sensory retreat.

Premium & Luxury ranges: Advanced hydrotherapy power

In our Premium and Luxury ranges, we elevate hydrotherapy with slimline recessed hydrotherapy jets.

These powerful jets are designed to deliver deep tissue massage and therapeutic relief where you need it most. The infinity fountains and waterfalls in both ranges create a tranquil, flowing water experience, enhancing your relaxation. The luxury embossed headrests provide added comfort, ensuring you can fully unwind during each session.

Energy efficient insulation

Our Platinum Premium Shield* features on all Platinum spas hot tubs.

This combines five different types of insulation to retain the heat within the cabinet by the Superior Heatlock Insulation Process (SHIP) providing a considerable difference in the heat retained in the hot tub as well as a reduction in energy costs.

By reflecting the heat back inwards, the wasted heat created by the pumps and other components can be recycled. The heat is then used to help maintain the temperature through heat transfer via the vast amount of plumbing, this assists with the overall running costs.

Tested to CEC standards

The manufacturer has certified this product to the California Energy Commission in accordance with California law.

Platinum Premium Shield Explained

- ✓ Floor insulation
- ✓ Side panel insulation
- ✓ Recycle heat-lock
- ✓ 360 Inside foil wrap
- ✓ Insulation foam spray

Platinum Thermo cover

Built for safety, efficiency, and all-weather protection.

Energy-Efficient Insulation with Polystyrene Layers

Our covers are engineered for outstanding energy efficiency, thanks to multiple layers of high-quality polystyrene foam inside. This advanced insulation minimises heat loss, helping to keep your water warm for longer and reducing energy costs.

All-Weather durability with weatherproof fabric and polystyrene protection

Our hot tub covers are built to endure all types of weather, featuring a high-quality weatherproof fabric that withstands rain, snow, and UV rays. The polystyrene layers are carefully wrapped in a polyester bag, which adds an extra layer of durability by protecting against moisture absorption and extending the lifespan of the cover.

Stainless steel spring support

For added strength, each cover includes a stainless steel spine in the middle of its structure. This spine reinforces the cover, providing structural support that prevents sagging and keeps it securely in place even in harsh conditions.

UV and Weather protection

Each cover includes a protective cap that shields it from sun damage, snow, rain, and debris. This protective layer helps prevent fading and material degradation due to prolonged UV exposure, maintaining the look and durability of our weatherproof fabric.

Our hot tub covers are designed for safety, efficiency, and durability in all conditions. With premium materials and reinforced design elements, they offer reliable protection for a clean, energy-efficient, and comfortable hot tub experience year-round.

Platinum Premium Shield Plus

Only available in our Luxury range, Platinum Premium Shield Plus sets a new standard for efficiency and relaxation, providing a perfectly cosy spa experience while saving you on energy—no matter the season.

Our Platinum Premium Shield Plus insulation is engineered for unmatched warmth and energy efficiency, exclusive to our Luxury range. This advanced insulation system features:

Enhanced side panel insulation with thicker layers, designed to trap and retain warmth efficiently. This prevents heat from escaping through the sides, keeping your water at an ideal temperature longer and lowering energy costs.

Insulated piping within the cabinets for consistent performance, even in colder climates. By insulating the internal pipes, we ensure the water flows freely, maintaining optimal heat as it circulates and reducing stress on the heating system.

Thicker board insulation on top of a robust foil ABS base, creating an extra layer of protection that minimises heat loss from the base while reinforcing the tub's structure.

PlatinumEverBase

Platinum spas are built from the ground up, with a rigid pan-base which is made from a tough ABS plastic that is further strengthened with fibreglass giving superb structural integrity along with longevity.

The addition of reflective insulating bubble foil acts as a thermal sock and is designed to eliminate the cold penetrating the inside of the spa by bouncing the cold away.

PlatinumEverFrame

Platinum spas is designed to be used anywhere in the world and to withstand all environments. To meet these challenging demands, the spas are built with a tubular 304 grade stainless steel frame.

By using a stainless-steel frame, the spa is more stable and therefore will not expand, contract, twist or warp in changing temperatures or weather conditions that a hot tub may be subjected to.

Being tubular, EverFrame is perfectly designed to absorb and evenly disseminate the weight of the largest modern hot tub, especially with the vast volumes of water they can hold.

Platinum innovations

At the heart of our collection are three pioneering technologies, designed to elevate your spa experience:

At Platinum spas, our Luxury range introduces cutting-edge innovations for a superior spa experience. The PlatinumRevive system combines hydrotherapy with red light therapy, targeting reflexology points in the feet to promote healing, reduce inflammation, and enhance relaxation. Paired with PlatinumPure, a quadruple-layered purification system using UV, ozone, and mineral ionization for pristine water, and PlatinumGuru, a real-time water monitoring system, our technology ensures perfect water quality and a deeper sense of wellness with every soak.

PlatinumRevive

Exclusive to the Luxury range, PlatinumRevive is a breakthrough in hydrotherapy, combining red light therapy with targeted foot jets for enhanced healing, reflexology, and relaxation, focusing on vital pressure points.

PlatinumPure

Available only in the Luxury range, PlatinumPure is the purest water purification system, offering quadruple-layer protection with advanced UV sanitisation, an optimised Ozone system, and our proprietary PlatinumPure Mineral Ioniser.

PlatinumGuru

Designed exclusively for the Luxury Collection, is our advanced water monitoring system. It continually tracks your water quality, providing real-time feedback and alerts to ensure your spa water remains pristine.

PlatinumRevive

A Revolution in Hydrotherapy

PlatinumRevive, our patent-pending innovation exclusive to our Luxury range, is the first hydrotherapy system that combines red light therapy with foot jets, focusing on reflexology points for deeper healing and relaxation.

How red light therapy works: Using specific wavelengths of red and near-infrared light, this therapy triggers cellular mechanisms that promote healing, reduce inflammation, and rejuvenate cells. It accelerates wound healing, alleviates pain, and improves skin health.

The Importance of foot therapy: Reflexology teaches that the feet contain key pressure points connected to various parts of the body. By concentrating red light therapy on the feet, PlatinumRevive stimulates circulation, relieves tension, and promotes overall healing.

Accelerate healing, as in cell reproduction and regeneration

PlatinumPure

The Pinnacle of water purity

Exclusively crafted for our Luxury range, PlatinumPure sets a new standard in water purification, providing four layers of advanced protection with minimal effort:

Advanced UV sanitiser: Eliminates harmful bacteria and viruses, reducing the need for harsh chemicals while maintaining a clean, safe soak.

Ozone system: Breaks down organic impurities, ensuring your water remains crystal clear and inviting.

Ozone mixing chamber: Maximizes the effectiveness of ozone by increasing contact time with the water, enhancing the purity process.

PlatinumPure mineral ioniser: Enriches the water with natural minerals, offering longer-lasting cleanliness that's gentle on both skin and the environment.

With PlatinumPure, you'll enjoy pristine water with every soak.

Combining the four powerful elements of PlatinumPure—Advanced UV Sanitiser, Ozone System, Ozone Mixing Chamber, and Mineral Ionizer—with our state-of-the-art filtration system delivers unmatched water quality. This comprehensive approach ensures that every stage of water purification is maximized, from neutralizing harmful microorganisms to breaking down organic impurities and infusing the water with natural minerals. The result is crystal-clear, balanced water that remains clean for longer, with fewer chemical additives required. This not only means a safer, more enjoyable soak for you and your family but also less maintenance and more time to relax. With the synergy of PlatinumPure and our advanced filtration system, you can trust that every soak will be as pure and refreshing as the first.

4x the purity giving you the cleanest water to date

PlatinumGuru

Perfect water, always

Exclusive to the Luxury Collection, continuously tracks water quality, providing real-time feedback to ensure your spa water is always in perfect condition, enhancing your overall wellness.

No more guesswork! Relax in your hot tub knowing that the chemical is correct, helping to protect you, your family, your spa and the equipment.

Ensures fresh, clean and clear water every time.

Platinum Illumination

Illumination is a key component of a fulfilling hot tub experience. Chromotherapy is a science and refers to the positive influence lights have on the body and mind.

All Platinum spas models are fitted with an array of multi-coloured LED lights that can be simply controlled with a push of a button. If you are in the mood to have an individual colour or want our mood lighting where the colours softly fading between each other, the choice is yours.

Platinum Illumination+ — Elevate your hot tub experience

Our Luxury range features the Platinum Illumination+ system, putting complete lighting control at your fingertips. Whether you're in the mood for serene, calming colours or a vibrant, party-ready light show, the choice is entirely yours. It's the attention to detail that transforms your hot tub into a personalised haven.

Simple navigation, Unmatched customisation

Effortlessly transition between different zones or groups of lighting with ease. The 3-Zone Lighting Control lets you tailor each area of your hot tub to match your mood, offering unlimited naming possibilities to keep things uniquely yours.

Limitless colour options

Choose from over 16.7 million colours to create your ideal ambience. Whether you're looking to relax or energise, stunning colour groups help you elevate any mood. With the ability to save your personalised lighting zones, you can illuminate your hot tub just the way you like, time and time again.

Complete control at your fingertips

From single-colour displays to immersive light shows, take your lighting experience to the next level. Easily adjust brightness and intensity to suit the moment, offering a sensory experience that's entirely your own.

Transform your hot tub into a sanctuary of light and colour, designed by you, for you.

PlatinumMelody

There is nothing better than a soothing massage while listening to your favourite music, radio station, podcast or even a book and achieving this has never been easier thanks to our PlatinumMelody system.

This high-quality Bluetooth system is fitted as standard to the Deluxe and Premium models and is very simply to use. Simply search, then connect your smartphone or model device to the hot tubs Bluetooth and away you go.

Luxury models, Immersive sound experience

Elevate your relaxation with the integrated sound system in every Platinum spas Luxury range hot tub. Featuring integrated Music system within the control panel, two high-quality speakers, a powerful subwoofer, and two advanced transducers, this system transforms your hot tub into a full-body auditory experience. The transducers turn the hot tub shell into a resonating speaker, allowing you not only to hear your favourite music but to feel it pulse through your body as you soak. Whether you're unwinding to gentle melodies or energizing beats, Platinum spas creates a unique sensory experience where sound and water unite for ultimate relaxation.

PlatinumHydromassage

Hydrotherapy is one of the main reasons why people purchase a hot tub. It's important to offer a variety of jet configurations, and therefore each seat within our Platinum spas hot tubs offer different styles and layouts of jets.

From reverse mould shoulder jets, to larger pulsating back jets and even powerful foot jets for great reflexology we have designed seats to produce a massage for every requirement.

We feel that you should be in control of the massage you receive, so each jet can be turned up or down to allow the pressure you want. We also have Air Valve controls to introduce air into the water stream which makes the jets more powerful or you can reduce it for a subtler massage.

PlatinumSuperior-Zone

Water quality is extremely important and the addition of our Superior-Zone helps keep your water crystal clear, whilst also reducing the amount of sanitising chemicals used.

Longevity is what our patented ozone has been designed for and it will provide years of worry-free purification, long after many ozone generators have given up. Working quietly in the background our Superior-Zone is looking after your water both day and night, meaning the hot tub is ready to use at any time.

Superior-Zone is fitted as standard on all Platinum Spa models, as we believe good water clarity shouldn't come at an additional cost.

PlatinumLiquidEffects

Relaxation comes from many forms and there is nothing better or relaxing when looking at a waterfall or fountains and enjoying the sound they project. We have taken inspiration from these to produce a variety of Liquid Effects to enhance your soak time and relaxation. With pop up fountains and wide waterfalls offering different visual and sounds effects.

For the night time bather, we have added Platinum Illumination so you can take advantage of wonderful fountains and waterfalls as all Liquid Effect features are backlit enabling you to view the stunning dancing water.

The Platinum Spas collection

Welcome to the Platinum spas Collection, where hot tub design and technology reach new heights. With innovation at our core, Platinum spas has sold hundreds of thousands of hot tubs to satisfied customers worldwide. As industry leaders for over a decade, we are experts in relaxation and hydrotherapy, committed to enhancing your wellness routine with cutting-edge features and unrivalled comfort.

We put our customers at the heart of everything we do and strive to go beyond expectations.

We are here to support you every step of the way and advise you on how to look after your hot tub so you can enjoy it for many years to come. Refer back to your hot tub manual for troubleshooting issues and the chemical guide for maintenance tips. Alternatively, take a look at our Frequently Asked Questions for answers to our most popular questions.

Luxury range

The Ultimate in perfection

For those who demand the best, the Luxury range represents the pinnacle of spa craftsmanship and technology:

PlatinumRevive red light therapy: Exclusive to the Luxury range, this world-first system combines red light therapy with foot jets for targeted reflexology (available on selected models).

PlatinumPure quadruple purity: Also exclusive to the Luxury range, UV sanitisation, Ozone, and the PlatinumPure Mineral Ioniser deliver the cleanest water possible.

7" Personalised Platinum* spa touch: Intuitive controls allow effortless adjustment of your spa settings.

PlatinumMelody sound system: Experience top-tier audio with a subwoofer, Transducers, Balboa BBA amplifier, and premium speakers.

LED corner panels: Ambient lighting adds to the spa's atmosphere.

Wi-Fi Enabled: Control your spa from anywhere with built-in Wi-Fi.

PlatinumGuru: Ensures your water remains in perfect condition.

Luxury models: Capri, Portofino, Palermo and Florence with two more arriving in 2025.

The perfect accessories for your purchase

Elevate your Platinum spas hot tub experience with accessories designed to enhance both function and style. Our carefully selected range adds outstanding value, providing useful features without ever compromising on aesthetics—so your relaxation space is as stylish as it is comfortable.

Cover Lifters

Our patented cover lifter systems make opening and closing the spa cover simple, helping maintain your hot tub, extending the life of your cover, and, most importantly, making it easier for you to enjoy your Hot Spring spa every day.

VX2 Cover Lifter

The VX2 Cover Lifter is a premium, high-quality accessory designed to make removing and replacing your hot tub cover a breeze. Engineered for ease of use, the VX2 is perfect for hot tub owners who want to enjoy their spa without the hassle of handling a bulky, heavy cover. This best-selling cover lifter combines functionality with thoughtful design features, ensuring that you can effortlessly manage your hot tub cover while protecting it from damage. With the added convenience of integrated towel and robe hooks, the VX2 is a must-have addition to any hot tub setup.

Undermount

The Under-mount - Cover Support is a practical and efficient solution designed to streamline the process of managing your hot tub cover. Engineered for convenience, this cover lifter sits neatly underneath your hot tub, offering robust support while minimising the effort required to lift and lower the cover. The Cover Lifter combines functionality with a space-saving design, making it an ideal choice for hot tub owners who want a reliable, easy-to-use accessory that enhances both the longevity of their cover and the overall hot tub experience.

Caddy Cover Lifter

Caddy Cover Lifter - JZ001 is a versatile and practical solution designed to enhance your hot tub experience. Engineered with a focus on convenience and durability, this cover lifter simplifies the task of removing and replacing your hot tub cover, allowing you to enjoy your spa with minimal effort. The JZ001 combines robust construction with a sleek design, ensuring it not only performs well but also complements the aesthetic of your hot tub area. This lifter is an essential accessory for any hot tub owner looking for a reliable and easy-to-use cover management solution.

Frequently Asked Questions

Hot tub FAQs

What is a 13 amp or Plug and Play hot tub?

Plug and play hot tubs are suitable for areas where you are unable to get a 40 amp Power supply to it. A 13 amp hot tub will run off a standard 3 pin plug, which will need be sourced and supplied by you. The hot tub needs to have its own circuit from the main distribution board, the supply should not be shared. You will need to install a 13 amp outdoor waterproof plug socket with RCD protection. For full details of the Electrical requirements, check with your hot tub retailer.

What is a 32 amp hot tub?

The larger the hot tub the more power and electrical current that is needed. When you go up to three or four pumps for hot tubs you may be looking at a 40-amp feed. There is no such thing as a 32-amp hot tub. 32 amps is the amount of power that is required to run a standard hot tub that will have a heater and a couple of pumps running simultaneously. With a 32 amp you could use it for three or four hours and your heater won't turn off and the temperature will remain the same.

How many seats do I need?

This is different for each customer depending on who will be using it – a couple, family or friends. Even if there will only be two people using the hot tub, different options of seats will allow you to soothe different muscles. You may also require a greater number of loungers rather than seats. We have varying options and can help you decide.

How often should I drain my hot tub?

How often you drain your hot tub depends on a number of factors, including how frequently the spa is used, the quality of the water used to fill it, and how well the water is maintained. For optimum performance, we generally advise draining, cleaning, and refilling the hot tub every three to four months.

I would like to sink my hot tub into the decking, is this possible?

We do not advise you to position your hot tub with decking built around it or underground as it can significantly impact future maintenance requirements. If you wish to do this, we advise you consult a structural engineer to ensure that your decking is capable of safely and adequately supporting the full weight of your hot tub when in use. The hot tub should be 200mm proud of the top of the decking to allow for the cover to clip onto the side.

What are the access requirements?

It is the customer's responsibility to ascertain whether there is adequate space for the delivery of the hot tub. You must have a minimum width of 1m and a minimum height of 2.4m. Please check the full access requirements with your hot tub retailer.

Swim spa FAQs

Does my swim spa come with a drainage outlet?

Yes, your swim spa does come with a drainage outlet that is located at the bottom of the swim spa. However, a quicker way to drain your swim spa would be with a submersible pump.

How hot does a swim spa get?

The water temperature can be set up to 40 degrees. The ideal water temperature for swimming is around 30 degrees but aquatic therapy should be up to 33 degrees. If you want to lounge in the therapy seats and relax then we recommend you set it to 37.5 degrees.

In the swim spas which have dual temperature units, where there is a barrier between the swim area and the hot tub; the hot tub side of the unit can be heated to 40 degrees.

Can someone sit in a seat whilst another person is swimming?

Yes, you may get a little wet from any splashes but sit back, relax and enjoy watching them swim or workout.

Real customers, Real relaxation

At Platinum spas, we're proud to see our hot tubs becoming the centrepiece of so many homes. Whether it's a stylish city garden, a cosy countryside retreat, or a modern outdoor living space, our hot tubs bring a touch of luxury and relaxation to any setting. These real-life installations showcase just how versatile and beautifully integrated a Platinum Spa can be in your personal space.

Each Platinum Spa is designed with innovation and craftsmanship, transforming your outdoor area into a private haven for wellness and rejuvenation. Our customers continue to inspire us with how they've made our spas their own, creating spaces for relaxation, entertainment, and family time.

What our customers say

"We couldn't be happier with our Platinum Spa. It's the perfect way to unwind after a long day, and the jets are incredible for soothing sore muscles. The whole family loves it, and it looks stunning in our garden!"
– Sophie and James T.

"Our hot tub has truly transformed our outdoor space. We installed it on our decking, and it's become the focal point for gatherings with friends. The build quality is exceptional, and the massage functions are beyond anything we've experienced before."
– Darren P., Surrey

"I love how the Platinum Spa has enhanced our wellness routine. We use it almost every evening to relax, and the water is always crystal clear with minimal effort. It's the best investment we've made for our home."
– Laura M.

"I was amazed at how seamlessly the spa integrated into our patio. It looks elegant and offers a five-star experience right in our garden. The customisable jets are a real game changer for getting the perfect massage."
– Rebecca and David H.
