

World-class composite one-piece pools built like no other

**AQUA  
TECHNICS  
POOLS**

# Join our exclusive dealer network

Aqua Technics manufactures the most advanced and highest-quality composite pools in the world. Our pools are precision-engineered, exceptionally robust yet lightweight and maintain their vibrant appearance year after year. We are actively seeking partnerships with ambitious and hungry wet leisure businesses to exclusively represent our state-of-the-art pool brand in their locale.

**Graphene Nano-Tech** - we've introduced the world's strongest material, graphene, into every pool, marking a ground-breaking advancement with our patented technology that completely redefines the construction of composite one-piece pools.

**Pool ColourGuard® surface technology** - the surface of our pools is protected with Pool ColourGuard®, patented dual-layer technology that resists fading caused by UV rays and chemicals. Over the years, Pool ColourGuard® technology has proven its resilience under the harsh Australian sun, acting like sunscreen for your pool and ensuring long-lasting colour vibrancy.

**Stronger pools** - our pools are designed for unparalleled strength. They feature 200mm edge

beams and fully supported steps and bench seats. With our proven track record of installing well over 1,000 pools annually around the world, the fortitude of our pools is an integral part of their design.

**Decades of expertise** - with over 48 years of dedicated experience in designing, manufacturing and expertly installing pools, we boast a remarkable track record of success in building and installing over 63,000 pools worldwide. Our commitment to continuous improvement drives us to make our pools better and stronger to last longer.

**Marketing support** - our commitment to your pool business encompasses a range of efforts aimed at boosting your brand. We use our website, social media and Google Ads to drive lead generation.

Use our My Pool Design App with your customers to show them our great pools. Our marketing collateral is expertly crafted to elevate visibility and reach.

**Guidance** - benefit from our knowledge and utilise our know-how. We understand pool builders because we are pool builders. Our technologically advanced pool range is meticulously manufactured at our purpose-built, state-of-the-art production facility. We take immense pride in having received numerous international awards in all markets, including prestigious SPATA and EUSA awards, serving as undeniable proof of the global recognition of our pool quality.

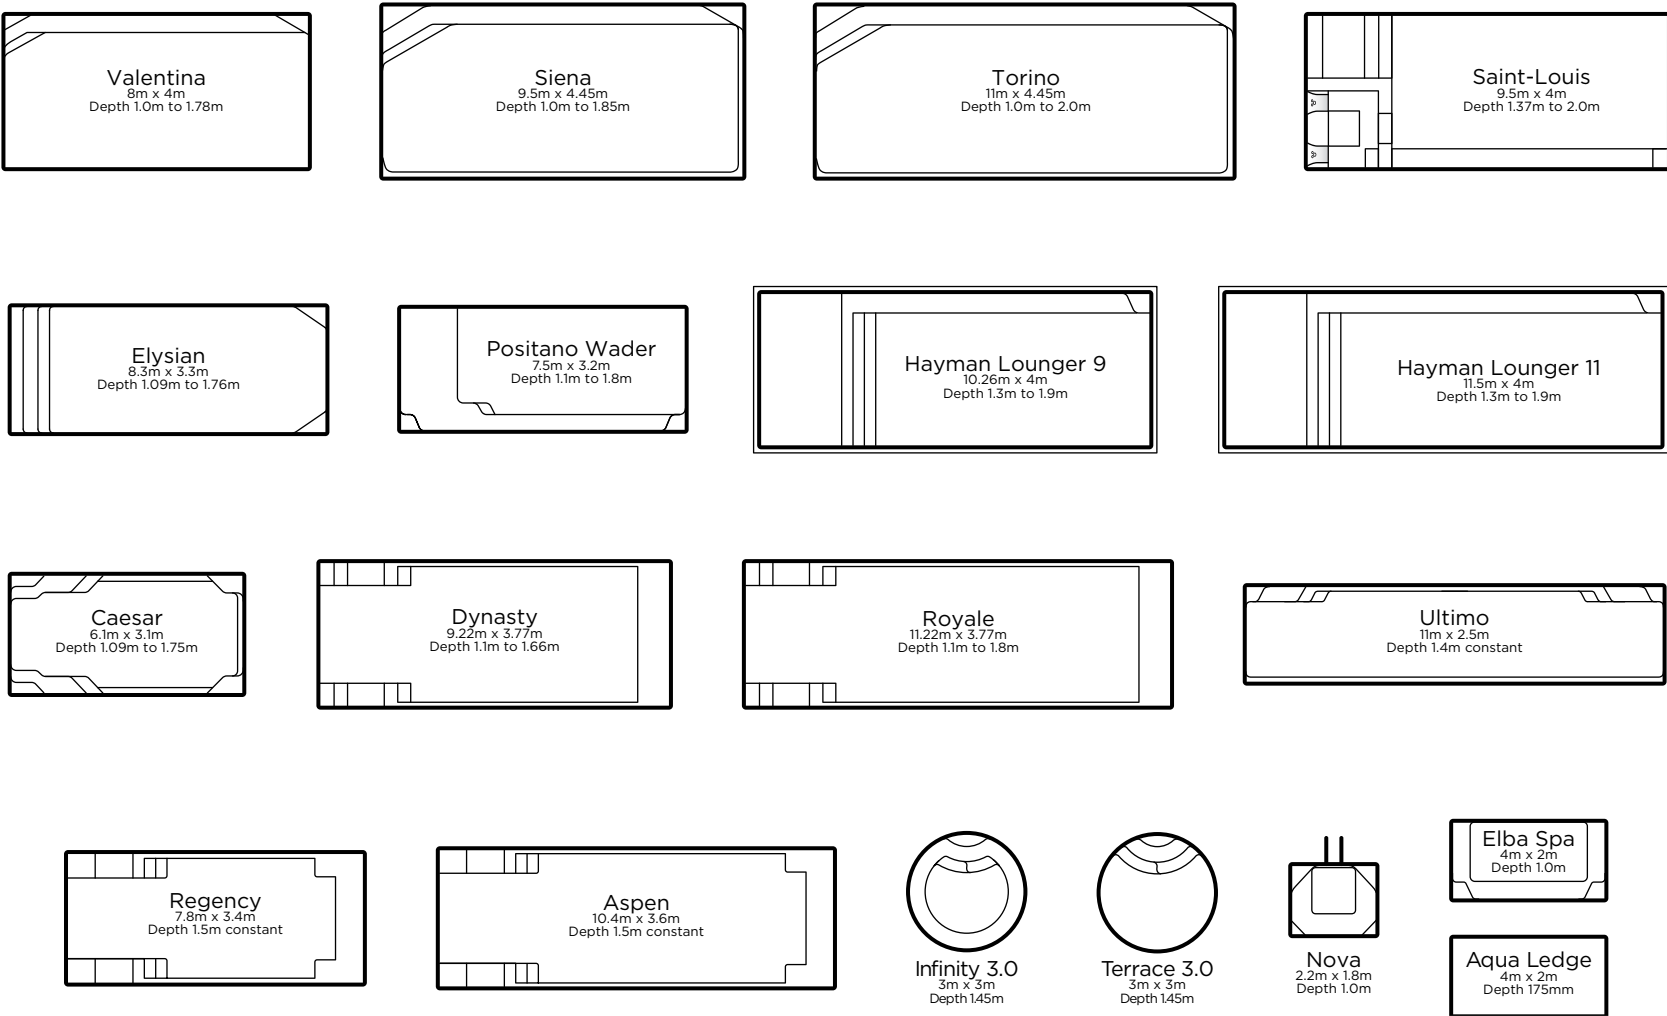

Our **promise** to you -  
there simply is no **better**  
swimming **pool**

# Our innovative range

The design features built into our pools provide additional structural strength. Take a look beyond the surface and you'll discover a level of quality that is distinctly Aqua Technics.

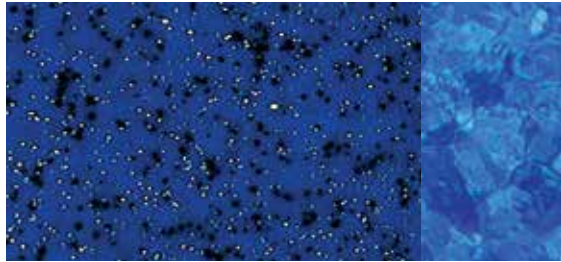

# Superior Fade Resistance

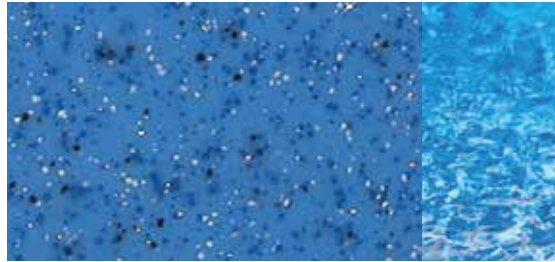

Our range of Pool ColourGuard® finishes offer superior fade-resistant surface protection with beautiful vivid colour that lasts.

## Standard Range
